

Sommersemester 2019

Oberseminar
Geometrische Analysis, Differentialgeometrie und Relativitätstheorie

Am Mittwoch, den 31.07.2019 spricht um 14 Uhr c. t. im Raum TBA

Prof. Dr. Simon Brendle
(Columbia University)

über das Thema

The isoperimetric inequality for a minimal submanifold in Euclidean space

We prove an isoperimetric inequality which holds for minimal submanifolds in Euclidean space of arbitrary dimension and codimension. Our estimate is sharp if the codimension is at most 2.

Hierzu wird herzlich eingeladen.
