A successful speech needs a strong voice

Presenting ideas and convincing others is an everyday task for scientists. In this workshop you will learn how to use your voice and your speech confidently in presentations, public speaking and individual conversations. The conscious handling of your own voice will be useful in better representing yourself. In addition you will learn methods to deal with stage fright and to reduce stress.

Lecturer: Gabriele Blinzing, speech therapist and voice coach
Organizer: CIN – Board for the Advancement of Women
