Tübingen, 27 April 2015

Everyone is welcome at the University of Tübingen's 2015 research fair – known as TÜFFF – on **Friday, May 8** at the **Hörsaalzentrum/ Lecture Center at Auf der Morgenstelle 16**.

The fair showcases all kinds of different research going on at the University. Take a look behind the scenes of the laboratories, hospitals and research institutes; try out more than 30 different experiments! Come and find out what happens in the brain; whether it is possible to share justly; and how jokes work!

The information stands will be open from 3 to 9pm; between 4 and 8pm, you can take a tour of the Center for Plant Molecular Biology (ZMBP) or the Nanostructuring and Analytics laboratory, and see electric fish.

The full program is at: www.uni-tuebingen.de/tuefff
