

Master of Biochemistry

Registration of master thesis

2023-04

This document has to be received by the registrar's office before the start of the thesis.

A Co-Supervisor and the approval by the head of the examination board are mandatory, if the thesis is planned outside the IFIB or the Plant Biochemistry of the ZMBP. Registration of such an external thesis requires filling out the table on the next page.

A list of supervisors is available here: <https://uni-tuebingen.de/en/46394>

Student and thesis information

Name	_____
First Name	_____
Student ID	_____
Host institution, city	_____
Start Date	_____
Working Title	_____
1st Supervisor	_____
Email 1st Supervisor	_____
Co-Supervisor, if applicable	_____

General hints

- The thesis must be handed in exactly **6 months** after the starting date (including writing).
- Reviews by the supervisors are due **1 months** after that.
- Extensions are possible for **health reasons only** and only upon written and signed request.
- The final thesis must be made available to all supervisors and the registrar's office, entirely and unblackened.
- Theses are not generally publicly available. Upon request, they can be kept confidential for 1 year, renewable.
- **Theses cannot be paid for!** HiWi-contracts of up to 40 hours/month are deemed compatible with full-time work on a master thesis. Proven additional expenses compared to studying in Tübingen may be reimbursed.

Declaration of the student

By signing this document, the student declares that he/she

- did not definitively lose the examination entitlement in the MSc Biochemistry or equivalent programme,
- did not definitively fail any required module-specific assessments, Master's or final examination in the MSc Biochemistry or equivalent programme, and
- is not currently involved in an examination process in the MSc Biochemistry or equivalent programme.

Signatures

Student (date and signature)

1st Supervisor (date and signature)

Co-supervisor (date and signature), if applicable

Head of examination board (date and signature)

Further information for theses planned outside the IFIB or Plant Biochemistry of the ZMBP (“external” theses)

Detailed programme of the master thesis

Please provide a general timetable/schedule covering the master thesis. It should demonstrate that the host lab has developed a specific plan and all requirements are in place (e.g. registration/approval of animal experiments)

Monitoring plan

How, when and by whom is the student monitored during the master thesis?
