Social Justice and Technological Futures

May 2-3, 2023, Tübingen, Germany

The **IZEW** is an interdisciplinary research institute for ethical questions that arise in and through the sciences. At the IZEW, a program of “Ethics in the sciences” is pursued, placing the responsibility for approaching ethical questions within the sciences themselves.

The **RHET AI Center** was established to study the social, cultural, and ethical challenges of AI. It is funded by the Volkswagen Foundation within its funding portfolio Science Communication Cubed.

The **Collaborative Research Centre 923 “Threatened Orders - Societies under Stress”** at the University of Tübingen investigates how people and societies cope with crises, catastrophes, and other extreme situations. It is funded by the German Research Foundation.

The **WeNet project** is funded by the EU’s Horizon 2020 program under Grant Agreement number 823783.

The Symposium is supported by the **Platform “Global Encounters”** in the context of the University of Tübingen Excellence Strategy with funds from the German Federal Ministry of Education and Research and the Baden-Württemberg Ministry of Science, Research and Art.

The participation of our speakers from the University of North Carolina at Chapel Hill is supported in the context of the strategic partnership between UNC-Tübingen and the **University of Tübingen Office for International Research Collaboration**.
