

GRK 2381 Science Forum

Venue: IFIB Lecture Hall Level 2, 12:15 -1:45 pm or **5:15-6:45 pm**

Schedule December 2021 to July 2022 (as of January 27, 2022)

Date	Topic	Speaker
December 1, 2021 12:15 pm	"Novel CAR T cell designs and therapeutic applications"	Dr. Judith Feucht Cluster of Excellence "iFIT" (EXC2180) and University Children's Hospital Tübingen
January 12, 2022 12:15 pm	"Synaptic plasticity – from molecular biology to physiology and behavior"	Dr. Lucas Matt Department of Pharmacology, Toxicology and Clinical Pharmacy, University of Tübingen
February 2, 2022 12:15 pm	"Intravital microscopy for understanding immune cell function in tissues"	Dr. Bettina Weigelin Multiscale Immunoimaging, Werner Siemens Imaging Center Department for Preclinical Imaging and Radiopharmacy University of Tübingen
March 9, 2022 5:15 pm	"Auditory processing, cGMP signalling and stress"	Dr. Wibke Singer Tübingen Hearing Research Centre, Department of Otolaryngology, Head and Neck Surgery

GRK 2381
cGMP: From Bedside to Bench

GRK 2381 Science Forum I

Venue: IFIB Lecture Hall Level 2, 12:15 -1:45 pm or 5:15-6:45 pm

Schedule December 2021 to July 2022 (as of January 27, 2022)

April 6, 2022 5:15 pm	“Molecular mechanisms of remyelination in the CNS”	Prof. Mikael Simons Institute of Neuronal Cell Biology (TUM-NZB), Technical University of Munich, German Center for Neurodegenerative Diseases (DZNE)
May 4, 2022 5:15 pm	“Investigations with platelets and endothelial cells to reduce cardiovascular risk in people living with HIV”	Dr. Mike Emerson Imperial College London, Faculty of Medicine, National Heart & Lung Institute
June 1, 2022 5:15 pm	“Selective regulators of endothelial junctions”	Dr. Maïke Frye Center for Diagnostics, Clinical Chemistry and Laboratory Medicine, UKE Hamburg
July 6, 2022 5:15 pm	“Macrophage heterogeneity in ischemic heart repair”	Dr. Clément Cochain Comprehensive Heart Failure Center Würzburg (CHFC)
