

# Host Registration

WSI Firewall Group

Use this form to register standard hosts. This does **not** include **servers** and hosts in the **problem** or **outside zone**. Use the [server registration form](#) for these.

## Responsible person:

Last Name: \_\_\_\_\_ First Name: \_\_\_\_\_  
Phone: \_\_\_\_\_ Department: \_\_\_\_\_  
Email: \_\_\_\_\_ @ \_\_\_\_\_  
Date: \_\_\_\_\_ Signature: \_\_\_\_\_

## Host Information:

You can register up to four hosts with one form. Under *Network Outlet*, enter the complete label of the network outlet (e.g. 3VT3.3/A309-01/H-03).

Please refer to the **WSI Security Policy** for details and implications of *Security Zone/Host Class*.

Shaded areas will be filled in by the firewall group.

Hostname	MAC address	Network outlet	Security Zone/Host Class	IP address	Switch/Port

## Comments:

Hand in signed forms to the WSI Firewall Group (Harald Gerstberger, Jochen Krämer, Andreas Nagel, ...).  
**Any changes should be reported immediately back to the firewall group.**
