

To strengthen our Department in Böblingen, we are currently looking for a

Supplier Quality Engineer (m/w/d)

About us

MOBIS Parts Europe N.V. is the European branch of Hyundai MOBIS, a worldwide leading supplier of genuine parts and accessories in the field of automotive. Together with Hyundai Motors and Kia Motors, Hyundai MOBIS is one of the biggest companies within the Hyundai group. In addition to research and development of high-tech products for passenger cars, MOBIS Parts Europe N.V. is responsible for the whole aftersales business of genuine parts and accessories for Hyundai Motors and Kia Motors in Europe.

Your profile

- Have a Bachelor or Master's Degree in Business Management, Economics, Logistics, Supply Chain Management, Production Management or a similar degree.
- VDA 6.3 audit certification is well appreciated.
- Min. 5 years' experience at a Tier 1 automotive supplier or at an automotive OEM.

Your tasks

Your workplace would be in Böblingen, Germany for the first year, afterwards on site in Kecskemet, Hungary where one of our plants is located. In order to support us in preparing suppliers status including Quality- and engineering status and Constantly follow up suppliers part status, you will be responsible for :

- Proven ability to prioritize tasks and make decisions under time pressure.
- High passion for self-development.
- Driven by self-initiative and willing to find solutions on diverse topics.
- Proficient with MS Office Tools such as Excel, Powerpoint, Visual Basics, Word and Outlook.
- Fluent in English and German languages. Knowledge of Korean is an advantage.
- Ensuring readiness for series production before the start of production and during series production in the event of relocations, technical changes or supplier change:
- Conducting regular meeting with suppliers and reporting to customer.
- Weekly or Bi-Weekly meeting for tracking development/logistics/package/Contracts.
- Supplying contract with Tier Ns tracking.
- Package development tracking.
- PPA cover sheet/ IMDS report tracking.
- Start system(development)/ PIA system(PPA) Tracking.
- Capacity tracking.
- Management of the PPAP process for suppliers in the area of responsibility.
- PPA cover sheet/ IMDS / Q History .
- Close co-operation with all involved stakeholders; development, Logistics, Purchasing, Production, Sales team as well as customer.
- Establishing a repository for all supplier management documents.
- Ensuring supplier has enough production capacities
- Managing escalation meetings with customer.
- Addressing price management issue with the suppliers.

What we offer you

- You will become an important member of an international company that is strongly focusing on the development of the latest automotive technologies.
- Take on an exciting position that will directly impact the company's direction in the automotive industry.
- Long-term career perspective and promising growth opportunities.
- Flexible work time model that ensures an attractive work-life balance.
- Modern office space with table tennis room, thinking room, fully equipped meeting rooms.
- Cafeteria area stocked daily with lunch snacks, fresh fruits; in addition, meal vouchers given monthly.
- Many corporate benefits including discount on nearby gym membership.
- Regular company events, team dinners, yearly sports competition.
- Company pension and Linked & Learning Trainings
