3-day field trip for Bsc and Msc Geosciences students: Hydrothermal deposits of the Schwarzwald

Costs: 80€

The field trip covers the distribution, formation, mineralogy and geochemistry of the hydrothermal vein-type deposits in the Schwarzwald. Planned is field work on natural outcrops, but also in underground visitor mines (depending on the COVID regulations).

Depending on the COVID regulations up to 12 students can participate at one of the following dates:

4.-6. June

30. July – 1. August

Registration via ILIAS is open until April 30th on:

Sebastian Staude / Manuel Scharrer
