Title of the Research Project ¹	
Supervisor's Name ²	
Start of the Research Project (Duration: 2 months) ³	

Please note that you can only register for one research project, and this registration is binding. With your signature, you confirm that you have read and understood the guidelines of the Department of Computer Science for dealing with plagiarism.

Tübingen, the _____

Student's signature: _____

Supervisor's signature: _____

¹ In terms of the exam regulations, the research project is an assessed coursework, which can be failed. Whether there is a possibility for repetition depends on the supervisor.

² Only professors, academics with habilitation, and other academic staff who have been appointed by the board of examiners in accordance with the respective legal requirements are authorized to sign as supervisors. It is possible to name two supervisors.

³ The research project does not necessarily have to be within one semester. However, the grade will be recorded for the semester for which the research project was registered.
