

Tübingen - Virtual Intercultural Program

October 9 – December 15, 2023

Course title	Germany - NOW!
Course content	The course Germany - NOW! takes you on a tour of Germany: people, places, politics, popular culture. What is the German nation debating? You will discover that some debates are shared in your home countries whereas others seem to get more attention in Germany. Using different media we will explore (in self-study, group discussions and the plenary forum) the historical, geopolitical, and cultural reasons for this. Some key words: Post-Merkel Germany, the new extreme right, a global player, regional vs. federal, the green city Tübingen (its current elections for mayor). Key is a willingness to contribute to the globally-dispersed debate so that from our different cultural perspectives we learn not only about Germany. So, please also feel free to state your interests. I will try to accomodate all topics. There will be readings, images, and clips to analyze. The course language is English, but you will learn German words like "Ostalgie" (the nostalgia for socialist Eastern Germany), Öko-Diktatur (dictatorship of the ecologically minded), and others.
