**Domain-General and Domain-Specific Foundations of Numerical and Arithmetic Processing**

**Start Date**  
Wednesday, September 28, 2016 (from 2 pm)

**End Date**  
Friday, September 30, 2016 (till 12:30 pm)

**Location**  
University of Tuebingen, Tuebingen, Germany  
Lecture Hall, Schleichstr. 4, Department of Psychology

**Workshop Topic**  
Numerical cognition is essential in our daily life. To develop appropriate educational and interventional approaches, we need to understand the domain-general and domain-specific factors influencing numerical and arithmetic processing. Part of the research community in the field of numerical cognition have focused on domain-specific contributions to numerical and arithmetic processing, while other part, mostly from educational and developmental fields, stresses the importance of additional domain-general factors. However, it is essential to understand how these factors interact and contribute to numerical and arithmetic processing across different disciplines. Therefore, the aim of this workshop is to bring together the findings of current research on domain-general and domain-specific factors influencing numerical and arithmetic processing that are otherwise scattered across various educational, psychological, cognitive and neuroscientific research areas. Furthermore, doctoral students are encouraged to present their work to get feedback from leading experts of related fields.

**Keynotes**  
- Bert De Smedt, University of Leuven
- David Landy, Indiana University Bloomington
- Elise Klein/Korbinian Moeller, IWM, Tuebingen
- Catherine Thevenot, University of Lausanne
- Thomas Dresler, University of Tuebingen
- Oliver Lindemann, University of Potsdam
- Hans-Christoph Nuerk, University of Tuebingen

**Registration**  
Registration is open until 20 August, at https://www.soscisurvey.de/workshop_registration_2016/

**Costs**  
There is no registration fee.

**Poster Presentation**  
You can submit an abstract at the registration site.

**Poster Award**  
The best three posters will be selected by a reviewing committee and awarded with a certificate and a small prize.

**Accommodation**  
Accommodation reimbursement will be offered to 10 PhD students selected on the basis of the poster proposals and motivation letters.

**Contact**
