

TEACHING & SUPERVISION OF STUDENTS

– BEATE STELZER –

University Tübingen (2017 - ...):

Bachelor of Science in Physics, Master in Astro- and Particle Physics:

<i>Architecture of Exoplanet Systems</i>	1 × since WS21/22
<i>(In)habitable Worlds</i>	1 × since WS21/22
<i>Star Formation</i>	3 × since SS2020
<i>Seminar: Astro- and particle physics</i>	1 × WS19/20
<i>Exoplanets</i>	3 × (WS18/19 - WS20/21)
<i>Seminar: Modern topics in astronomy & astrophysics</i>	3 × since SS17
<i>Astronomy & Astrophysics</i>	4 × since SS17

External Lecture Cycles and Schools:

- Heidelberg Summer School 2021, *Stellar Ecosystems*, Germany, Sep 2021
Stellar activity
The impact of activity on planetary atmospheres
- AstroCam School *Young Stellar Objects: from cool stars to exoplanets*, El Escorial, Madrid, Spagna, 29 Giu - 3 Lug 2009
High-energy processes in young stars and brown dwarfs
[<http://www.astrocam.es/school09> (pdf accessibile)]
- Supervisor of practical exercises
School on X-ray Astronomy in the CONSTELLATION network, Palermo, Italia, 18-22 Mag 2009
[<http://www.astropa.unipa.it/ScuolaX2009/Practical.html>]
- Graduiertenkolleg Universität Hamburg, Germany, Apr 2008
Magnetic activity at the bottom of the stellar sequence and beyond
[<http://www.hs.uni-hamburg.de/grk/bd2008.html> (material accessibile only from Hamburg or Göttingen)]

Students Supervised:

- PhD
 - Antonio Armeni, 2022 – ...
