

## Closing Symposium Paleoanthropology at the Gates of Europe (PaGE)

1 – 3 December, 2016, Alte Aula, Tübingen

### Organizers

Katerina Harvati, Vangelis Turloukis

### FRIDAY, 2<sup>ND</sup> DECEMBER 2016

- 9:00 Welcome address from the Faculty of Science  
9:30 **Katerina Harvati** - PaGE: A retrospective

### Morning Session: Middle Paleolithic and the Neanderthal lineage (Chair V. Turloukis)

- 10:00 **Reyes-Centeno et al.** - Inner ear form of the Middle Pleistocene cranium from Petralona Cave,  
10:20 **Bauer et al.** - Geometric morphometric analysis and internal structure measurements of the Neanderthal lower fourth premolars from Kalamakia, Greece  
10:40 **Garefalakis et al.** - Late Pleistocene Neanderthal occupation of Western Mani: the evidence from the Middle Paleolithic assemblages of Mavri Spilia  
11:30 **Kourtessi-Philippakis** - The Middle Kalamas Archeology Project; Thesprotia, Greece: 2011-2015  
11:50 **Pappas & Pomonis** - Lithic raw materials in the Middle Kalamas basin: A petrological approach  
12:10 **Thompson et al.** - In search of Pleistocene remains at the Gates of Europe: results from the PaGE Project's directed surface survey of Pleistocene sediments in the basin of Megalopolis

### Afternoon Session: Lower Paleolithic: Marathousa 1, Megalopolis (Chair K. Harvati)

- 14:00 **Panagopoulou et al.** - Marathousa 1: Overview of the excavation and preliminary results  
14:20 **Karkanias et al.** - Sedimentology and micromorphology of the Lower Paleolithic lakeshore site Marathousa 1  
14:40 **Blackwell et al.** - Tripling the pleasure: ESR dating of ungulate teeth and molluscs from Marathousa 1  
15:00 **Muttoni et al.** - Magnetostratigraphy of the Pleistocene continental sediments of the Megalopolis Basin, Greece: constraints on the age of the Marathousa 1 archaeological levels  
15:20 **Jakobs & Li** - Luminescence dating of sediment samples from Marathousa 1, Greece  
15:40 **Turloukis et al.** - The cultural material from the Lower Paleolithic site of Marathousa 1: preliminary results  
16:30 **Konidaris et al.** - The *Elephas antiquus* skeleton and other large mammals from Marathousa : preliminary results on taxonomy, biochronology, paleoecology, and taphonomy  
16:50 **Doukas et al.** - The small mammal fauna from the Paleolithic site Marathousa 1  
17:10 **Field & van Berge-Henegouwen** - A plant microfossil investigation of organic sediments from Marathousa 1  
17:30 **Ntinou** - Preliminary study of the wood remains from the Lower Paleolithic site Marathousa 1  
17:50 **Tsartsidou et al.** - The invisible record of the Marathousa 1 sediments: phytoliths and diatoms

### SATURDAY, 3<sup>RD</sup> DECEMBER 2016

### Morning Session: Miocene – Pleistocene: Paleontology, Paleoenvironment & Site Formation (Chair G. Konidaris)

- 9:30 **Ioannidou et al.** - A new three-dimensional analysis of the *Ouranopithecus macedoniensis* cranium (Late Miocene, Macedonia, Greece)  
9:50 **Konidaris et al.** - A new Early Pleistocene locality with vertebrates from Mygdonia basin (Macedonia, Greece): Tsiotra Vryssi  
10:10 **Koufos et al.** - Revisiting *Ursus etruscus* from Greece, with description of new material from the Early Pleistocene locality Tsiotra Vryssi (Mygdonia Basin)  
10:30 **Kostopoulos et al.** - Updating the Apollonia-1 fossil mammals through the contribution of PaGE  
10:50 **Athanassiou** - Pleistocene vertebrates from the Kyparissia lignite mine, Megalopolis, S. Greece  
11:40 **Athanassiou et al.** - *Hippopotamus* (Artiodactyla, Mammalia) and other vertebrate remains from the Kyparissia-T site, Megalopolis  
12:00 **Michailidis et al.** - The ornithological remains from Tsiotra Vryssi (Early Pleistocene, Mygdonia basin, Macedonia, Greece) and Marathousa 1 (Middle Pleistocene, Megalopolis basin, Arcadia, Greece)  
12:20 **Giusti et al.** - Beyond maps: Patterns of site formation processes at Marathousa 1 and Tsiotra Vryssi
