**Art Performance and Q&A**

Tuesday, 18 June 2024  
18.15 h  
Brechtbau Theatre  
Wilhelmstraße 30  
72074 Tübingen

The one-woman play by Tamil queer feminist performer, researcher and activist Dr. Ponni Arasu brings the performer's autobiographical expression together with stories of queer folks.

The performance deals with processes of conditioning, molding, confinement, and trauma that can be part of this experience. It shows the embodied process of emerging out of this state - sometimes experienced as healing. The play is experiential with voice and body leading the way, with no speech.

**Please bring an object that you associate with love and safety to use during the performance. It will be returned to you after. Thank you.**

Questions and answers will be in English. The venue is accessible.

**Free entry, donations appreciated**
