

Paul Dorres

Director, Student Services
College of Agricultural Sciences
Oregon State University

May 8-13, 2022

Overview and Goals

Facilitate College of Agricultural Sciences (CAS) student participation in OR/BW exchange. STEM students need extra assistance in credit transfers and academic scheduling.

Determine English-language course offerings in BW in STEM fields. CAS students don't have foreign language requirement.

Identify connections with colleges and faculties in BW in STEM fields to expand on exchange offerings.

Freiburg

University of Freiburg
Graduate School of Environment,
Society, & Global Change
Faculty of Environmental and
Natural Resources

Stuttgart

University of Hohenheim
Faculty of Agricultural Sciences
Faculty of Natural Sciences

Karlsruhe

Karlsruhe Institute of Tech.
Food Chemistry, Geography &
Geoecology, Hydrological Lab,
Industrial Engineering &
Management

Tübingen

University of Tübingen
Oregon Study Center

Take-Aways

Resident Directors to meet with Exploring World Agriculture course at OSU (Winter Term)

Paul Dorres to identify and reach out to OSU faculty across colleges to facilitate connections.

Build out internship and research opportunities for students and faculty.

Explore options at CAS and OSU for curriculum integration to create study plans for students in various degree programs to predetermine course opportunities and credit transfers.
