The Bachelor Programme
General Linguistics

1. **Methods I** (ASW-BA-02)
   - Mathematical Methods: Logic
   - Programming & Data Analysis
   - 25WS 3CP

2. **Methods II** (ASW-BA-02)
   - Mathematical Methods: Statistics
   - 45WS 6CP

3. **Syntax & Semantics** (ASW-BA-02)
   - Syntax & Semantics
   - Tutorial
   - 45WS 6CP 25WS 3CP

4. **Psycholinguistics** (ASW-BA-02)
   - Psycholinguistics
   - Tutorial
   - 45WS 6CP 25WS 3CP

5. **Semantics & Pragmatics** (ASW-BA-02)
   - Semantics & Pragmatics
   - Tutorial
   - 45WS 6CP 25WS 3CP

6. **Variation, Evolution & Change** (ASW-BA-02)
   - Advanced Seminar
   - Project
   - 25WS 6CP 25WS 6CP

7. **Language Use** (ASW-BA-02)
   - Advanced Seminar
   - Project
   - 25WS 6CP 25WS 6CP

8. **Exam Module** (ASW-BA-02)
   - Bachelor-Thesis
   - 12

- **Basic and Methodological Modules**
  Provide basic knowledge and methodological fundamentals

- **Fundamental Modules**
  Provide fundamental knowledge about the central areas in linguistics

- **Specialisation Modules**
  Deepen professional and methodological knowledge and give an insight into current research topics

In the **main subject**, modules amounting to 99 credit points have to be completed. Additionally, 21 credit points must be earned through interdisciplinary, field-oriented competences. Together with the 60 credit points of the minor subject, the BA major programme is worth 180 credit points.

In the **minor subject**, modules amounting to 60 credit points have to be completed. Here, all basic and methodological modules as well as all fundamental modules must be completed. By choosing an advanced seminar from the specialization modules, an insight about further topics is provided.
