THINK IN CHINA @CCT #3

FINANCE IN CHINA 2.0: FROM SHADOW BANKING TO ALIPAY

Finance in China 2.0 From Shadow Banking to Alipay

ThinkIN China is a discussion platform established in 2010 which brings Chinese experts together with a diverse audience of locals and foreigners in the heart of academic life in Beijing to address topics concerning contemporary China. In our ThinkIN China@CCT event series, we bring these insights and perspectives from the best ThinkIN China experts to our Tübingen audience through video presentations, providing informed commentary and a forum for further discussion.

In the third ThinkIN China@CCT broadcast, Dr. Liu Qiao, Professor of Finance, Associate Dean of Guanghua School of Management at Peking University, analyzes issues surrounding the rapid development of e-commerce and, in particular, the rise of mobile payments. He asks what the implications of the new finance sector are and what structural adjustments have been or will need to be made.

Matthias Niefenführ, co-founder of ThinkIN China and vice-director of CCT, comments on Dr. Liu's presentation.
