Foreword はじめに

**Takashi MATSUOKA**

President  
Doshisha University

Doshisha University, established on 29th November, 1875, by Joseph Hardy Neesima, is a comprehensive university located in Kyoto, an ancient city of Japan which has long history of over 1000 years. This university takes "Education of Conscience" as its founding spirit, and has three educational philosophies that are "Christian Principles", "Liberalism", and "Internationalism". At present, there are 14 faculties and 16 graduate schools, such as School of Theology, Faculty of Law, Faculty of Science and Engineering, and Faculty of Life and Medical Sciences, and 800 full-time faculty members are conducting education and research activities toward approximately 30,000 students.

The relationship between Doshisha University and the University of Tübingen started in 1990 by making an agreement regarding student exchange, and in 1993, the University of Tübingen Center for Japanese Language (present: the "Tübingen Center for Japanese Studies at Doshisha University") was established on the Imadegawa Campus of Doshisha University. Since then, for more than 25 years, students from the University of Tübingen have come to study in this university every year. Research exchange also has been conducted over the years mainly in the fields of humanities and social sciences, and has produced many achievements of educational and research exchange.

This time, thanks to the great cooperation by the University of Tübingen, the "Doshisha EU Campus at Tübingen University" has been established on the campus of the University of Tübingen. We express our deep appreciation to the faculty and staff members of the University of Tübingen for their sincere support in many aspects during the establishment.

Responding to the establishment of the Doshisha EU Campus at Tübingen University, we now hold the "Doshisha Week 2019" for further collaboration with the University of Tübingen. I hope the relationship between both universities will grow closer henceforth.

**Bernd ENGLER**

President and Vice-Chancellor  
University of Tübingen

Dear participants of Doshisha Week 2019 in Tübingen:

The University of Tübingen is particularly fond of its long-standing and fruitful partnership with Doshisha University, a university which is defined by similar educational principles. Although the University of Tübingen may claim to be international since its foundation in 1477, we are particularly proud of having established a most valued cooperation agreement with Doshisha University already in the 1990s, including the establishment of the first branch office of a German university at a Japanese university. Thus, it is a great pleasure and honor for our University to co-host the first Doshisha Week in the framework of Doshisha's new EU Campus in Tübingen. We appreciate very much the great efforts of all esteemed colleagues involved in the realization of this important event. I am impressed by the number of participating researchers not only from Doshisha, but also from other universities in Japan, Asia and Europe who will address innovative areas from the medical and life sciences, medical engineering as well as social sciences.

Doshisha University and the University of Tübingen are both aiming at enhancing internationalization and promoting global awareness at their institutions. Doshisha EU Campus offers attractive opportunities for increasing our long-standing collaborations and for supporting mutual mobility of students and faculty.

I wish the Doshisha Week 2019 in Tübingen great success!

Background

About Doshisha EU Campus

Doshisha University has established EU Campus at the University of Tübingen in Germany. It serves as a hub for our activities in the area of education and research not only in Germany but all of Europe.

As EU Campus-related initiatives, we have started several programs in close collaboration with University of Tübingen, i.e., Doshisha Week, Annual International Symposia, Faculty Exchange Programs and Semester Programs for Doshisha students which are partly participated by the students of University of Tübingen, in particular, the students of Japanese Studies.

EU Campus consists of spaces for classes, administrative work, meetings and students' lounge. Administrative staff from Doshisha reside at EU Campus Office, who are expected to work and assist our faculties and students staying onsite and to serve as a contact person with the University of Tübingen.

Joseph Neesima was 21 years old. After defying the seclusion policy and leaving Hakodate in secret, he boarded the Wild Rover in Shanghai, and crossed over to America - into the freedom of the open seas and unknown lands.

The rudder, positioned ready to embark, has been made the symbol of Vision 2025 in order to carry the spirit of Joseph Neesima into the future.

# DOSHISHA WEEK 2019

“Advance Creativity and Collaboration in Research”

## About Doshisha Week

Doshisha University, with the cooperation of the University of Tübingen, has established the “Doshisha EU Campus”, and based on this, we are planning to promote research exchange with various excellent universities and research institutes in Europe and whole EU region, as well as the exchange with the University of Tübingen.

Doshisha University and the University of Tübingen have long and fruitful experience of educational and research exchange between researchers, mainly in the fields of humanities and social sciences. Now, we have planned the “Doshisha Week” aiming for further research exchange with the University of Tübingen, which covers broader fields not only of humanities or social sciences, and hope to deepen one of our educational philosophies, internationalism, in order to contribute to the society.

VISION 2025 “Advance Creativity and Collaboration in Research”

Planning to celebrate the 150th anniversary in 2025, Doshisha University has formulated the “VISION 2025”, the six main visions to focus on in the fields of education, students’ life, branding strategy, and so on.

“Advance Creativity and Collaboration in Research” is the vision of research, which aim is as follows:

As a comprehensive seat of learning with more than 800 academic researchers spanning numerous fields, we seek new discoveries by combining insights from multiple disciplines. Partnerships with governments and businesses on a global scale combined with technology transfer also help to enhance our capacity for ground-breaking research.

### Program

Monday, Nov. 25 | Venue: Alte Aula, Münzgasse 30

Opening	
10:00	Prof. Ryuichi YOKOGAWA, Ph.D. Vice President, Dean of Organization for Research Initiatives and Development, Doshisha University <b>Opening Address:</b> <b>Introduce Doshisha University, Major research topics, Doshisha EU Campus</b>
10:20	Prof. Dr. Monique SCHEER Vice President, University of Tübingen <b>Welcome Address</b>
10:40	Coffee Break
11:00	Prof. Dr. Klaus ANTONI Department of Japanese Studies, Institute of Asian and Oriental Studies, Faculty of Humanities, University of Tübingen <b>On the History of Collaborations between Doshisha University and University of Tübingen</b>
11:20	Discussion
12:00	Lunch

## Doshisha Space-DREAM Project: A Great Contribution to Maintaining Human Health Both in Space and on Earth

Monday, November 25

Alte Aula, Münzgasse 30

### Doshisha Space-DREAM Project

Doshisha Research Project for Active Life in Space Engineering and Medical Biology

The subject of research for the Doshisha Space-DREAM Project is the new academic field of space biomedical engineering that utilizes simulations of exposure to low-gravity environments. Expanding upon this subject, the project engages in research connected to practical applications for other medical endeavors, including new kinesitherapies for astronauts and those with trouble walking, developments in rehabilitation prescription and equipment, and drug development. Furthermore, by conducting international collaborative research with the NASA Johnson Space Center, UC System schools (University of California at Los Angeles and San Diego) in the United States, University of Genoa in Italy, and other academic institutions, the project plans to create distinctive research results and develop globally-minded human resources who can take on any challenge.

### Program

Monday, Nov. 25 | Venue: Alte Aula, Münzgasse 30

#### A Great Contribution to Maintaining Human Health Both in Space and on Earth

	Chair: Prof. Yoshinobu OHIRA, Ph.D. (Professor, Organization for Research Initiatives and Development, Doshisha University)
13:30	Prof. Nobutaka TSUJIUCHI, Ph.D. (Faculty of Science and Engineering, Head of Doshisha Research Project for Active Life in Space Engineering and Medical Biology, Doshisha University) <b>‘Space-DREAM Project’ - Platform for Integrated Research and International Base for Research Cooperation on How to Extend Healthy Life Expectancies Using the Background of Space Biomedical Engineering</b>
14:00	Ms. Yo OUCHI (Graduate School of Science and Engineering, Doshisha University) <b>Evaluation of the Influence on Walking using Load-controlled Treadmill</b>
14:15	Prof. Sara TAVELLA, Ph.D. (University of Genoa, Italy) <b>The Skeleton and Its Adaptation to Gravity</b>
14:45	Coffee Break
15:00	Prof. Yoshinobu OHIRA, Ph.D. (Doshisha University) <b>Neuromuscular responses to gravitational load levels</b>
15:30	Prof. Dr. Martin A. GIESE (Department of Cognitive Neurology, University of Tübingen) <b>Quantitative models of complex body motion and applications in the diagnosis and rehabilitation training of movement disorders</b>
16:10	Discussion and Conclusion
17:00	<b>Visit to the Cyberneum</b> (Max Planck Institute for Biological Cybernetics) <a href="http://www.cyberneum.de/index.html">http://www.cyberneum.de/index.html</a> Prof. Dr. Heinrich Bühlhoff, Department of Human Perception, Cognition & Action

## Modernity's Challenges to Law and Dispute Resolution

Tuesday, November 26 - Thursday, November 28

Fürstenzimmer, Schloss Hohentübingen (Tübingen Castle)

Globalization, spurred by technological advance, poses challenges to the legal concepts. This Symposium brings together international scholars and practising lawyers to explore the nature of these challenges and possible responses to them. The "International Dispute Resolution" part of the Symposium will focus on modern challenges to mediation, arbitration and litigation from comparative and practical viewpoints. The "Digital Society and Legal Issues" part of the Symposium will highlight the need for law and regulation to meet the challenges of digital and information technologies. This Symposium is one of the research projects taking place during "Doshisha Week" at University of Tübingen to celebrate the establishment of the Doshisha EU Campus at Tübingen University in 2018.

Hosts: Doshisha University and University of Tübingen  
Co-Hosts: Renmin University of China; Osaka University MIFA Project; Thammasat University

### Program

Tuesday, Nov. 26 | Venue: Fürstenzimmer, Schloss Hohentübingen (Tübingen Castle)

#### I. International Dispute Resolution

##### Opening

9:00	Wolfgang FORSTER (Vice-Dean, Professor, Faculty of Law, University of Tübingen) <b>Welcome Address</b>
	Ryuichi YOKOGAWA (Vice President, Professor, Doshisha University) <b>Doshisha EU Campus at Tübingen and Doshisha Week</b>
	Naoshi TAKASUGI (Dean, Professor, Faculty of Law, Doshisha University) <b>Opening Address</b>

#### I.1 - Family Mediation in International Context

	Chair: Mari NAGATA (Professor, Project Leader of Osaka University MIFA Project)
9:30	Christoph C. PAUL (Lawyer, MiKK: International Mediation Centre for Family Conflict and Child Abduction) <b>The history of Cross-Border Family Mediation in Europe</b>
9:50	Christian von BAUMBACH (Mediator, MiKK) <b>The Practice of MiKK</b>
10:10	Coffee Break
10:40	Mari NAGATA (Professor, Osaka University) <b>Family Mediation and International Family Mediation in Japan</b>

11:00	Discussion
12:30	Lunch
<b>I.2 - International Commercial Mediation</b>	
14:30	Chair: Haruo OKADA (Lawyer, Chair of JIMC-Kyoto: Japan International Mediation Center in Kyoto) <b>Recent movements and issues involving international commercial mediation</b>
15:00	Aya YAMADA (Professor, Kyoto University) <b>Enforceability of mediation settlement: Panacea or anathema?</b>
15:20	Nadja ALEXANDER (Professor, Singapore Management University, Director of SIDRA: Singapore International Dispute Resolution Academy) <b>What happens after the ink has dried? International Mediation Practice After the Singapore Convention</b>
15:40	Coffee Break
16:00	ZHENG Weiwei (Professor, Renmin University of China) <b>Research on the Major Issues in the International Commercial Mediation: New Challenges with Chinese Perspective</b>
16:20	Chiara TONDINI (Chief of Secretariat, FIMC: Florence International Mediation Chamber) <b>The Practice of FIMC</b>
16:40	Kazuhiko NISHIHARA (Lawyer, Secretary-General of JIMC-Kyoto) <b>The Practice of JIMC</b>
17:00	Discussion
17:50	Closing Remarks / Conclusion

University of Tübingen, Schloss Hohentübingen

## Modernity's Challenges to Law and Dispute Resolution

Tuesday, November 26 - Thursday, November 28

Fürstenzimmer, Schloss Hohentübingen (Tübingen Castle)

### Program

Wednesday, Nov. 27 | Venue: Fürstenzimmer, Schloss Hohentübingen (Tübingen Castle)

#### I.3 - Mediation, Arbitration and Litigation

Chair: Hans Peter MARUTSCHKE (Professor, Doshisha University)

9:00	Moritz BÄLZ (Professor, Goethe University Frankfurt) <b>Nuclear Damage ADR after Fukushima – An Outsider's Perspective</b>
9:20	Shiro KAWASHIMA (Professor, Doshisha University) <b>ADR in Japan</b>
9:40	Coffee Break
10:20	Asako WECHS HATANAKA (Professor, Ritsumeikan University) <b>ADR and IP</b>
10:40	Edgar PHILIPPIN (Professor, University of Lausanne) <b>Confidentiality Objection in the context of the Request for Edition of Documents in Arbitral Proceedings</b>
11:00	Discussion
12:30	Lunch
14:30	Stefan HUBER (Professor, University of Tübingen) <b>The recognition and enforcement of judicial decisions within the European Union - general idea and principles</b>
14:50	Anselmo REYES (International Judge, Singapore International Commercial Court) <b>Implications of the 2019 Hague Convention on the Recognition and Enforcement of Commercial Judgments in Asia</b>
15:10	Martin GEBAUER (Professor, University of Tübingen) <b>Choice of Court Agreements with Parties from Third States from a European Point of View</b>

15:30	Coffee Break
16:00	François MAILHÉ (Professor, Université de Picardie Jules Verne) <b>New International Commercial Court in France</b>
16:20	Akawat LAOWONSIRI (Professor, Thammasat University) <b>State Immunity in Civil and Commercial Matters</b>
16:40	Discussion
17:50	Closing Remarks / Conclusion

### Museum of the University of Tübingen MUT | Ancient Cultures | Collections in the Hohentübingen Castle

Web <https://www.unimuseum.uni-tuebingen.de/>

E-Mail [museum@uni-tuebingen.de](mailto:museum@uni-tuebingen.de)

Opening Hours  
Wednesday - Sunday, 10am - 5pm  
Thursday, 10am - 7pm

Admission  
Adults 5€

## Modernity's Challenges to Law and Dispute Resolution

Tuesday, November 26 - Thursday, November 28

Fürstenzimmer, Schloss Hohentübingen (Tübingen Castle)

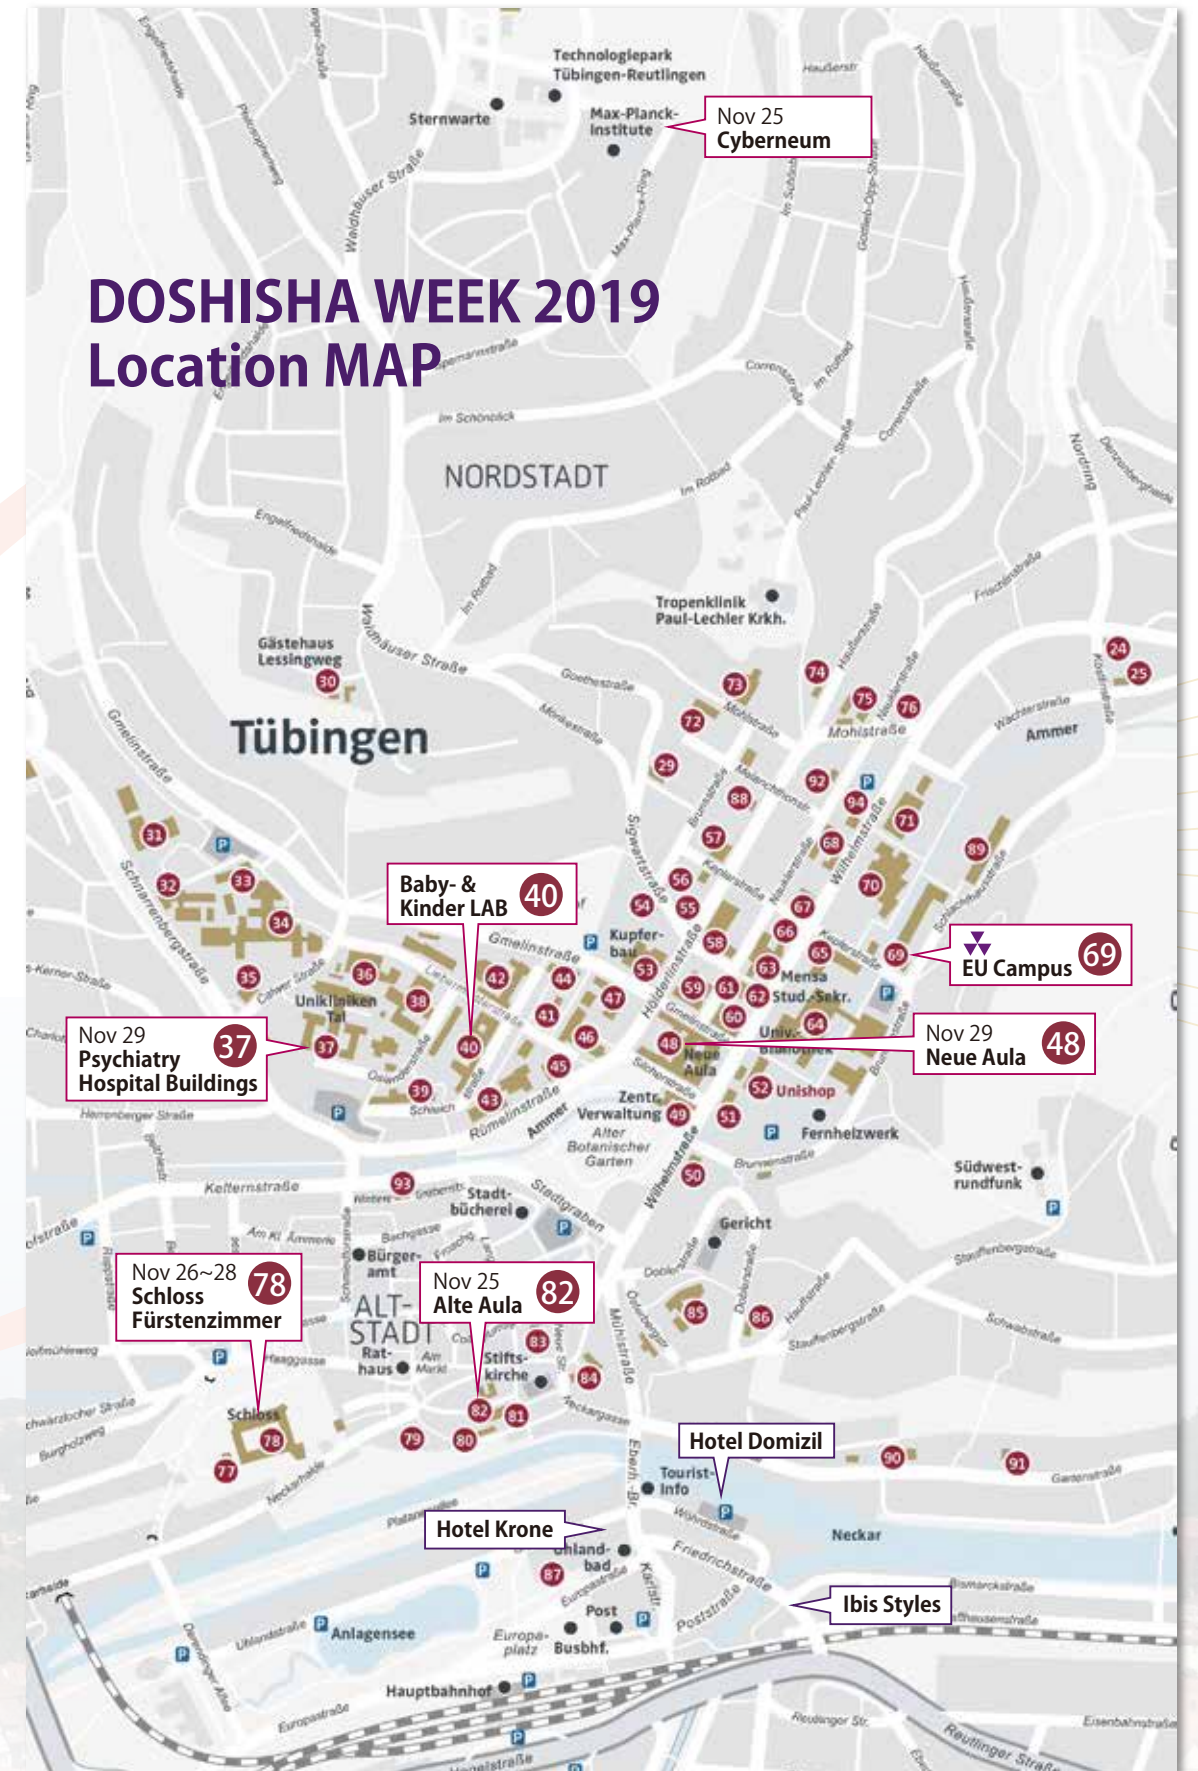

### Program

Thursday, Nov. 28 | Venue: Fürstenzimmer, Schloss Hohentübingen (Tübingen Castle)

#### II. Digital Society and Legal Issues

Chair: DU Huanfang (Professor, Renmin University of China)

9:30	Lukas RASS-MASSON (Professor, Toulouse 1 Capitole University) <b>Legal Issues and e-Sports: A French Model of e-Sports Law?</b>
9:50	JIN Chun (Professor, Doshisha University) <b>How technologies and innovation are driving change Chinese insolvency law developments</b>
10:10	Stefan THOMAS (Professor, University of Tübingen) <b>Harmful Signals – Cartel Prohibition and Oligopoly Theory in the Age of Machine Learning</b>
10:30	Shingo SERYO (Professor, Doshisha University) <b>GAFAs and Anti-trust</b>
10:50	Discussion
12:30	Lunch
14:30	Koji TAKAHASHI (Professor, Doshisha University) <b>Choice of Law Issues in Blockchain-Based Crypto-Assets</b>
14:50	Kazuyoshi NONOMURA (Professor, Doshisha University) <b>Japan's Law on Right to Personality: Its Historical Development and status quo</b>
15:10	Discussion
<b>Closing</b>	
16:30	Martin GEBAUER (Professor, University of Tübingen) <b>Closing Address</b>
	Naoshi TAKASUGI (Professor, Doshisha University) <b>Appreciation</b>

## Baby Science: Past, Present, and Future

Friday, November 29

University Hospital of Psychiatry and Psychotherapy, Oslanderstr. 14

"Baby Science", a study on the beginning of human growth

Nowadays, problems concerning children become so serious that they are often taken up as social issues, and the circumstances where children are raised are very confused. However, no fundamental solution has been found yet. One of the major causes is that comprehensive research on the mechanisms of children's development from babyhood, or even from the fetal stage, has not ever been conducted enough.

We understand baby as the first stage of long human life, so we also take older person as the research object. Humans are born, grow up, become adult, and get old: Human development can be said to be a process of successive changes. Therefore, we aim to approach "the developmental origin of the mind", which is profound and filled with academic mysteries, by following the developmental process from the beginning of human growth. And this is what we think the important role of "Doshisha University Center for Baby Science", which is the first research base on "Baby Science" in Japan.

### Program

Friday, Nov. 29 | Venue: Festsaal, 1st floor, University Hospital of Psychiatry and Psychotherapy

#### Baby Science: Past, Present, and Future

	Chair: Prof. Shoji ITAKURA, Ph.D. (Professor, Doshisha University)
9:00	Prof. Ryuichi YOKOGAWA, Ph.D. (Vice President, Dean of Organization for Research Initiatives and Development, Doshisha University) <b>Opening address</b>
9:10	Prof. Shoji ITAKURA, Ph.D. (Professor, Doshisha University) <b>Developmental Cybernetics: Understanding infant's mind through a robot</b>
9:40	Dr. Xianwei MENG, Ph.D. (Assistant Professor, Doshisha University) <b>Infants' understanding of others' mental states and hierarchical relationships</b>
10:10	Prof. Josep CALL, Ph.D. (Professor, University of St Andrews) <b>On the origins of mind: A comparative perspective</b>
10:40	Coffee Break
11:00	Prof. Dr. Claudia FRIEDRICH (Professor, University of Tübingen) <b>Contexts and limits of early word learning</b>
11:30	Dr. Med. Gottfried Maria BARTH, M.A. (Doctor, University of Tübingen) <b>Perception of the other and self-perception as central topics in working with babies and adults in the autism spectrum</b>
12:00	Prof. Dr. Martin A. GIESE (Professor, University of Tübingen) <b>Quantitative study of body motion and its perception in the context of social interaction</b>
12:30	Discussion

13:00	Lunch
14:00	Visit to the Women's Hospital <a href="https://www.medizin.uni-tuebingen.de/kinder/en/departments/department-4/">https://www.medizin.uni-tuebingen.de/kinder/en/departments/department-4/</a>
Venue: Neue Aula, Großer Senat (Great Senate) and Docents' Room, Geschwister-Scholl-Platz	

#### Closing Reception

16:00 -17:30	Prof. Ryuichi YOKOGAWA, Ph.D. (Vice President, Dean of Organization for Research Initiatives and Development, Doshisha University) <b>Closing Address</b>
	Prof. Dr. Dr. h.c. Bernd ENGLER (President and Vice-Chancellor, University of Tübingen) <b>Closing Address</b>
	Prof. Mikiyo NIIZEKI (Professor, Director of Division of Research Initiatives, Doshisha University) <b>Appreciation:</b> <b>Information of the next symposium (Feb. 2020, Doshisha University)</b>

Doshisha University, Clark Memorial Hall

The 3rd International Symposium co-organized by Doshisha University and University of Tübingen will be held as below. It follows upon the first International Symposium held in 2018 at Doshisha University and the second International Symposium held in 2019 at University of Tübingen.

[Theme] Challenges toward Building Societies Filled with Respect for "Diversity"  
[Period] February 25th to 28th, 2020  
[Place] Doshisha University, Kyoto, Japan

[Program (tentative)]  
February 25 (Tue.) AM: Individual Lab Visits and/or Campus Tour  
PM: Symposium Day 1, Evening: Welcoming Reception  
February 26 (Wed.) AM/PM: Symposium Day 2  
February 27 (Thu.) AM/PM: Symposium Day 3  
PM: Signing Ceremony, Evening: Reception  
February 28 (Fri.) Individual Lab Visits and/or Kyoto Tour
