

## Very fast, very good value: the "TLP Dissertations" series

If speed and a low price are important to you, we recommend publishing as part of the "TLP Dissertations" series.

Features of the series:

- Allocation of an ISBN
- Registration with the directory of books in print 'Verzeichnis Lieferbarer Bücher' (VLB) and listing on Amazon Marketplace
- Publication (Printing and OA) in 2 to 3 months, depending on print-ready status
- Voucher copies sent to your Dean's Office

Your dissertation appears as a paperback, with black & white illustrations, in 17x24 cm format and with the series cover layout. You prepare the print version of your work yourself. We simply check the print-ready status of your document, there is no proofreading.

You can find the price of publication in the dissertation series on the TLP's website. Prices may vary for works with more than 400 pages.

UNIVERSITY LIBRARY

## Your dissertation in Open Access publishing from the university

Through Tübingen Library Publishing (TLP) your dissertation appears online in Open Access and simultaneously as a book for sale in Print-on-Demand. This offers you the greatest possible visibility, distribution and reception for your academic work.

To be included in the publishing program your doctorate must have been completed at least "cum laude".

## Our services

Our editorial team will guide you through all the stages of the publication process, e.g.

- Support via author's templates and manual
- Designing an individual cover
- Layout proofing

We also handle printing and marketing:

- Allocation of an ISBN
- Publication of the online version
- Inclusion in the university library catalogue
- Supply of data to search engines and major library catalogues
- Registration with the directory of books in print 'Verzeichnis Lieferbarer Bücher' (VLB) and wholesalers (Libri)

## Print-on-Demand and OA: Double the advantage

Print-on-Demand means that we only print when an order is received. For you this means:

- you can choose from a range of features
- you order the number of copies you want
- your work receives more reviews than a simple online publication
- your work is archived in many libraries

... and for your readers:

- it can be researched and ordered from book sellers
- it is available at an affordable price

Open Access dissertations offer you:

- Optimal visibility, distribution and retrieval via catalogues and search engines
- Searchability
- Availability independent of time and place
- Citability with persistent identifiers (permanent Internet addresses): URN, DOI, handle
- Long-term archiving

## What does TLP cost?

The flat rate charge for authors in the general program of Tübingen Library Publishing covers the costs of editing, layout proofing, cover design, OA publication and marketing via Print-on-Demand. You only have to pay extra for the copies you order (e.g. voucher copies). You can find the current price of publication on the TLP website.

If your dissertation is distributed widely enough throughout academic libraries, you can apply for royalties through VG Wort.

## Rights and licenses

You transfer to Tübingen Library Publishing a one-off right of use. You retain all other rights.

We publish the online version under a Creative Commons license.
