The Chair of Economic Theory of Prof. M. Stadler is looking for a

**Student assistant (m/f/d) - 20 hours per month**

**from March or April 2020 on**

We are looking for support in an empirical research project. The position should start in March or April and is at first limited to three months with a possibility of renewal.

Your task will be to help collecting and analyzing data for a project about online consumption behavior. The data will be collected with an online survey using SoSci Survey; you will have to analyze it with a software or programming language of your choice.

**Your profile:**

- you have a good knowledge in statistics and data evaluation
- you are familiar with a statistical software (e.g. STATA)
- possibly you have already gathered some practical experience in data evaluation
- you are familiar with \LaTeX
- you have a good understanding of written English

Please send your application together with a CV and a transcript of records to: celine.tobler-trexler@uni-tuebingen.de. We are looking forward to hearing from you!
