

**AEG 2006**

## Uwe Schneidewind

I'm living in London, ON / Canada.

My occupation

Postdoc at Western University (UWO) in the group RESTORE  
(Research for Subsurface Transport and Remediation).

My AEG time

I had a great time inside and outside the lecture halls and we were a tight group with a lot of beer and basketball. :)  
I benefited from most of the courses and many people in the science community knew our lecturers, so AEG often served a bit as a conversation starter.
