

MEANINGFUL, PARTICIPATIVE - PRACTICE-ORIENTED  
**SERVICE-LEARNING**

- ON BOARD:
- Students
  - Lecturers
  - Community Partners
- AND WHENEVER NECESSARY:
- SL Team

A format that isn't effortless, but is worth the effort!

BE PART OF THE JOURNEY

TURN Knowledge into Action

Your ticket for civic engagement at and with the university!

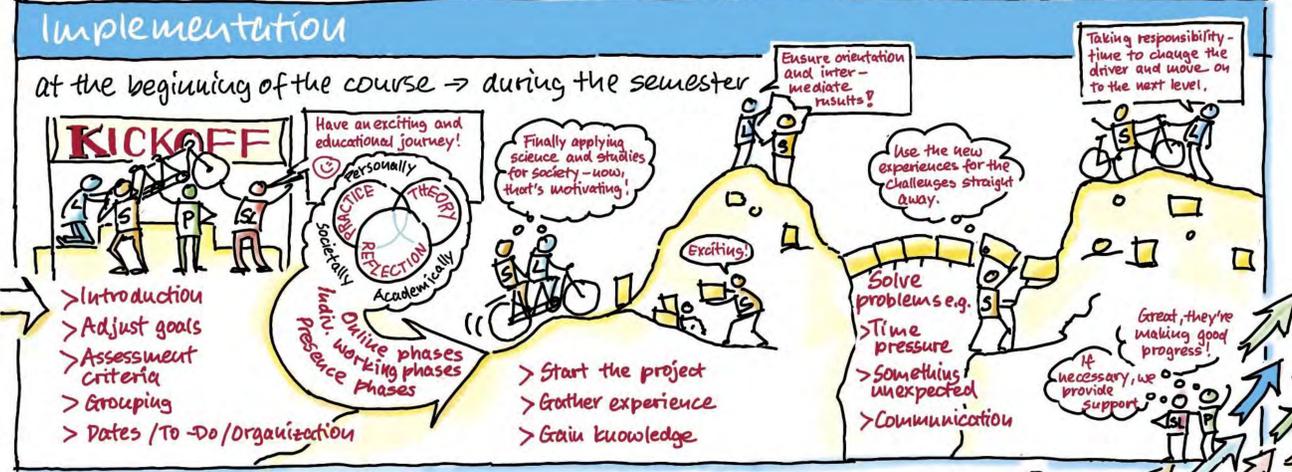

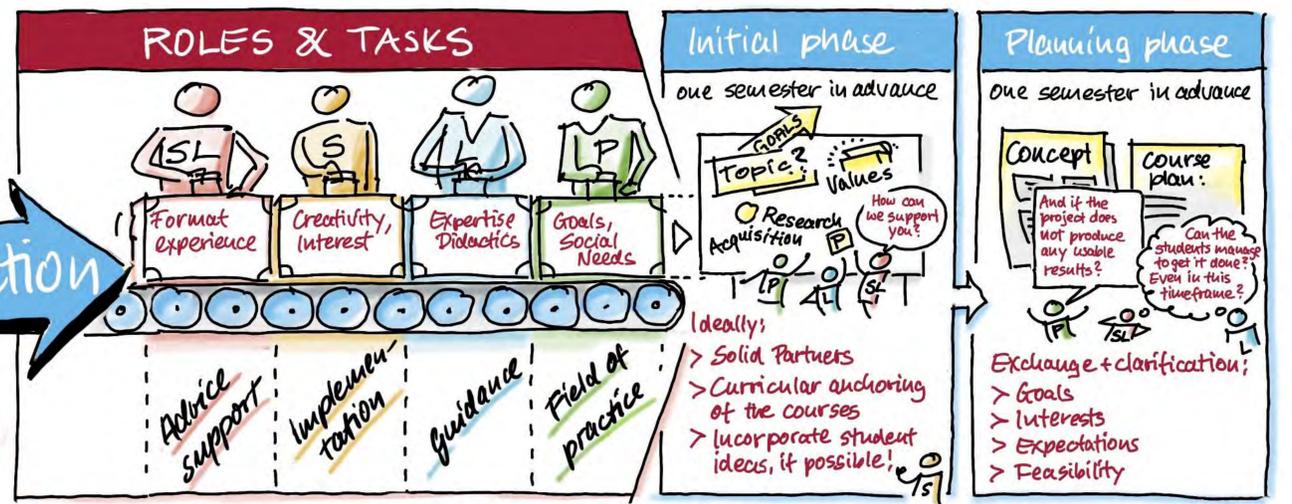

**FAQ**

- How can we make a difference?** You are working on a social challenge.
- How do I find SL-courses?** At the Transdisciplinary Course Program or in your area of studies.
- How do I design a SL-course (also online)?** Allow enough time for reflection, discussion and interim reports. The SL-team will support you!
- How does the cooperation work?** It is essential to find the balance between the students' learning success (the focus) and also the partner's demand.
- How do I integrate "my topics"?** It is important to find the intersection between topics that fit into the subject or Transdisciplinary Course Program and are also relevant to the partner. Possible subject areas: Health; Cities/Territories/Mobilities; Climate/Environment/Energy; Digital and Technological Transformation; Society/Culture/Heritage
- What's in it for me?** You gain academic expertise and visibility for your community involvement
- What can be mastered in one semester?** Realistic is e.g. a research project, an exhibition or workshop concept, various blog articles...
