INSTRUCTIONS FOR PROJECT'S  
REGISTRATION & SUBMISSION

# BEFORE SUBMISSION

Before starting to prepare your PF proposal, it is highly recommendable to read carefully the **PF Guide for Applicants**, available at this [link](#). The guide contains useful information and detailed instructions on how to write and submit your proposal. Other useful resources are available at this [link](#).

Proposals must be submitted exclusively electronically using the online **submission service** on the Funding & Tender Portal, available at this [link](#).

The proposal should be prepared by the researcher in liaison with the main supervisor. Proposals can be submitted by the researcher, however, **proposal submission** (and other related actions such as withdrawal) **falls under the final responsibility of the host organization, represented by the supervisor**. The experienced researcher and the supervisor must be two different people.

# SUBMISSION STEP-BY-STEP

- 1 Go to call page on the [Funding & Tenders Portal](#)
- 2 Create an ECAS account by clicking the "Register" button on the top right of the page. The procedure is very easy and it will only take a few minutes. Once you have an ECAS account, you can access the submission service. If you already have an ECAS account click on "Login"
- 3 Go to the Submission Service section, choose the type of action for which you want to apply and click on "Start submission"
- 4 Insert the Participant Identification code (PIC number) of your host institution and short name.
- 5 Select "researcher" as your role
- 6 Insert the acronym, a short summary of your project (max. 2000 characters) and choose the scientific panel (ECO, LIF, ENG, SOC, CHE, MAT, ENV, PHY) that best fits your proposal. If you do not have yet the final acronym and short summary of your proposal, you can put provisional ones and modify them later on. Click on "next"
