

Supplementary declaration to the application for admission to the doctoral qualification process for publication-oriented or publication-based dissertations according to § 6 (1) and (2) of the doctoral degree regulations of the Faculty of Economics and Social Sciences

Last name: _____ First name: _____

Dissertation title: _____

My dissertation contains **scientific publications** or manuscripts intended for publication, and/or parts of my dissertation are **part of one or more collaborative works** according to § 6 (2). It has **consistent page numbering** and a **uniform list of publications**, as well as an **introduction** introducing the overarching topic and a **summary** relating the results (for the number of pages of the framing text that may be required in the subjects, see the guide to doctoral degrees from p. 5).

List of publications included in the dissertation or the manuscripts intended for publication:

Intended for submission (A).
Submitted (under review) (B).
Invited to revise (revise & resubmit) (C).
Accepted for publication (D).
Published (E).

1		
2		
3		
4		
5		

One or more of the articles included are part of one or more collaborative works:

Please attach a statement outlining the scope of the collaborative work, the names of the collaborators and their part and role in the overall project, and the significance of your own contributions (data collection, analysis, formulation, etc.) to the collaborative work [see overleaf for possible contributions].

I hereby declare that my own part of the thesis I submit for my doctorate with the title mentioned above is my own independent work, that I used only the sources and resources cited and have clearly indicated all content adopted either word-for-word or in substance. I solemnly swear that this information is true and that I have not concealed any relevant information. I am aware that making a false declaration is punishable by a fine or by a prison term of up to three years.

Date: _____ Signature: _____

Example PhD student:

Management of the overall project
Further development of the research question
Support in the compilation of the data set
Preparation of the data set
Development of the identification strategy
Literature research and preparation of the literature
Descriptive analyses
Calculation of the models
Development of the paper structure
Writing a first draft of the paper
Editing/revising in the review process

Example co-author:

Idea for the research question
Co-development of the identification strategy
Co-development of the paper structure
Revision of the first draft of the paper
Revision of further paper versions

Example co-author:

Idea for the research question
Compilation of the data set
Co-development of the identification strategy
Revision of the paper versions
