

Independent practical thesis work

2024-04-11, Markus Wolters

The following student wants to apply for the MSc Biochemistry programme at the University of Tübingen, Germany.

Our programme is specialising on independent scientific lab work. Applicants with appropriate previous training will be granted a bonus during the application process.

The supervisor confirms the independent practical work the student has performed during her or his thesis or internship work. In case the student is applying before finishing the bachelor programme, the supervisor confirms current or intended independent work.

Applicant/student
