Recommended citation: MSH (Management Sciences for Health). 2015. International Drug Price Indicator Guide, 2014 Edition. (Updated annually.) Medford, Mass.: MSH.

Cover design by Joe Meiring

This publication was developed by Management Sciences for Health's Center for Pharmaceutical Management, Arlington, Virginia. The *Guide* is updated annually. The explanatory notes are in English, French, and Spanish and the products and prices are in English. Comments and questions should be e-mailed to cpm@msh.org.

Note: All rights reserved. MSH has made every effort to ensure the accuracy of price, supplier, procurement agency and other information presented in this publication. However, the reader's attention is drawn to the introduction, which describes the specific sources and limitations of information provided in this publication.

The reader's attention is also drawn to the importance of quality assurance for pharmaceutical products. Licensing authorities in the respective countries of manufacture are responsible for the review and approval of the detailed composition and formulation when authorizing a pharmaceutical product to be marketed, including the specifications of its ingredients, as submitted by the manufacturer of the dosage form, and to oversee compliance with Good Manufacturing Practice requirements as recommended by WHO.

MSH does not warrant that the products mentioned are in accordance with the national laws and regulations of any country, including but not limited to patent laws. It is recommended that readers intending to use this publication familiarize themselves with issues such as quality, safety and efficacy as well as quantification, patents, financial stability and standing of the supplier, ability to supply the required quantities, delivery time, and other related aspects.

This publication does not constitute an endorsement or warranty of the fitness of any product for a particular purpose. This publication is not based on an active assessment of, and does not therefore constitute an acceptance or recommendation in regard to, any product's quality, safety, or efficacy.

This list may not be used by manufacturers and suppliers for commercial or promotional purposes. The mention of specific companies and certain of their products does not imply that they are recommended by MSH in preference to others of a similar nature that are not mentioned. Errors or omissions excepted, the names of propriety products are distinguished by initial capital letters.

Bearing in mind that the data and information provided for a product depend largely on the supplier or procurement agency, these data and information are being provided as is, and MSH makes no representations or warranties, either express or implied, as to their accuracy, completeness, or fitness for a particular purpose. MSH accepts no responsibility or liability for the reliance on, or use of, such data and information.

Nota: Todos los derechos reservados. MSH ha realizado todos los esfuerzos necesarios para asegurar la exactitud de los precios, proveedores, agencias de adquisiciones y otra información presentada en esta publicación. Sin embargo, se llama la atención del lector a la introducción que describe las fuentes específicas y las limitaciones de la información proporcionada en esta publicación.

También se llama la atención del lector a la importancia del aseguramiento de la calidad para los productos farmacéuticos. Las autoridades responsables de otorgar licencias en los respectivos países de fabricación son responsables de la revisión y aprobación de la composición y formulación detallada al autorizar un producto farmacéutico para su comercialización, incluyendo las especificaciones de los ingredientes, de acuerdo con la información suministrada por el fabricante, así como de supervisar el cumplimiento con los requisitos de las Buenas Prácticas de Fabricación recomendadas por la OMS.

MSH no garantiza que los productos mencionados están de acuerdo con las leyes y regulaciones nacionales de ningún país, incluyendo pero no limitándose a las leyes de patentes. Se recomienda que los lectores que tengan la intención de utilizar esta publicación se familiaricen con los aspectos relativos a la calidad, seguridad y eficacia así como la cuantificación, los patentes, la estabilidad financiera y la situación del proveedor, su habilidad para suministrar las cantidades requeridas, el tiempo de entrega y otros aspectos relacionados.

Esta publicación no constituye un respaldo o garantía con respecto a la idoneidad de cualquier producto para un fin en particular. Esta publicación no está basada en una evaluación activa y por lo tanto no constituye una aceptación o recomendación con respecto a la calidad, seguridad o eficacia de cualquier producto.

Esta lista no puede ser utilizada por los fabricantes y proveedores para fines comerciales o promocionales. La mención de empresas específicas así como ciertos de sus productos no implica que estos están recomendados por MSH con preferencia sobre otros productos de naturaleza similar que no hubieran sido mencionados. Salvo por errores u omisiones, los nombres de los productos comerciales se distinguen con una letra mayúscula inicial.

Teniendo en mente que los datos y la información dados para un producto dependen en gran medida del proveedor o de la agencia de adquisiciones, estos datos e información se suministran tal cuál están, y MSH no realiza ninguna declaración o garantía, ya sea expresa o implícita con respecto a la exactitud, integridad o idoneidad para un propósito en particular. MSH no acepta responsabilidad alguna por la confianza depositada o el uso de dichos datos e información.

Note: Tous droits réservés. MSH a cherché dans la mesure du possible à vérifier l'exactitude des données sur les prix, les fournisseurs, les organismes d'achat et des autres informations présentées dans cette publication. Le lecteur n'en est pas moins prié de se rapporter à l'introduction qui décrit les sources spécifiques et les limitations de l'information donnée dans cette publication.

Le lecteur doit également prêter attention à l'importance de l'assurance de qualité pour les produits pharmaceutiques. Les organismes chargés de la délivrance des autorisations dans les pays respectifs des fabricants sont responsables de l'examen et de l'approbation de la composition et formulation détaillées avant d'autoriser la mise sur le marché d'un produit donnée, notamment des spécifications des composants, tel qu'indiqué par le fabricant dans la présentation et doivent par ailleurs s'assurer que sont observées les Bonnes pratiques de fabrication recommandées par l'OMS.

MSH ne garantit pas que les produits mentionnés soient conformes aux lois et réglementations nationales d'un pays donné, notamment les lois relatives aux brevets. On recommande au lecteur qui souhaite utiliser cette publication de se mettre au courant des divers aspects tels que la qualité, l'innocuité et l'efficacité ainsi que la quantifications, brevets, situation financière et réputation du fournisseur ainsi que sa capacité à fournir les quantités demandées dans les bons délais.

La présente publication ne constitue pas une approbation ou recommandation de l'efficacité d'un produit dans un but précis. Cette publication ne se fonde pas sur une évaluation active et ne constitue donc pas une acceptation ou recommandation de la qualité, innocuité ou efficacité d'un produit.

Cette liste ne peut pas être utilisée par des fabricants ou fournisseurs à des fins commerciales ou promotionnelles. Si certaines sociétés ou certains produits sont mentionnés, cela ne veut nullement dire qu'ils sont recommandés par MSH de préférence à d'autres de nature analogue qui ne sont pas recommandés. Sauf erreur ou omission, les marques déposées sont indiquées par des initiales en majuscule.

Sachant que les données et informations fournies sur un produit dépendent largement du fournisseur ou de l'organisme chargé des achats, lesdites informations sont donc données telles quelles, sans que MSH ne fasse aucune recommandation ou garantie, explicite ou implicite, quant à leur exactitude, intégralité ou adéquation dans tel but donné. MSH n'accepte aucune responsabilité concernant la fiabilité ou l'utilisation des dites données et informations.

INTERNATIONAL DRUG PRICE INDICATOR GUIDE

Preface

The *International Drug Price Indicator Guide* provides what the name implies—an indication of drug prices on the international market. This *Guide* has been published by MSH since 1986, and in collaboration with WHO since 2000. It provides a spectrum of prices from nonprofit drug suppliers and commercial procurement agencies, based on their current catalogs or price lists. It also contains prices obtained from international development agencies and from government agencies.

MSH, in collaboration with WHO, is working with partners to make existing drug price information more widely available in order to improve procurement of medicines of assured quality for the lowest possible price. This will contribute to equitable access to health services and commodities, including essential medicines, that are necessary for the prevention and treatment of prevalent diseases.

Because the potential cost of providing a full range of treatments for common diseases is high, prices and financing are inescapable factors in determining access to essential medicines. Lower prices can be obtained through bulk purchasing, competition, skillful negotiation, and sound supply management. Comparative price information is important for getting the best price. Such information helps in price negotiations, in locating new supply sources, and in assessing the efficiency of local procurement systems.

The *International Drug Price Indicator Guide* helps supply officers determine the probable cost of pharmaceutical products for their programs. It can be used as a reference list to compare current prices paid to prices for products available on the international market; it can also be used to assess the potential financial impact of changes to a drug list.

The database of prices is maintained by the Center for Pharmaceutical Management of Management Sciences for Health, a nonprofit organization, as a contribution towards making essential medicines available to all the world's citizens. The *Guide* may be copied for in-service education or other nonprofit use.

Additional information on international drug prices can be found on the Web at:

- “Medicines Price Information” (<http://www.who.int/medicines/areas/access/ecofin/en/index.html>), a page maintained by WHO. It includes prices of international price information services on starting materials, finished products, and selected HIV-related medicines. In addition, it reports on disease-specific price information and individual country price information services.

Please note that an electronic version of the *International Drug Price Indicator Guide* can be found on MSH's Electronic Resource Center at <http://erc.msh.org/priceguide>.

How to Use the *Guide*

The *Guide* begins with “Information You Should Know” to better understand the data presented here. A list of the suppliers and buyers in this edition follows that section and includes details on shipping terms and restrictions. Supplier and buyer addresses appear next. After that, the *Guide* explains the format of the comparative price information reports, as well as the terms used on the price listings and the codes and abbreviations used.

The price data are provided in three formats in this *Guide*. Each format includes supplier prices and buyer prices. The buyer prices are usually government agency international competitive bidding (or tender) prices.

- List I: The products are in alphabetical order by generic name, and the list includes the price details for each supplier and buyer. This format is intended for procurement reference and allows a quick search for a particular medicine.
- List II: The products are in alphabetical order within the WHO Essential Medicines List (EML) classification system. This format assists with, for example, formulary development and allows a convenient comparison of medicines within classes. Items in a class cannot necessarily directly substitute for each other.
- List III: The products are in alphabetical order with only the median price for an item displayed. This format is meant to facilitate comparison of a user’s prices with *Guide* prices. The supplier and buyer prices appear on separate lists.

If you need information on how to use these prices for comparison purposes, please see the section called “How to Analyze and Compare Your Prices.” A list of synonyms and the WHO therapeutic class categories are included in the Annexes for reference.

This *Guide* is intended as a comparative reference only; it is not suitable for actually ordering products. To place orders, the vendor must be contacted directly. No guarantees are implied as to availability of prices listed, quality of products, or specific sales conditions. The vendors included are not intended to be a comprehensive list of potential suppliers. Prices from buyers are listed for comparison purposes only.

Information You Should Know

Products Included

The *International Drug Price Indicator Guide* primarily focuses on essential medicines, but includes other products as well. Medicines from the WHO Essential Medicines Lists are always included, as are medicines and products important for the treatment or prevention of tuberculosis, malaria, and HIV/AIDS. Vaccines, immunologic agents, disinfectants, fluids and electrolytes, and diagnostic tests and agents are also typically covered. Increasingly, medicines required for cancer treatment and chronic disease care, and strengths and dosage forms required for pediatric care are being added to the database. New products are added to the *Guide* each year, as the information reported to us changes.

Price Conversion

Prices in the *International Drug Price Indicator Guide* are listed in ascending order according to unit price. All prices for the organizations listed below have been converted to U.S. dollars (USD). The exchange rates used are for 1 July 2014 (<http://www.oanda.com>). Other catalogue prices were listed originally in U.S. dollars and were not converted.

Currency (Organization Code)	Exchange Rate (to USD)
British pound (DURBIN)	1.7126
Dominican Republic pesos (DOMREPUB)	0.0228
Euro (IDA, MEDEOR/EU)	1.3687
Ghanian New Cedi (CHAI)	0.3099
Indian Rupee (CHAI)	0.0166
Kenya shilling (MEDS)	0.0112
Namibian dollar (NAMIBIA)	0.0942
Nigerian Naira (CHAI)	0.0061
Peruvian nuevo sol (PERU)	0.3532
South African rand (SAFRICA)	0.0942
Sudanese pound (SUDANNHIF)	0.1746
Tanzanian shilling (MEDEOR/TZ, MEMS)	0.0006

Changes in exchange rates can cause costs to vary widely. The most current rate at the time of your analysis should always be used when calculating drug costs.

Price Terms

The supplier prices and buyer prices in this *Guide* are based on different price terms, and so must not be directly compared. The following incoterms are used to define the price types:

- CIF (cost, insurance, and freight): includes insurance and transport charges up to the port of destination (sea shipments only)

- CIP (carriage and insurance paid to): includes cost of carriage and insurance to the carrier at the agreed place
- DDP (delivered duty paid): includes delivery and import duties and unloading costs
- DDU (delivered duty unpaid): includes delivery, but not import duties or unloading costs
- EXW (ex works): does not include loading, insurance, or freight
- FCA (free carrier): includes transport and insurance until the goods are delivered to the carrier

Some suppliers and agencies charge a standard handling fee. The handling fees shown in the List of Price Sources have been added to the prices listed in this *Guide*.

Calculating Prices

When calculating and projecting real costs, it is important to consider factors such as financing, delivery times, modes of transportation (air/sea/inland), and handling charges. An analysis of these factors is beyond the scope and intent of this *Guide*. However, it is reasonable, for estimation purposes, to add 10% for shipping costs to the listed price for suppliers in this *Guide*. The buyer (government agency tender) prices listed generally do not require adjustment for shipping charges.

Quality Assurance

We require all suppliers included in the *International Drug Price Indicator Guide* to complete a quality assurance questionnaire. The purpose of the mandatory questionnaire is to help ensure that the prices listed in this *Guide* are from reputable suppliers with established quality assurance processes in place. The 28 questions address issues including inspection, testing, quality assurance, licensing, recalls, quality control procedures, standards, and documentation. Although this requirement provides some assurance of quality control processes, it does not necessarily guarantee the quality of the products listed. Copies of the questionnaire can be obtained from MSH on request.

The price sources included in the *Guide* have been screened only through the completeness of the documents they have provided. This screening in no way constitutes an in-depth review of product quality. Inclusion in the *Guide* does not constitute pre-qualification or approval of any sort by MSH and WHO.

Product Quality

The suppliers and agencies selected for this *Guide* are not manufacturers, but they offer products that are stated to be in compliance with international quality standards specified by organizations such as the United States Pharmacopeia (USP), the British Pharmacopoeia (BP), and the European Pharmacopoeia (EP). All suppliers in this guide state that the manufacturing plants with which they work maintain high quality standards by having in place on-site quality assurance systems in order to ensure that all products are complying with WHO Good Manufacturing Practices (GMP) and with government regulations. Quality certificates in line with the

WHO Certification Scheme on the Quality of Pharmaceutical Products Moving in International Commerce should be available from all of these suppliers on request. Suppliers and agencies listed in the *Guide* maintain their own independent quality assurance programs. Contact them directly for these details.

ATC/DDD System¹

Drug utilization data have a central role in the quality of care cycle and are essential to the management of policy related to drug supply, pricing, cost, and use. The anatomical therapeutic chemical (ATC) and defined daily dose (DDD) methodologies for classification and measurement can be helpful in following and comparing cost trends, but need to be used with caution. Basing detailed reimbursement, therapeutic group reference pricing, and other specific pricing decisions on the ATC and DDD assignments is a misuse of the system.

The purpose of the ATC/DDD system is to serve as a tool for drug utilization research in order to improve drug use practices. One component of this is the presentation and comparison of drug consumption statistics at international and other levels.

A major aim of the WHO Collaborating Centre for Drug Statistics Methodology and Working Group is to maintain stable ATC codes and DDDs over time to allow trends in drug consumption to be studied without the complication of frequent changes to the system. There is a strong reluctance to make changes to classifications or DDDs when such changes are requested for reasons not directly related to drug consumption studies. For this reason the ATC/DDD system by itself is not suitable for guiding decisions about reimbursement, pricing, and therapeutic substitution.

The classification of a substance in the ATC/DDD system is not a recommendation for use, nor does it imply any judgments about efficacy or relative efficacy of drugs and groups of drugs.

¹Text in this section is adapted from the WHO Collaborating Centre for Drug Statistics Methodology website (<http://www.whocc.no/atcddd/>).

List of Price Sources

Three primary types of suppliers and buyers are included in the *Guide*.

1. **Suppliers** who maintain a warehouse and supply items directly to customers. All of these suppliers provide a wider range of products than shown in this *Guide*. For a complete list of products, contact the vendor directly. The following suppliers are included in the *Guide*:

Supplier	Code	Date of List	Handling Fee	Price Type	Details
Action Medeor	MEDEOR/ EU	September 2014	1%	EXW Tönisvorst	Prices are effective until publication of revised price list. Transport costs are charged individually according to expenses. Special packaging in cases costs Euro 26 per case. Minimum handling fee is Euro 50. Only serves non-profit organizations.
Action Medeor International Healthcare	MEDEOR/ TZ	September 2014	0%	EXW	Action Medeor International Healthcare is a not-for profit procurement agency founded in 2004 and owned by Action Medeor. It supplies the not-for-profit market (primarily in Tanzania) and does not supply to individuals or commercial pharmacies. A 3.5% service charge applies for all non-Tanzanian customers to cover bank charges and currency loss. No minimum quantities are required.
Amstelfarma	AMSTEL- FARM	January 2015	0%	EXW Lelystad, The Netherlands	Amstelfarma prices are given as an indication only. There are no minimum orders required or service charges.
ASRAMES	ASRAMES	August 2014	0%	DDP or CIP Kinshasa	ASRAMES (Association Régionale d'Approvisionnement en Médicaments Essentiels) only serves organizations in the DRC that have been recognized by the Ministry of Health as a health institution or as an NGO working in the health sector.
Durbin PLC	DURBIN	2013-2014	0%	EXW United Kingdom	Durbin supplies pharmaceuticals and medical supplies to doctors, pharmacies, hospitals, pharmaceutical wholesalers and traders, military and government agencies, charities and other relief organisations worldwide. Minimum order UK £100.

Supplier	Code	Date of List	Handling Fee	Price Type	Details
IDA Foundation	IDA	November 2014	1.5%	FCA Amsterdam	Since 1972, the IDA Foundation has been committed to improving access to and delivering high-quality essential medicines and medical supplies to low- and medium-income countries. As an independent and self-supporting foundation, IDA distributes more than 3,000 products to over 100 countries worldwide. Minimum order of Euro 1500. Orders under Euro 5,000 are charged a handling fee of 3%. Orders over Euro 5,000 are charged a handling fee of 1.5%. Prices are indicative and may change.
IMRES	IMRES	January 2015	0%	FCA Lelystad, The Netherlands	Minimum order quantity is US\$1250.
Medical Export Group	MEG	November 2014	0%	FCA Gorinchem, The Netherlands	Prices are given as an indication only. There are no minimum orders required or service charges.
Medical Stores Department, Tanzania	MSD/TANZ	2014-2015	0%	EXW	MSD sales prices are valid for all governmental health facilities, approved NGOs, mission hospitals, charitable hospitals and other health care providers in Tanzania, with approval from Ministry of Health & Social Welfare. Parastatal companies/organizations will pay 10% on top of these sales prices.
Mission for Essential Drugs and Supplies	MEDS	July 2014	0%	FOB Nairobi	MEDS supplies drugs and medical supplies to nonprofit health care providers. Freight charges are added for deliveries outside of Kenya.

2. **International development organizations** that provide commodities to country programs they and others support. The organizations listed in the *Guide* are:

International Development Organization	Code	Date of List	Handling Fee	Price Type	Details
Global TB Drug Facility	GDF	2014	0%	EXW Supplier Factory	<p>The Global Drug Facility (GDF) is a mechanism to expand access to, and availability of, high-quality anti-TB drugs to facilitate global expansion and maintenance of DOTS, the internationally recommended strategy to control tuberculosis. Drugs are supplied through free grants, but are also available for purchase by governments and organizations wishing to take advantage of the quality, prices, and technical support offered through the GDF Direct Procurement Service. GDF performs compulsory independent testing of each batch of drugs it supplies and pre-shipment inspection of each order it delivers to confirm high quality.</p> <p>To facilitate the efficient delivery of products, GDF uses procurement agents. Prices include the cost of the product as well as quality control costs and a GDF procurement agent fee. Costs for pre-shipment inspection, transport (air freight or sea freight) and insurance, are not included in the listed product prices. GDF sends a team of TB and drug management experts to the country four months after drugs arrive, to assess drug usage and provide any needed technical assistance. GDF does not charge for its technical assistance to countries.</p>
Supply Chain Management System Project	SCMS	October 2014	5%	EXW (SCMS regional distribution center or directly from the supplier)	<p>The Supply Chain Management System project delivers essential lifesaving medicines to HIV/AIDS programs around the world. The project helps strengthen existing supply chains or establishes new ones to ensure a safe, secure, reliable and sustainable supply chain management system to procure pharmaceuticals and other products for people with HIV/AIDS and related infections. SCMS is funded by the US government as part of the President's Emergency Plan for AIDS Relief (PEPFAR). The SCMS project can work anywhere in the world, but is initially focused on the 15 PEPFAR focus countries. In addition to serving any project or implementing partner supported by PEPFAR, SCMS can also supply projects supported by national governments and other donors, subject to individual arrangements.</p>

International Development Organization	Code	Date of List	Handling Fee	Price Type	Details
UN Population Fund	UNFPA	September 2014	5%	FOB	UNFPA conducts annual tenders to purchase goods for their field offices and on behalf of external clients in more than 168 countries, mainly in the developing world. UNFPA serves only governments and nonprofit organizations. UNFPA charges a 5% administration fee to non-UNFPA buyers. There is a minimum order requirement of US\$5,000 per item. Prices are indicative and may change.

3. **Buyers** (usually public-sector agencies) that procure commodities through international competitive bidding, or tenders. These are actual prices obtained by the organizations listed and are included for comparison purposes. It is not possible for a reader to place an order with any of these organizations.

Buyer	Code	Date of List	Price Type	Approx. Value of Tender (USD)	Details
Botswana Public Procurement and Asset Disposal Board	BOTSWANA	January 2014	N/A	N/A	The Public Procurement and Asset Disposal Board of Botswana conducts open and closed domestic and international tenders on a regular basis.
Caja Costarricense de Seguro Social	CRSS	2014	DDU	126 million	Costa Rica Social Security conducts an annual, open, international tender and negotiates contracts for drugs and medical supplies for its own facilities.
Clinton Health Access Initiative	CHAI	2014	DDP, EXW, or FOB	N/A	The Clinton Health Access Initiative contributed price information from several partners who are working together to scale up treatment for diarrhea.
Democratic Republic of Congo Integrated Health Program (IHP)	DRC/IHP	May 2014	FCA	3.8 million	The Democratic Republic of Congo Integrated Health Project (IHP) conducts an annual, closed, international tender for pharmaceuticals and medical supplies.
República Dominicana Central de Apoyo Logístico Programa de Medicamentos Esenciales (PROMESE/CAL)	DOMREPUB	October 2014	N/A	69 million	The Dominican Republic Essential Medicine Program Central Logistics Support conducts an open, domestic tender for pharmaceuticals and medical supplies twice a year.
Mission for Essential Medical Supplies (MEMS), Tanzania	MEMS	July 2014	N/A	0.3 million	MEMS awards an annual drug and medical supply contract to a prime vendor, after an open domestic pre-qualification process and a closed tender process.

Buyer	Code	Date of List	Price Type	Approx. Value of Tender (USD)	Details
Namibia Central Medical Stores	NAMIBIA	August 2014	DDP	24 million	The Namibia Central Medical Stores conducts an open, international tender every two years for pharmaceuticals and medical supplies and once a year for anti-retrovirals.
Organisation of Eastern Caribbean States Pharmaceutical Procurement Service (OECS/PPS)	OECS/PPS	1 March 2014 - 31 August 2015	CIF	N/A	The OECS/PPS provides its services to member countries of the Organisation of Eastern Caribbean States only. For these nine countries, OECS/PPS negotiates contracts and purchases through a closed, international tender every 18 months.
Perú Ministerio de Salud	PERU	February & April 2014	DDP	197 million	The Peru Ministry of Health (MINSA) conducts an annual, domestic, open tender for pharmaceuticals and medical supplies.
El Sistema de Integración Centroamericana (SICA)	SICA	August 2014	CIF	4.2 million	The System of Central American Integration (SICA) conducts an annual closed, international tender for selected pharmaceuticals.
South Africa Department of Health	SAFRICA	2014	DDP	N/A	The South Africa Department of Health conducts two-year domestic, open tenders on a rolling basis for pharmaceuticals and medical supplies.
Sudan National Health Insurance Fund	SUDAN-NHIF	June 2014	DDP	16.8 million	The National Health Insurance Fund of Sudan conducts annual, open, domestic tenders for pharmaceuticals and medical supplies.

Format of the Price Lists

The pharmaceutical products are presented in three separate lists, with different formats and features, but certain elements are common to all.

- List I: Products Sorted Alphabetically
- List II: Products Sorted by Therapeutic Category
- List III: Price Comparison Form

A detailed description of the information included in each list follows.

List I - Products Sorted Alphabetically

List I is intended for procurement reference and lists drugs in alphabetical order by generic name to allow a quick search for a particular drug. This list shows the pack size(s) available from each source and the pack price in U.S. dollars, including the source's standard service charges where applicable.

Item Description

The item description includes the generic name, strength, dosage form, and the route of administration. If the product has two widely used names (for example, vitamin C and ascorbic acid), one name will appear in brackets. See the List of Synonyms in the Annex.

IC

Products under international narcotics control are identified with (IC) next to the description.

Nomenclature

International nonproprietary names (INNs) have been used for the list of drugs in this *Guide*. If an INN has not been assigned, the most common generic name has been used. Drug dosage forms listed are generally those included in the World Health Organization's 19th Model List of Essential Medicines (revised April 2015), found at <http://www.who.int/medicines>.

Route of Administration

Routes of administration are coded as follows:

Item Type	Code
Condoms	COND
Diagnostic Strips and Tests and Lab Supplies	DIAG
Ear Preparations	OTIC
Eye Preparations	OPHT
Injectable Medicines	INJ
Intrauterine Device (IUD)	IUD
Intravenous Solutions	IV
Medicines for Inhalation	INH
Medicines for Nasal and Throat Use	N/T
Subcutaneous Medicines	S/C
Sublingual Tablets	SL
Suppositories/Enemas/Rectal Ointment	RECT
Tablets/Capsules/Oral Liquids	PO
Topical Medicines (liquids, powders, creams, ointments)	TOP
Vaginal Preparations	VAG
Not Applicable	N/A

Source

The list of price sources can be found on page E-9.

Package

Package sizes are provided by the suppliers and buyers.

Package Price (US\$)

Package prices are provided by the suppliers and buyers and have been converted to U.S. dollars at the exchange rates listed on page E-6 to facilitate comparison. If a supplier charges a standard handling fee percentage, that percentage has been added to the package price listed.

Unit Price (US\$)

The unit price is calculated by dividing the package price by the package size. This format facilitates the price comparison of different vendor pack sizes. The unit used to compare prices varies with the type of pharmaceutical preparation as follows:

Pharmaceutical Dosage Form	Comparison Unit (Code)
Ampoule or Vial	Milliliter (ML)
Cartridge	Milliliter (ML)
Condom, Intrauterine Device (IUD), Net, Test	Each (EACH)
Ear, Nose, and Throat Preparation	Milliliter (ML)
Enema	Milliliter (ML)
Gas	Cubic Meter (CUBMETER)
Granules	Gram (G)
Inhaler	Dose (DOSE)
Oral Liquid	Milliliter (ML)
Pack	Pack (PACK)
Pessary	Pessary (PESS)
Suppository	Suppository (SUPP)
Syringe	Syringe (SYRINGE)
Tablet or Capsule	Tablet or Capsule (TAB-CAP)
Topical Liquid	Milliliter (ML)
Topical Solid	Gram (G)
Treatment	Treatment (TREATMEN)
Vaccine	Dose (DOSE)
Vial (single strength)	Vial (VIAL)

DDD

The DDD is the assumed average maintenance dose per day for a drug used for its main indication in adults. The defined daily dose is a unit of measurement and does not necessarily reflect the recommended or prescribed daily dose. Doses for individual patients and patient groups will often differ from the DDD and will necessarily be based on individual characteristics (e.g.,

age and weight) and pharmacokinetic considerations.

Drug consumption data presented in DDDs give only a rough estimate of consumption and not an exact picture of actual use. DDDs provide a fixed unit of measurement independent of price and formulation, enabling the researcher to assess trends in drug consumption and to perform comparisons between population groups.

The defined daily doses are from the WHO Collaborating Centre for Drug Statistics Methodology. They are illustrative defined daily doses, as recommended by the World Health Organization's Drug Utilization Research Group (DURG). Not all drugs listed in this price comparison guide have defined daily doses assigned by this method. A DDD will only be assigned for drugs that already have an ATC code.

The main use of the DDD is for estimating drug consumption, based on inventory/distribution data. This estimate can be combined with price information for budgeting purposes.

Note: The defined daily dose should not be used for dosing or therapeutic determinations. Refer to prescribing information for dosing schedules for specific indications.

WHO EML

The "WHO EML" column indicates whether the product is included on the 2015 WHO Model List of Essential Medicines. We identify five categories in the *International Drug Price Indicator Guide*:

- E = On the WHO core list in the same dosage form and strength
- C = On the WHO complementary list in the same dosage form and strength
- P = On the WHO list, but in a different presentation (different dosage form and/or strength)
- T = Not on the WHO list, but can be an alternative for an item listed as a therapeutic group example
- N = Not on the WHO model list

ATC Code

The ATC code is the anatomical therapeutic chemical classification code assigned by the WHO Collaborating Centre for Drug Statistics Methodology. The purpose of the ATC/DDD system is to serve as a tool for drug utilization research in order to improve drug use practices. One component of this is the presentation and comparison of drug consumption statistics at international and other levels.

In the ATC classification system, the drugs are divided into different groups according to the organ or system on which they act and their chemical, pharmacological, and therapeutic properties. Drugs are classified in groups at five different levels. The drugs are divided into 14 main groups (1st level), with one pharmacological/therapeutic subgroup (2nd level). The 3rd and 4th levels are chemical/pharmacological/therapeutic subgroups, and the 5th level is the chemical substance.²

² Adapted from the WHO Collaborating Centre for Drug Statistics Methodology website at <http://www.whocc.no/atcddd/>.

Median Price

When using the *Guide* for comparison with local prices, or for estimating the total value of a proposed procurement list, an average price can be helpful. There are basically two kinds of average prices that could be used: the mean price and the median price. The mean price is the simple average of all prices shown for a drug; the values are added up and divided by the number of values.

However, there is a problem when one or two prices are much higher or lower than the rest for a certain drug. These “outliers” skew the mean and make it less representative. For example, in a series of seven values such as \$1, \$2, \$2, \$3, \$5, \$16, \$20, the total of all the values is \$49, and dividing by seven gives a mean value of \$7. For comparison or estimation purposes, it is likely that this average is too high, due to the two prices that are much higher than others in the series. To avoid this risk, we use the median price.

The median price is a type of average; it is the value that splits a series of values in half when the series is put in ascending order. This is likely to be a more valuable approach for estimating actual future prices (or for comparing with local prices) when there is a skewed distribution.

If there is an odd number of values in the series, as in the example above, the median value is the middle value in the series (\$3 in the example). When there is an even number of values in a series, such as the series \$1, \$3, \$4, \$6, \$14, \$20, the median is calculated by averaging the two middle values. In this example, the median is the average of \$4 and \$6, which is \$5. Again, this is likely to be closer to reality for comparison or estimation than the arithmetic mean of \$8 (\$48 divided by 6).³

High/Low Ratio

The high/low ratio compares the highest unit price with the lowest unit price. For example, a high/low ratio of 3 means that the highest unit price is three times greater than the lowest unit price.

³ For further discussion, see *Statistics without Tears—A Primer for Non-Mathematicians*, by Derek Rowntree (New York: Charles Scribner’s Sons, 1981), pp. 41–45.

List II - Products Sorted by Therapeutic Category

For List II, the pharmaceuticals are listed in alphabetical order within each therapeutic class based on the WHO Essential Medicines List classification system. For products not included on the latest WHO EML (i.e., those products with an “N” in the “WHO EML” column in this Guide), we have assigned a therapeutic class based on the WHO EML classification system. This is done when a non-EML product clearly falls within an EML therapeutic category, as determined by MSH staff.

This assignment does not reflect a decision by WHO Essential Drugs and Medicines Policy or MSH staff that the non-EML product is appropriate for inclusion in the WHO Model List of Essential Medicines. If an unambiguous assignment of an EML therapeutic category was not possible, we placed the product in the category of “UA – Agents Unclassified in WHO EML.”

Items in a class cannot necessarily directly substitute for each other. All prices on this list are unit prices. For each item in this list, the following data are shown:

Item Description

The item description includes the generic name, strength, dosage form, and the route of administration. If the product has two widely used names (for example, vitamin C and ascorbic acid), one name will appear in brackets. See the List of Synonyms in the Annex.

IC

Products under international narcotics control are identified with (IC) next to the description.

Nomenclature

International nonproprietary names have been used for the list of drugs in this *Guide*. If an INN has not been assigned, the most common generic name has been used. Drug dosage forms listed are generally those included in the World Health Organization’s 19th Model List of Essential Medicines (revised April 2015), found at <http://www.who.int/medicines>.

Route of Administration

Routes of administration are coded as follows:

Item Type

Code

Condoms	COND
Diagnostic Strips and Tests and Lab Supplies	DIAG
Ear Preparations	OTIC
Eye Preparations	OPHT
Injectable Medicines	INJ
Intrauterine Device (IUD)	IUD
Intravenous Solutions	IV
Medicines for Inhalation	INH

Medicines for Nasal and Throat Use	N/T
Subcutaneous Medicines	S/C
Sublingual Tablets	SL
Suppositories/Enemas/Rectal Ointment	RECT
Tablets/Capsules/Oral Liquids	PO
Topical Medicines (liquids, powders, creams, ointments)	TOP
Vaginal Preparations	VAG
Not Applicable	N/A

WHO EML

The “WHO EML” column indicates whether the product is included on the 2015 WHO Model List of Essential Medicines. We identify five categories in the *International Drug Price Indicator Guide*:

- E = On the WHO core list in the same dosage form and strength
- C = On the WHO complementary list in the same dosage form and strength
- P = On the WHO list, but in a different presentation (different dosage form and/or strength)
- T = Not on the WHO list, but can be an alternative for an item listed as a therapeutic group example
- N = Not on the WHO model list

Number of Suppliers/Buyers

The number of suppliers or buyers offering this product.

Median Price

When using the *Guide* for comparison with local prices, or for estimating the total value of a proposed procurement list, an average price can be helpful. There are basically two kinds of average prices that could be used: the mean price and the median price. The mean price is the simple average of all prices shown for a drug; the values are added up and divided by the number of values.

However, there is a problem when one or two prices are much higher or lower than the rest for a certain drug. These “outliers” skew the mean and make it less representative. For example, in a series of seven values such as \$1, \$2, \$2, \$3, \$5, \$16, \$20, the total of all the values is \$49, and dividing by seven gives a mean value of \$7. For comparison or estimation purposes, it is likely that this average is too high, due to the two prices that are much higher than others in the series. To avoid this risk, we use the median price.

The median price is a type of average; it is the value that splits a series of values in half when the series is put in ascending order. This is likely to be a more valuable approach for estimating actual future prices (or for comparing with local prices) when there is a skewed distribution.

If there is an odd number of values in the series, as in the example above, the median value is the middle value in the series (\$3 in the example). When there is an even number of values in a

series, such as the series \$1, \$3, \$4, \$6, \$14, \$20, the median is calculated by averaging the two middle values. In this example, the median is the average of \$4 and \$6, which is \$5. Again, this is likely to be closer to reality for comparison or estimation than the arithmetic mean of \$8 (\$48 divided by 6).⁴

Highest Price

The highest price from listed suppliers and buyers.

Lowest Price

The lowest price from listed suppliers and buyers.

High/Low Ratio

The high/low ratio compares the highest unit price with the lowest unit price. For example, a high/low ratio of 3 means that the highest unit price is three times greater than the lowest unit price.

DDD

The DDD is the assumed average maintenance dose per day for a drug used for its main indication in adults. The defined daily dose is a unit of measurement and does not necessarily reflect the recommended or prescribed daily dose. Doses for individual patients and patient groups will often differ from the DDD and will necessarily be based on individual characteristics (e.g., age and weight) and pharmacokinetic considerations.

Drug consumption data presented in DDDs give only a rough estimate of consumption and not an exact picture of actual use. DDDs provide a fixed unit of measurement independent of price and formulation, enabling the researcher to assess trends in drug consumption and to perform comparisons between population groups.

The defined daily doses are from the WHO Collaborating Centre for Drug Statistics Methodology. They are illustrative defined daily doses, as recommended by the World Health Organization's Drug Utilization Research Group (DURG). Not all drugs listed in this price comparison guide have defined daily doses assigned by this method. A DDD will only be assigned for drugs that already have an ATC code.

The main use of the DDD is for estimating drug consumption, based on inventory/distribution data. This estimate can be combined with price information for budgeting purposes.

Note: The defined daily dose should not be used for dosing or therapeutic determinations. Refer to prescribing information for dosing schedules for specific indications.

⁴ For further discussion, see *Statistics without Tears—A Primer for Non-Mathematicians*, by Derek Rowntree (New York: Charles Scribner's Sons, 1981), pp. 41–45.

List III - Price Comparison Form

The purpose of this list is to help the user compare his or her prices with the prices in the *Guide*. Only the median price is displayed here, and a shortened description of the item is used.

Item Description

The item description includes the generic name, strength, dosage form, and the route of administration. If the product has two widely used names (for example, vitamin C and ascorbic acid), one name will appear in brackets. See the List of Synonyms in the Annex.

IC

Products under international narcotics control are identified with (IC) next to the description.

Nomenclature

International nonproprietary names have been used as the basis for the list of drugs in this *Guide*. If an INN has not been assigned, the most common generic name has been used. Drug dosage forms listed are generally those included in the World Health Organization's 19th Model List of Essential Medicines (revised April 2015), found at <http://www.who.int/medicines>.

WHO EML

The "WHO EML" column indicates whether the product is included on the 2015 WHO Model List of Essential Medicines. We identify five categories in the *International Drug Price Indicator Guide*:

- E = On the WHO core list in the same dosage form and strength
- C = On the WHO complementary list in the same dosage form and strength
- P = On the WHO list but in a different presentation (different dosage form and/or strength)
- T = Not on the WHO list, but can be an alternative for an item listed as a therapeutic group example
- N = Not on the WHO model list

Pack Size

The blank here is for the user to enter his or her purchase pack size.

Pack Price

This blank is for the user to enter the price for the purchase pack entered in the previous blank.

Unit Price

The user should calculate his or her unit price by dividing the pack price by the pack size. The comparison units used in the *Guide* are listed for each item to help ensure that prices are being compared on an equivalent basis.

Median Int. Supplier/Buyer Unit Price (US\$)

The unit price is calculated by dividing the package price by the package size. This format facilitates the price comparison of different vendor pack sizes. The unit used to compare prices varies with the type of pharmaceutical preparation as follows:

Pharmaceutical Dosage Form	Comparison Unit
Ampoule or Vial	Milliliter (ML)
Cartridge	Milliliter (ML)
Condom, Intrauterine Device (IUD), Net, Test	Each (EACH)
Ear, Nose, and Throat Preparation	Milliliter (ML)
Enema	Milliliter (ML)
Gas	Cubic Meter (CUBMETER)
Granules	Gram (G)
Inhaler	Dose (DOSE)
Oral Liquid	Milliliter (ML)
Pack	Pack (PACK)
Pessary	Pessary (PESS)
Suppository	Suppository (SUPP)
Syringe	Syringe (SYRINGE)
Tablet or Capsule	Tablet or Capsule (TAB-CAP)
Topical Liquid	Milliliter (ML)
Topical Solid	Gram (G)
Treatment	Treatment (TREATMEN)
Vaccine	Dose (DOSE)
Vial (single strength)	Vial (VIAL)

The median price is a type of average; it is whatever value splits a series of values in half when the series is put in ascending order. If there is an odd number of values in the series, the median value is the middle value in the series. This is likely to be more valuable for estimating actual future prices (or comparing with local prices), when there is a skewed distribution.

When there is an even number of values in a series, such as the series \$1, \$3, \$4, \$6, \$14, \$20, the median is calculated by averaging the two middle values. In this example, the median is the average of \$4 and \$6, which is \$5. Again, this is likely to be closer to reality for comparison or estimation than the arithmetic mean of \$8 (\$48 divided by 6).⁵

⁵ For further discussion, see *Statistics without Tears—A Primer for Non-Mathematicians*, by Derek Rowntree (New York: Charles Scribner's Sons, 1981), pp. 41–45.

How to Analyze and Compare Your Prices

Comparison of prices that you have paid with international prices is one of the most fundamental indicators for assessing procurement efficiency. Other key indicators of procurement efficiency are the accuracy of needs estimation, timeliness of deliveries, and quality of products procured.

With the assistance of this *Guide*, it is possible for procurement personnel to compare the prices they pay with international reference prices (refer to the Price Comparison Form, SP-1 and BP-1). The method below presents one approach to making such comparisons. You may wish to visit the electronic version of the *International Drug Price Indicator Guide* in the Electronic Resource Center at <http://erc.msh.org/priceguide>. It contains features to help you compare your prices to those in the *Guide* and plan a budget or tender.

1. Make a list of products that you routinely procure in large volumes or that represent a high percentage of the budget.
2. For each product, list the vendor pack size used and the most recent price for this vendor pack size. Be sure to note whether the price is CIF (cost, insurance, and freight); FOB (free on board: transportation as far as the port of departure); EXW (ex-works: no transportation included); or another type of price. Prices may need to be adjusted so that they can be compared accurately.
3. Choose one of the two price comparison forms included in the *Guide*, based on the type of prices you are comparing. The buyer prices include shipping costs, and may be most appropriate if they represent a region of the world and tender value similar to yours. The supplier prices are FOB and EXW and must be adjusted to reflect the usual shipping, handling, and insurance charges for your situation.
4. On one of the price comparison forms, select the product in this *Guide* that corresponds most closely to your product. If the prices you are using locally are CIF prices and you have selected the buyer comparison form, no adjustment should be needed for either set of prices.

If the prices you are using locally are CIF prices and you have selected the supplier comparison form, we suggest that the prices on the supplier list be adjusted upward to reflect the difference between CIF and EXW/FOB. When prices on this list are FOB or EXW, it is reasonable to add 10% to the list price for freight and insurance, depending on the distance and the mode of transport. Any standard percentage charged for handling has already been added to the prices on this list.

When significant fluctuations in exchange rates occur, price adjustments must be made to reflect these changes.

5. Once the pack prices have been adjusted to reflect freight, insurance, and other additional costs, divide the pack price by the number of comparison units contained in the vendor pack (for example, divide the pack price by 1,000 if that pack is a bottle of 1,000 tablets, or by 100 if the pack is a vial of 100 ml). Make sure that the comparison unit used is the same as the comparison unit on the *Guide* list. The median international unit price is listed on both price comparison forms for your convenience.

Because packaging can add considerably to the cost of a product, caution is needed when comparing unit prices between different packages. For example, the unit price with strip packaging is usually much higher than the unit price for tablets packaged in a bottle of 1,000. Prices in the *Guide* do not cover specialty packaging, except where noted.

An analysis of this type includes many assumptions that affect its outcome. International price comparisons identify extreme price differences, both high and low. An extremely high ratio between locally available prices and the prices in this *Guide* may indicate that a less expensive source is available. If the locally available prices are much lower than the prices in this *Guide*, it might reflect effective procurement, but it could also be the result of a compromise of quality control, differences in packaging, or other factors that might reduce product quality. These comparisons are only indicators, and should be viewed as pointers for further investigation.

GUIA INTERNACIONAL DE INDICADORES DE PRECIOS DE MEDICAMENTOS

Prólogo

La *Guía Internacional de Indicadores de Precios de Medicamentos* provee exactamente lo que el nombre implica—una indicación de precios de medicamentos en el mercado internacional. Management Sciences for Health publica esta *Guía* desde 1986, y en colaboración con la Organización Mundial de la Salud (OMS) desde el 2000. La *Guía* proporciona una gama de precios ofrecidos por proveedores de medicamentos sin fines de lucro y agencias de adquisición comerciales, basándose en sus catálogos o listas de precios actuales. También contiene precios obtenidos de agencias internacionales para el desarrollo y de agencias gubernamentales.

MSH, en colaboración con la OMS, está trabajando con sus asociados para que la información sobre precios de medicamentos se divulgue más ampliamente con objeto de mejorar la adquisición de medicamentos de calidad garantizada, al precio más bajo posible. Esto contribuirá a un acceso equitativo a los servicios y productos de salud, incluyendo los medicamentos esenciales necesarios para la prevención y el tratamiento de las enfermedades prevalentes.

Debido a que el costo potencial de ofrecer una gama completa de tratamientos para enfermedades comunes es alto, los precios y el financiamiento son factores ineludibles en la determinación del acceso a medicinas esenciales. Pueden obtenerse precios más bajos mediante compras de volumen, la competencia, negociaciones hábiles y una administración inteligente de las existencias. La información comparativa de precios es importante para obtener el precio más bajo. Esta información ayuda a negociar precios, a localizar nuevas fuentes de suministro y a evaluar la eficiencia de los sistemas de adquisición locales.

La *Guía Internacional de Indicadores de Precios de Medicamentos* ayuda a los funcionarios encargados del suministro de medicamentos a determinar el costo probable de los productos farmacéuticos para sus programas. Se puede usar como una lista de referencia para comparar los precios actuales con los disponibles en el mercado internacional; también se puede utilizar para evaluar el posible impacto financiero de los cambios en las listas de medicamentos.

La base de datos sobre precios es mantenida por el Centro de Gestión Farmacéutica de Management Sciences for Health, organización sin fines de lucro, como una contribución para poner los medicamentos esenciales al alcance de todos los ciudadanos del mundo. Se puede copiar la *Guía* libremente para fines educacionales en el servicio u otro uso caritativo.

Se puede obtener información adicional sobre los precios internacionales de los medicamentos en la Web en:

- “Medicines Price Information” (<http://www.who.int/medicines/areas/access/ecofin/en/index.html>), página mantenida por la OMS. Incluye precios de servicios internacionales para información sobre precios de materiales para comenzar, materias primas y ciertos medicamentos relacionados con el VIH. Además, presenta información de precios de medicamentos para enfermedades específicas y servicios informativos sobre precios individuales por países.

Favor de tomar nota que se puede encontrar una versión electrónica de la *Guía Internacional de Indicadores de Precios de Medicamentos* en el Centro de Recursos Electrónicos de MSH en <http://erc.msh.org/priceguide>.

Cómo Usar la *Guía*

La *Guía* comienza con una sección titulada “Información Que Usted Debe Saber”, que le ayudará a entender mejor los datos presentados en ella. A esta le sigue una lista de los proveedores y compradores mencionados en esta edición y incluye detalles sobre condiciones de embarque y restricciones. También se dan las direcciones. Después, la *Guía* pasa a explicar el formato de los informes sobre comparación de precios, como también los términos usados en las listas de precios y los códigos y abreviaturas empleados.

En esta *Guía* se presentan datos sobre precios en tres formatos. Cada formato incluye los precios del proveedor y del comprador. Los precios del comprador son generalmente los precios de una agencia gubernamental a través de una licitación competitiva internacional.

- Lista I: Los medicamentos se clasifican en orden alfabético y por nombre genérico. Esta lista incluye los detalles sobre precios por cada proveedor y comprador. Este formato sirve para fines de referencia durante el proceso de adquisición, y permite hacer una búsqueda rápida de cualquier medicamento.
- Lista II: Los medicamentos se clasifican en orden alfabético siguiendo el sistema de clasificación de la Lista de Medicamentos Esenciales (LME) de la Organización Mundial de la Salud. Este formato ayuda a crear formularios y permite hacer una comparación conveniente de los medicamentos dentro de las distintas clases. Los productos en un mismo grupo no implica que son directamente sustituibles entre ellos.
- Lista III: Los medicamentos se clasifican por orden alfabético, mostrándose solamente el precio mediano por producto. El formato tiene por objeto facilitar la comparación de los precios del usuario con los precios de la *Guía*. Los precios del proveedor y del comprador están en listas separadas.

Si necesita información sobre cómo usar estos precios para fines comparativos, por favor vea la sección de esta *Guía* titulada “Cómo Analizar y Comparar sus Precios.” Además, a modo de referencia, en los Anexos se incluyen una lista de sinónimos y las categorías terapéuticas de la OMS.

El propósito de esta *Guía* es servir únicamente como una referencia para fines comparativos; no es apropiada para colocar pedidos de productos. Para hacer pedidos, es preciso ponerse en contacto directamente con el proveedor. No hay garantías implícitas en la lista en cuanto a la disponibilidad de los precios cotizados, la calidad de los productos o condiciones específicas de ventas. La lista de proveedores no es una lista completa de todos los proveedores potenciales. Los precios cotizados por los compradores se muestran para fines comparativos solamente.

Información que Usted Debe Saber

Productos incluidos

La *Guía Internacional de Indicadores de Precios de Medicamentos* se enfoca principalmente en medicamentos esenciales, pero incluye también otros productos. Los medicamentos de la lista de Medicamentos Esenciales de la OMS están siempre incluidos, como también los medicamentos y productos importantes para el tratamiento y prevención de la tuberculosis, malaria y VIH/SIDA. Las vacunas, agentes inmunológicos, desinfectantes, líquidos y electrolitos y pruebas y agentes diagnósticos, son también típicamente cubiertos. Crecientemente, los medicamentos requeridos para el tratamiento del cáncer y enfermedades crónicas, y la potencia y dosis de las formulaciones pediátricas, se han incluido en la base de datos. Nuevos productos son agregados a la *Guía* cada año, dados los cambios en la información que nos es reportada.

Conversión de precios

Los precios que figuran en la *Guía Internacional de Indicadores de Precios de Medicamentos* están en orden ascendente conforme al precio unitario. Todos los precios obtenidos por las organizaciones señaladas a continuación han sido convertidos a dólares estadounidenses. Los tipos de cambio utilizados son los que regían el 1 de julio de 2014 (<http://www.oanda.com>). Los demás precios del catálogo ya estaban originalmente en dólares estadounidenses, por lo que no se convirtieron.

Moneda (Codigo de agencia)	Tipo de cambio (a \$EE.UU.)
Chelín de Kenia (MEDS)	0.0112
Chelín de Tanzania (MEDEOR/TZ, MEMS)	0.0006
Dólar de Namibia (NAMIBIA)	0.0942
Euro (IDA, MEDEOR/EU)	1.3687
Libra esterlina (DURBIN)	1.7126
Libra sudanesa (SUDANNHIF)	0.1746
Naira nigeriano (CHAI)	0.0061
Nuevo cedi de Ghana (CHAI)	0.3099
Nuevo sol de Perú (PERU)	0.3532
Pesos de la República Dominicana (DOMREP)	0.0228
Rand sudafricano (SAFRICA)	0.0942
Rupia india (CHAI)	0.0166

Las fluctuaciones en los tipos de cambio pueden hacer variar considerablemente los costos. Siempre deberá usar el tipo de cambio más reciente cuando haga su análisis para calcular los costos de los medicamentos.

Termos de precios

Los precios de proveedores y los precios de compradores que aparecen en esta *Guía* están basados en condiciones de precio diferentes, y por consiguiente no deben compararse en forma directa. Los Incoterms que siguen a continuación se usan para definir los tipos de precios:

- CIF (costo, seguro y flete): incluye cargos por concepto de seguro y flete hasta el puerto de destino (el transporte por agua solamente)
- CIP (transporte y seguro pagados): incluye costo de transporte y seguro al transportista en el lugar convenido
- DDP (entregado derechos pagados): incluye la entrega, los derechos de introducción y los costos de desembarque
- DDU (entregado derechos no pagados): incluye la entrega, pero no incluye los derechos de introducción y los costos de desembarque
- EXW (en fábrica): no incluye costos de carga, seguro o flete
- FCA (franco transportista): el vendedor realiza todas las transacciones y paga el transporte anticipadamente en el país de exportación

Algunos proveedores y agencias imponen un cargo estándar por manejo, además del costo EXW o CIF. Los cargos por manejo indicados en las Fuentes de las Listas de Precios ya han sido añadidos a los precios cotizados en esta *Guía*.

Cómo calcular los precios

Al calcular y proyectar los costos reales, es importante tener en cuenta factores tales como el financiamiento, el tiempo de entrega, los tipos de transporte (aire/mar/tierra), y los cargos por manejo. El análisis de estos factores queda fuera del alcance y la intención de esta *Guía*. No obstante, para obtener un estimado, es razonable agregar del 10% por costos de embarque al precio cotizado por los proveedores en esta *Guía*. Los precios de los compradores (obtenidos en licitaciones por las agencias de gobiernos) generalmente no requieren hacer ajustes por cargos de embarque.

Garantía de calidad

Nosotros requerimos que todos los proveedores que figuran en la *Guía Internacional de Indicadores de Precios de Medicamentos* llenen un cuestionario sobre garantía de calidad. El propósito de llenar este cuestionario obligatorio es ayudar a asegurar que los precios cotizados en esta *Guía* provengan de proveedores de reputación con procesos de garantía de calidad debidamente instalados. Las 28 preguntas tratan de asuntos como inspección, prueba, garantía de calidad, concesión de licencias, retirada de productos del mercado, procedimientos de control de calidad, estándares y documentación. Aunque este requisito brinda cierta garantía en cuanto a los procesos de control de calidad, no necesariamente garantiza la calidad de los productos ofrecidos. Se pueden obtener copias del cuestionario solicitándolas de Management Sciences for Health.

Las fuentes de los precios incluidas en la *Guía* han sido revisadas únicamente desde el punto de vista de la integridad de los documentos proporcionados. Esta revisión de ningún modo constituye un estudio a fondo de la calidad de los productos. Su inclusión en la *Guía* no constituye una calificación previa o aprobación de ningún tipo por MSH y la OMS.

Calidad de los productos

Los proveedores y agencias seleccionados para esta *Guía* no son fabricantes, pero sí ofrecen productos en relación con los cuales han indicado que cumplen con las normas internacionales de calidad especificadas por organizaciones como la Farmacopea de los Estados Unidos (USP), la Farmacopea Británica (BP) y la Farmacopea Europea (EP). Todos los proveedores declaran que las fábricas con quienes se trabajan mantienen normas de alta calidad mediante la incorporación en el sitio de sistemas de garantía de calidad con objeto de asegurar que todos los productos cumplan con las Buenas Prácticas de Manufactura (GMP por sus siglas del inglés) de la OMS y los reglamentos gubernamentales. Los certificados de calidad conforme al Plan de Certificación de la OMS sobre la Calidad de los Productos Farmacéuticos que se Mueven en el Comercio Internacional, se deben poder obtener solicitándolos de todos estos proveedores. Los proveedores y las agencias que figuran en esta *Guía* mantienen sus propios programas independientes de garantía de calidad. Comuníquese con ellos directamente para obtener detalles al respecto.

Sistema ATC/DDD¹

Los datos sobre la utilización de medicamentos desempeñan un papel muy importante en la calidad del ciclo de atención y son esenciales para administrar la política relacionada con el suministro, fijación de precios, costo y uso de los medicamentos. El sistema de clasificación anatómica-terapéutica-química (ATC) y la unidad de medida técnica llamada la dosis diaria definida (DDD) pueden proveer metodologías útiles para el seguimiento y la comparación de las tendencias en el costo, pero se deben usar con cautela. Basar el reembolso detallado, la fijación de precios de referencia de grupos terapéuticos y otras decisiones específicas sobre precios en las clasificaciones asignadas por el sistema ATC/DDD, es una utilización errónea del mismo.

El sistema ATC/DDD tiene por objeto servir de herramienta para investigar la utilización de medicamentos a fin de mejorar la calidad del uso de esos medicamentos. Uno de sus componentes es la presentación y comparación de las estadísticas sobre consumo de medicamentos al nivel internacional y a otros niveles.

Una de las principales aspiraciones del Collaborating Centre for Drug Statistics Methodology y Working Group de la OMS es mantener códigos de ATC y DDD estables con el transcurso del tiempo a fin de poder estudiar las tendencias en el consumo de los medicamentos sin la complicación de cambios frecuentes al sistema. Existe una renuencia muy grande a hacer

¹El texto de esta sección fue tomado del sitio del Collaborating Centre for Drug Statistics Methodology de la OMS en la Web en <http://www.whocc.no/atcddd/>.

cambios a las clasificaciones o dosis diarias definidas cuando esos cambios son solicitados por razones no relacionadas directamente con estudios del consumo de medicamentos. Por esta razón, el sistema ATC/DDD por sí solo no es apto para basar decisiones sobre reembolso, fijación de precios y sustituciones terapéuticas.

La clasificación de una sustancia en el sistema ATC/DDD no representa una recomendación para su uso, ni tampoco ninguna determinación sobre la eficacia o eficacia relativa de los medicamentos o grupos de medicamentos.

Fuentes de las Listas de Precios

En la *Guía* se incluyen tres tipos primarios de proveedores y compradores.

1. **Proveedores** que mantienen un almacén y suministran productos directamente a los clientes. Todos estos proveedores ofrecen una mayor variedad de productos que los mostrados en esta *Guía*. Para ver una lista completa de los productos, comuníquese con el proveedor directamente. En la *Guía* se incluyen los proveedores siguientes:

Proveedor	Código	Fecha da la lista	Cargo por manejo	Tipo de precio	Detalles
Action Medeor	MEDEOR/ EU	septiembre 2014	1%	EXW Tönisvorst	Los precios son válidos hasta que se publique una nueva lista de precios. Los costos de transporte se cargan individualmente de acuerdo con los gastos. Embalaje especial: Euro 26 por caja. Action Medeor cobra una comisión por manejo mínimo de Euro 50. Abastece solamente al mercado sin fines de lucro.
Action Medeor International Healthcare	MEDEOR/ TZ	septiembre 2014	0%	EXW	Action Medeor International Healthcare es una agencia de compras sin fines de lucro, fundada en 2004, que pertenece a Action Medeor. Abastece al mercado sin fines de lucro (principalmente Tanzania) y no abastece a individuos o a farmacias comerciales. Se aplica un 3.5% de recargo por servicios a todos los clientes que no son de Tanzania para cubrir cobros bancarios y pérdidas por cambio de moneda. No se requieren cantidades mínimas.
Amstelfarma	AMSTEL- FARM	enero 2015	0%	EXW Lelystad, The Netherlands	Los precios de Amstelfarma solo sirven como una indicación. No existen requisitos mínimos para los pedidos ni cargos por concepto de servicios.
ASRAMES	ASRAMES	agosto 2014	0%	DDP o CIP Kinshasa	ASRAMES sólo sirve organizaciones en la República Democrática del Congo que han sido reconocidos por el Ministerio de Salud como una institución de salud o como una ONG que trabaja en el sector de la salud.
Durbin PLC	DURBIN	2013-2014	0%	EXW United Kingdom	Durbin provee productos farmacéuticos e insumos médicos a médicos, farmacias, hospitales, mayoristas y comerciantes farmacéuticos, agencias militares y gubernamentales, organismos caritativos, y otras organizaciones de socorro y beneficencia a nivel mundial. Se requiere un pedido mínimo de RU £100.

Proveedor	Código	Fecha da la lista	Cargo por manejo	Tipo de precio	Detalles
IDA Foundation	IDA	noviembre 2014	1,5%	FCA Amsterdam	La Fundación IDA es una organización sin fines de lucro que apoya la atención médica en los países de ingresos bajos e intermedios, mejorando el acceso y suministrando medicamentos esenciales e insumos médicos de alta calidad. IDA es una fundación independiente y autosuficiente que distribuye más de 3.000 productos a más de 100 países alrededor del mundo. A los pedidos inferiores a los 5.000 euros se les cobra un cargo de manipuleo de 3% y los pedidos de más a los 5.000 euros se les cobra un cargo de manipuleo de 1,5%. Se requiere un pedido mínimo de 1500 Euros. Los precios son indicativos y pueden cambiar.
IMRES	IMRES	enero 2015	0%	FCA Lelystad, The Netherlands	La cantidad mínima de un pedido es de US\$ 1250.
Medical Export Group	MEG	noviembre 2014	0%	FCA Gorinchem, The Netherlands	Los precios solo sirven como una indicación. No existen requisitos mínimos para los pedidos ni cargos por concepto de servicios.
Medical Stores Department, Tanzania	MSD/TANZ	2014-2015	0%	EXW	Los precios de venta de MSD son válidos para todas las instalaciones de salud gubernamentales, aprobadas ONG, hospitales de misiones, hospitales de beneficencia y otros proveedores de atención de salud en Tanzania, con la aprobación del Ministerio de Salud y Bienestar Social. Empresas / organizaciones paraestatales pagarán el 10% en la parte superior de estos precios de venta.
Mission for Essential Drugs and Supplies	MEDS	julio 2014	0%	FOB Nairobi	La Misión de Medicinas esenciales e insumos médicos (MEDS) provee productos farmacéuticos e insumos médicos a los trabajadores de salud asociados con las agencias sin fines de lucro. Se añade costos del transporte a las entregas fuera del Kenia.

2. **Organizaciones para el desarrollo internacional** que proporcionan productos básicos a los programas de países apoyados por ellas y por otras organizaciones. Las organizaciones listadas en la *Guía* son:

Organización para el desarrollo internacional	Código	Fecha de la lista	Cargo por manejo	Tipo de precio	Detalles
El Servicio Mundial de Medicamentos Contra la Tuberculosis (Global TB Drug Facility)	GDF	2014	0%	EXW	<p>Los medicamentos se adquieren como donativos gratuitos, pero también se ofrecen para la venta a gobiernos y organizaciones que desean valerse de la calidad, los precios y asistencia técnica/apoyo para la gestión de medicamentos que se ofrece a través del Servicio Directo de Adquisiciones GDF. El Servicio Mundial de Medicamentos Contra la Tuberculosis (GDF por sus siglas en Inglés) efectúa pruebas independientes obligatorias de cada lote de medicamentos que suministra, e inspecciones pre-embarque de cada orden que despacha para asegurar la más alta calidad. Además del costo de los medicamentos, los costos del control de calidad son pagados por el cliente (o por el GDF, en el caso de una donación).</p> <p>El GDF utiliza agentes de compra para asegurar la entrega eficiente de los productos. Un cargo por los servicios de compra es agregado al costo de la orden, que incluye el costo de los medicamentos, el de control de calidad y el de transporte. GDF envía al país un equipo de expertos en tuberculosis y en gestión de medicamentos 4 meses después del arribo de los medicamentos, para evaluar su uso y proporcionar la asistencia técnica que fuera requerida. Esta asistencia técnica del GDF a los países no tiene ningún costo. La GDF es un mecanismo para ampliar el acceso a, y la disponibilidad de, medicamentos de alta calidad contra la TB para facilitar la ampliación mundial del tratamiento directamente observado, a corto plazo (DOTS), la estrategia internacionalmente recomendada para el control de la tuberculosis.</p>
Supply Chain Management System (proyecto)	SCMS	octubre 2014	5%	EXW (Centro regional de distribución de SCMS o distribución directa por el proveedor)	<p>El proyecto “Sistema de Gestión de la Cadena de Suministro” (SCMS por sus siglas en inglés) distribuye medicamentos esenciales a programas de VIH/SIDA en todo el mundo. El proyecto ayuda a fortalecer las cadenas de suministro existentes, o establece nuevas para asegurar que un sistema de gestión del suministro seguro, confiable y sustentable, adquiera medicamentos y otros productos para personas con HIV/SIDA e infecciones relacionadas. SCMS ha sido fundado por el gobierno de los Estados Unidos como parte del Plan de Emergencia Presidencial para la Mitigación del SIDA (PEPFAR por sus siglas en inglés). SCMS puede trabajar en cualquier lugar del mundo, pero inicialmente se ha enfocado en los 15 países de PEPFAR. Además de servir a cualquier proyecto o socio apoyado por PEPFAR, SCMS puede proveer a proyectos apoyados por gobiernos nacionales y otros donantes, de acuerdo a arreglos individuales.</p>

Organización para el desarrollo internacional	Código	Fecha da la lista	Cargo por manejo	Tipo de precio	Detalles
Fondo de Población de las Naciones Unidas (UN Population Fund)	UNFPA	septiembre 2014	5%	FOB	El FNUAP celebra licitaciones anuales para la compra de productos para sus oficinas en los países y en nombre de clientes externos en más de 168 países, principalmente los que están en vías de desarrollo. El FNUAP solo abastece a gobiernos y organizaciones sin fines de lucro. El FNUAP cobra una comisión de administración del 5% a los compradores que no pertenecen al FNUAP. Hay un requisito mínimo de compra de 5.000 dólares EE.UU. por artículo. Los precios son indicativos y pueden

3. **Los compradores** (generalmente agencias del sector público) que adquieren productos básicos en licitaciones internacionales libres. Estos son los precios reales obtenidos por las organizaciones listadas y se incluyen con fines de comparación solamente. No se pueden colocar pedidos con ninguna de estas organizaciones.

Comprador	Código	Fecha de la lista	Tipo de precio	Valor aprox. de la licitación (USD)	Detalles
Botswana Public Procurement and Asset Disposal Board	BOTS-WANA	enero 2014	N/D	N/D	The Public Procurement and Asset Disposal Board of Botswana regularmente realiza licitaciones internacionales y nacionales y abiertas y cerradas.
Caja Costarricense de Seguro Social	CRSS	2014	DDU	126 millón	La Caja Costarricense de Seguro Social celebra anualmente una licitación internacional abierta y negocia contratos de abastecimiento de medicamentos e insumos médicos para sus propias instalaciones.
Clinton Health Access Initiative	CHAI	2014	DDP, EXW, o FOB	N/D	La Iniciativa de Acceso a la Salud Clinton contribuyó información sobre los precios de varios socios que están trabajando juntos para ampliar el tratamiento para la diarrea.
Democratic Republic of Congo Integrated Health Program (IHP)	DRC/IHP	mayo 2014	FCA	3,8 millón	La República Democrática del Congo Proyecto Integrado de Salud (DRC/IHP) celebra anualmente una licitación internacional y cerrada.
República Dominicana Central de Apoyo Logístico Programa de Medicamentos Esenciales (PROMESE/CAL)	DOM-REPUB	octubre 2014	N/D	69 millón	La República Dominicana Central de Apoyo Logístico Programa de Medicamentos Esenciales celebra una licitación nacional y abierta para medicamentos e insumos médicos dos veces al año.
Mission for Essential Medical Supplies (MEMS), Tanzania	MEMS	julio 2014	N/D	0,3 millón	Después de celebrar un proceso abierto de precalificación seguido por una licitación cerrada, MEMS ha concedido a un vendedor primario un contrato cada año para la provisión de medicinas e insumos médicos.

Comprador	Código	Fecha de la lista	Tipo de precio	Valor aprox. de la licitación (USD)	Detalles
Namibia Central Medical Stores	NAMIBIA	agosto 2014	DDP	24 millón	El Almacén Médico Central de Namibia celebra una licitación internacional y abierta cada dos años para productos farmacéuticos e insumos médicos y cada año para los antirretroviricos.
Organisation of Eastern Caribbean States Pharmaceutical Procurement Service (OECS/PPS), St. Lucia	OECS/PPS	1 marzo 2014 - 31 agosto 2015	CIF	N/D	El Servicio de Abastecimiento Farmacéutico de la Organización de Estados del Caribe Oriental ofrece sus servicios únicamente a países miembros de la Organización de Estados del Caribe Oriental. Para estos nueve países, OECS/PPS negocia contratos y compras a través de una licitación internacional cerrada cada 18 meses.
Perú Ministerio de Salud	PERU	febrero y abril 2014	DDP	197 millón	El Ministerio de Salud del Perú celebra anualmente una licitación nacional y abierta para productos farmacéuticos e insumos médicos.
El Sistema de Integración Centroamericana (SICA)	SICA	agosto 2014	CIF	4,2 millón	El Sistema de Integración Centroamericana (SICA) celebra anualmente una licitación internacional y cerrada para un grupo de medicamentos seleccionados.
South Africa Department of Health	SAFRICA	2014	DDP	N/D	El Departmento de Salud de Sudáfrica celebra las licitaciones nacionales y abiertos para productos farmacéuticos e insumos médicos cada dos años.
Sudan National Health Insurance Fund	SUDAN-NHIF	junio 2014	DDP	16,8 millón	El Fondo de Seguro Nacional de Salud de Sudán celebra anualmente las licitaciones nacionales y abiertas para productos farmacéuticos e insumos médicos.

Formato de las Listas de Precios

Los productos farmacéuticos se presentan en tres listas separadas con formatos y características diferentes, aunque con ciertos elementos comunes a todas ellas.

- Lista I: Productos Clasificados por Orden Alfabético
- Lista II: Productos Clasificados por Categoría Terapéutica
- Lista III: Formularios para la Comparación de Precios

A continuación se presenta una descripción detallada de la información contenida en cada lista.

Lista I – Productos Clasificados por Orden Alfabético

La Lista I tiene por objeto servir de referencia para la adquisición de medicamentos y los incluye en orden alfabético de sus nombres genéricos para poder localizar rápidamente cualquier medicamento. Esta lista muestra los tamaños de los paquetes disponibles de cada fuente y su precio en dólares estadounidenses, incluyendo los cargos regulares por servicio cuando corresponda.

Descripción del producto

La descripción del producto incluye el nombre genérico, su potencia, la forma de la dosificación y la vía de administración. Si el producto emplea dos nombres comunes (por ejemplo, vitamina C y ácido ascórbico), uno de ellos aparecerá entre paréntesis. Véase la Lista de Sinónimos en el Anexo.

IC

Los productos regulados por el control internacional de narcóticos se identifican con las siglas (IC) después de la descripción.

Nomenclatura

Se han utilizado la denominación común internacional (INN) como la lista de los medicamentos incluidos en esta *Guía*. Si no se asigna un INN, entonces se emplea el nombre genérico más común. Las formas de dosificación de medicamentos indicadas suelen ser las que figuran en la 19ª Lista Modelo de Medicamentos Esenciales de la Organización Mundial de la Salud (OMS) (revisada en abril de 2015), y que se puede ver en <http://www.who.int/medicines>.

Vía de administración

Las vías de administración se codifican en la forma siguiente:

Tipo de producto	Código
Condomes	COND
Dispositivo intrauterino (DIU)	IUD
Medicinas de uso local (líquidos, polvos, cremas, ungüentos)	TOP
Medicinas inyectables	INJ
Medicinas para inhalación	INH
Medicinas por uso nasal y de la garganta	N/T
Medicinas subcutáneas	S/C
Preparaciones vaginales	VAG
Preparaciones para los ojos	OPHT
Preparaciones para los oídos	OTIC
Soluciones intravenosas	IV
Supositorios/enemas/ungüentos rectales	RECT
Tabletas/cápsulas/líquidos de vía oral	PO

Tabletas sublinguales	SL
Tiras diagnósticas	DIAG
No aplicable	N/A

Fuente

La lista de fuentes de precios puede verse en la página S-9.

Paquetes

Los proveedores y compradores proporcionan los tamaños de los paquetes.

Precio de los paquetes (\$EE.UU.)

Los precios de los paquetes los proporcionan los proveedores y compradores y han sido convertidos a dólares estadounidenses a los tipos de cambio señalados en la página S-6, con objeto de facilitar las comparaciones. Si un proveedor cobra un porcentaje como cargo estándar por manejo, ese porcentaje ha sido añadido al precio de lista del paquete.

Precio unitario (\$EE.UU.)

El precio unitario se calcula dividiendo el precio del paquete entre el número de unidades que contiene. De esta forma se facilita comparar los precios de los paquetes de diferentes vendedores. La unidad usada para comparar precios varía con el tipo de preparación farmacéutica, tal como sigue:

Forma de dosificación farmacéutica	Unidad de comparación (Código)
Ampolleta o frasco (mililitros)	Mililitro (ML)
Cartucho	Mililitro (ML)
Condón, DIU (dispositivo intrauterino), prueba, red	Cada (EACH)
Enema	Mililitro (ML)
Frasco (potencia única)	Frasco (VIAL)
Gas	Metro cúbico (CUBMETER)
Granules	Gramme (G)
Inhalador	Dosis (DOSE)
Jeringa	Jeringa (SYRINGE)
Líquido de uso local	Mililitro (ML)
Paquete	Paquete (PACK)
Pesario	Pesario (PESS)
Preparaciones para los oídos, la nariz y la garganta	Mililitro (ML)
Sólido de uso local	Gramme (G)
Supositorio	Supositorio (SUPP)
² Suspensión o líquido oral	Mililitro (ML)
Tableta/cápsula	Tableta/cápsula (TAB-CAP)
Tratamiento	Tratamiento (TREATMEN)
Vacuna	Dosis (DOSE)

Dosis diaria definida

La dosis diaria definida (DDD) es la dosis de mantenimiento promedio supuesta por día para un medicamento utilizado para su indicación principal en adultos. Cabe señalar que la dosis diaria definida es una unidad de medida y no necesariamente refleja la dosis diaria recomendada o recetada. Las dosis para pacientes individuales y grupos de pacientes con frecuencia diferirán de la DDD y necesariamente basarse en características individuales (por ejemplo, edad y peso) y consideraciones farmacocinéticas.

Los datos sobre el consumo de medicamentos presentados en las DDD ofrecen solamente una estimación aproximada del consumo y no dan una idea exacta del uso real. Las DDD proporcionan una unidad fija de medida independiente del precio y la formulación, que le permite al investigador determinar las tendencias en el consumo de medicamentos y hacer comparaciones entre los distintos grupos de población.

Las dosis diarias definidas fueron tomadas del Collaborating Centre for Drug Statistics Methodology de la OMS. Ellas ilustran las DDD recomendadas por el Grupo de Investigación sobre la Utilización de Medicamentos (DURG) de la Organización Mundial de la Salud. No todos los medicamentos listados en esta guía de comparación de precios tienen dosis diarias definidas asignadas por este método. La DDD solo se asigna a los medicamentos que ya tienen un código de clasificación anatómica-terapéutica-química (ATC).

La DDD se usa principalmente para hacer un cálculo estimado del consumo de los medicamentos, basado en datos de inventario y distribución. Esta estimación se puede combinar con la información sobre precios para fines de presupuestación.

Nota: La dosis diaria definida no se debe usar para determinar dosificación o terapias. Véase la información sobre recetas para los esquemas de dosificación para indicaciones específicas.

WHO LME

La columna "WHO EML" indica si el producto está incluido en la Lista Modelo OMS de Medicamentos Esenciales de 2015. Identificamos cinco categorías en la *Guía Internacional de Indicadores de Precios de Medicamentos*:

- E = En la lista básica de la OMS, en la misma forma y potencia de dosificación
- C = En la lista complementaria de la OMS, en la misma forma y potencia de dosificación
- P = En la lista de la OMS, pero en una presentación diferente (forma y/o potencia de dosificación diferente)
- T = No está en la lista de la OMS, pero puede ser una alternativa para un producto listado como un ejemplo de grupo terapéutico
- N = No está en la lista modelo de la OMS

Código ATC

El código ATC es el código de clasificación anatómica-terapéutica-química asignado por el Collaborating Centre for Drug Statistics Methodology de la OMS. El sistema ATC/DDD es una

herramienta usada para investigar la utilización de los medicamentos con objeto de mejorar la calidad en el uso de los mismos. Un componente de esto es la presentación y comparación de estadísticas sobre consumo de medicamentos al nivel internacional y a otros niveles.

En el sistema de clasificación ATC, los medicamentos se dividen en grupos diferentes conforme al órgano o sistema sobre el cual actúan, y a sus propiedades químicas, farmacológicas, y terapéuticas. Los medicamentos se clasifican en grupos a cinco niveles diferentes. También se dividen en 14 grupos principales (1r. nivel), con un subgrupo farmacológico/terapéutico (2do. nivel). Los niveles 3ro. y 4to. son subgrupos químicos/farmacológicos/terapéuticos, y el 5to. nivel es la sustancia química.²

Precio mediano

Cuando se use la *Guía* para hacer comparaciones con precios locales, o para calcular el valor total de una lista de adquisición, un precio promedio puede ser útil. Básicamente hay dos clases de precios promedio que podrían usarse—el precio medio y el precio mediano. El precio medio es el promedio simple de todos los precios mostrados para un medicamento; los valores se suman y luego se dividen entre la cantidad de valores.

Sin embargo, surge un problema cuando uno o dos precios son mucho más altos o más bajos que los demás en un medicamento determinado. Estos “valores extremos” producen una desviación en el valor medio y lo hacen menos representativo. Por ejemplo, en una serie de siete valores, tales como \$1, \$2, \$2, \$3, \$5, \$16 y \$20, todos los valores suman \$49, y dividiendo este número entre siete se obtiene un valor medio de \$7. Para fines de comparación o de estimados, es probable que este promedio sea demasiado alto debido a los dos precios mucho más altos que los demás de la serie. Para evitar este riesgo, usamos el precio mediano.

El precio mediano es un tipo de promedio; es el valor que divide una serie de valores a la mitad cuando la serie se pone en orden ascendente. Esto probablemente sea un método más útil para estimar los precios futuros reales (o para hacer comparaciones con precios locales) cuando exista una distribución sesgada.

Si hay un número impar de valores en la serie, como el ejemplo anterior, el valor mediano es el valor del medio en la serie (\$3 en el ejemplo anterior). Cuando una serie contiene un número par de valores, como en la serie \$1, \$3, \$4, \$6, \$14 y \$20, el precio mediano se calcula promediando los dos valores del medio. En este ejemplo, el precio mediano es el promedio de \$4 y \$6, o sea, \$5. Nuevamente, es probable que esto se aproxime más a la realidad para la comparación o estimación, que la media aritmética de \$8 (\$48 dividido entre 6).³

Proporción máxima/mínima

La proporción máxima/mínima (high/low) compara el precio unitario más alto con el precio unitario más bajo. Por ejemplo, una proporción máxima/mínima de tres significa que el precio unitario más alto es tres veces mayor que el precio unitario más bajo.

² Tomado del sitio del Collaborating Centre for Drug Statistics Methodology de la OMS en la Web en <http://www.whocc.no/atcddd/>.

³ Para ver más discusiones sobre el tema, ver *Statistics without Tears—A Primer for Non-Mathematicians*, por Derek Rowntree (Nueva York: Charles Scribner's Sons, 1981), pp. 41–45.

Lista II – Productos Clasificados por Categoría Terapéutica

En Lista II, los medicamentos se muestran en orden alfabético dentro de cada clase terapéutica partiendo del sistema de clasificación de la Lista de Medicamentos Esenciales de la Organización Mundial de la Salud. Para los productos no incluidos en la LME más reciente de la OMS (es decir, los identificados con una “N” en la columna “LME de la OMS” en esta *Guía*), hemos asignado una clase terapéutica basada en el sistema de clasificación utilizada por la LME de la OMS. Esta clase se utiliza cuando, de acuerdo con una determinación hecha por el personal de MSH, un producto no incluido en la LME corresponde claramente a una categoría terapéutica de la LME.

Esta asignación no refleja una decisión del Departamento de Medicinas Esenciales y Política Farmacéutica de la OMS, ni del personal de MSH, de que el producto no incluido en la LME pueda incluirse en la Lista de Medicinas Esenciales de la OMS. Si no es posible hacer una asignación inequívoca de una categoría terapéutica de la LME, clasificamos el producto en la categoría “UA– Agentes No Clasificados en la LME de la OMS”.

Los productos en un mismo grupo no implica que son directamente sustituibles entre ellos. Todos los precios que figuran en esta lista son unitarios. Por cada producto de la lista se muestran los datos siguientes:

Descripción del producto

La descripción del producto incluye el nombre genérico, su potencia, forma de dosificación y la vía de administración. Si el producto emplea dos nombres comunes (por ejemplo, vitamina C y ácido ascórbico), uno de ellos aparecerá entre paréntesis. Véase la Lista de Sinónimos en el Anexo.

IC

Los productos regulados por el control internacional de narcóticos se identifican con las siglas (IC) después de la descripción.

Nomenclatura

Se han utilizado las denominaciones comunes internacionales (INN) como la lista de los medicamentos incluidos en esta *Guía*. Si no se asigna un INN, entonces se emplea el nombre genérico más común. Las formas de dosificación de los medicamentos indicadas generalmente son las que figuran en la 19ª. Lista Modelo OMS de Medicamentos Esenciales (revisada en abril de 2015), y que se puede ver en <http://www.who.int/medicines>.

Vía de administración

Las vías de administración se codifican en la forma siguiente:

Tipo de producto	Código
Condomes	COND
Dispositivo intrauterino (DIU)	IUD

Medicinas de uso local (líquidos, polvos, cremas, ungüentos)	TOP
Medicinas inyectables	INJ
Medicinas para inhalación	INH
Medicinas por uso nasal y de la garganta	N/T
Medicinas subcutáneas	S/C
Preparaciones vaginales	VAG
Preparaciones para los ojos	OPHT
Preparaciones para los oídos	OTIC
Soluciones intravenosas	IV
Supositorios/enemas/ungüentos rectales	RECT
Tabletas/cápsulas/líquidos de vía oral	PO
Tabletas sublinguales	SL
Tiras y pruebas diagnósticas	DIAG
No aplicable	N/A

WHO LME

La columna “WHO EML” indica si el producto está incluido en la Lista Modelo OMS de Medicamentos Esenciales de 2015. Identificamos cinco categorías en la *Guía Internacional de Indicadores de Precios de Medicamentos*:

- E = En la lista básica de la OMS, en la misma forma y potencia de dosificación
- C = En la lista complementaria de la OMS, en la misma forma y potencia de dosificación
- P = En la lista de la OMS, pero en una presentación diferente (forma y/o potencia de dosificación diferente)
- T = No está en la lista de la OMS, pero puede ser una alternativa para un producto listado como un ejemplo de grupo terapéutico
- N = No está en la lista modelo de la OMS

Número de proveedores/compradores

El número de proveedores o compradores que ofrecen este producto.

Precio mediano

Cuando se use la *Guía* para hacer comparaciones con precios locales, o para calcular el valor total de una lista de adquisición, un precio promedio puede ser útil. Básicamente hay dos clases de precios promedio que podrían usarse—el precio medio y el precio mediano. El precio medio es el promedio simple de todos los precios mostrados para un medicamento; los valores se suman y luego se dividen entre el número de valores.

Sin embargo, surge un problema cuando uno o dos precios son mucho más altos o más bajos que los demás en un medicamento determinado. Estos “valores extremos” producen una desviación en el valor medio y lo hacen menos representativo. Por ejemplo, en una serie de siete valores, tales como \$1, \$2, \$2, \$3, \$5, \$16 y \$20, todos los valores suman \$49, y dividiendo este

número entre siete se obtiene un valor medio de \$7. Para fines de comparación o de estimados, es probable que este promedio sea demasiado alto debido a los dos precios que son mucho más altos que los demás en la serie. Para evitar este riesgo, usamos el precio mediano.

El precio mediano es un tipo de promedio; es cualquier valor que divide una serie de valores a la mitad cuando la serie se pone en orden ascendente. Esto probablemente sea un método más útil para estimar los precios futuros reales (o para hacer comparaciones con precios locales) cuando exista una distribución sesgada.

Si hay un número impar de valores en la serie, como el ejemplo anterior, el valor mediano es el valor del medio en la serie (\$3 en el ejemplo anterior). Cuando una serie contiene un número par de valores, como en la serie \$1, \$3, \$4, \$6, \$14 y \$20, el precio mediano se calcula promediando los dos valores del medio. En este ejemplo, el precio mediano es el promedio de \$4 y \$6, o sea, \$5. Nuevamente, es probable que esto se aproxime más a la realidad para la comparación o estimación, que la media aritmética de \$8 (\$48 dividido entre 6).⁴

Precio más alto

El precio más alto de los proveedores y compradores de la lista.

Precio más bajo

El precio más bajo de los proveedores y compradores de la lista.

Proporción máxima/mínima

La proporción máxima/mínima (high/low) compara el precio unitario más alto con el precio unitario más bajo. Por ejemplo, una proporción máxima/mínima de tres significa que el precio unitario más alto es tres veces mayor que el precio unitario más bajo.

Dosis diaria definida (DDD)

La dosis diaria definida es la dosis de mantenimiento promedio supuesta por día para un medicamento utilizado para su indicación principal en adultos.

Cabe señalar que la dosis diaria definida es una unidad de medida y no necesariamente refleja la dosis diaria recomendada o recetada. Las dosis para pacientes individuales y grupos de pacientes con frecuencia diferirán de la DDD y necesariamente basarse en características individuales (por ejemplo, edad y peso) y consideraciones farmacocinéticas.

Los datos sobre el consumo de medicamentos presentados en las DDD ofrecen solamente una estimación aproximada del consumo y no dan una idea exacta del uso real. Las DDD proporcionan una unidad fija de medida independiente del precio y la formulación, que le permite al investigador determinar las tendencias en el consumo de medicamentos y hacer

⁴Para ver más discusiones sobre el tema, ver *Statistics without Tears—A Primer for Non-Mathematicians*, por Derek Rowntree (Nueva York: Charles Scribner's Sons, 1981), pp. 41–45.

comparaciones entre los distintos grupos de población.

Las dosis diarias definidas fueron tomadas del Collaborating Centre for Drug Statistics Methodology de la OMS. Ellas ilustran las DDD recomendadas por el Grupo de Investigación sobre la Utilización de Medicamentos (DURG) de la Organización Mundial de la Salud. No todos los medicamentos listados en esta guía de comparación de precios tienen dosis diarias definidas asignadas por este método. La DDD solo se asignará a los medicamentos que ya tienen un código de ATC.

El uso principal de la DDD es para hacer un cálculo estimado del consumo de los medicamentos, basado en datos de inventario y distribución. Esta estimación se puede combinar con la información sobre precios para fines de presupuestación.

Nota: La dosis diaria definida no se debe usar para determinar dosificaciones o terapias. Véase la información sobre recetas para los esquemas de dosificación para indicaciones específicas.

Lista III – Formulario para la Comparación de Precios

El propósito de esta lista es ayudar al usuario a comparar sus precios con los de la *Guía*. En ella solo se muestra el precio mediano, y se emplea una descripción abreviada del producto.

Descripción del producto

La descripción del producto incluye el nombre genérico, su potencia, forma de dosificación y la vía de administración. Si el producto emplea dos nombres comunes (por ejemplo, vitamina C y ácido ascórbico), uno de ellos aparecerá entre paréntesis. Véase la Lista de Sinónimos en el Anexo.

IC

Los productos regulados por el Control Internacional de Narcóticos se identifican con las siglas (IC) después de la descripción.

Nomenclatura

Se han utilizado las denominaciones comunes internacionales (INN) como la lista de los medicamentos incluidos en esta *Guía*. Si no se asigna un INN, entonces se emplea el nombre genérico más común. Las formas de dosificación de medicamentos indicadas suelen ser las que figuran en la 19ª. Lista Modelo de Medicinas Esenciales de la Organización Mundial de la Salud (revisada en abril de 2015), y que se puede ver en <http://www.who.int/medicines>.

WHO LME

La columna “WHO EML” indica si el producto está incluido en la Lista Modelo OMS de Medicamentos Esenciales de 2015. Identificamos cinco categorías en la *Guía Internacional de Indicadores de Precios de Medicamentos*:

- E = En la lista básica de la OMS, en la misma forma y potencia de dosificación
- C = En la lista complementaria de la OMS, en la misma forma y potencia de dosificación
- P = En la lista de la OMS, pero en una presentación diferente (forma y/o potencia de dosificación diferente)
- T = No está en la lista de la OMS, pero puede ser una alternativa para un producto listado como un ejemplo de grupo terapéutico
- N = No está en la lista modelo de la OMS

Tamaño del paquete

Este espacio en blanco es para que el usuario apunte el tamaño del paquete que está comprando.

Precio del paquete

Este espacio en blanco es para que el usuario apunte el precio del paquete comprado que anotó en el espacio en blanco anterior.

Precio unitario

El usuario debe calcular su precio unitario dividiendo el precio del paquete entre el número de unidades que contiene el paquete. Se indican las unidades de comparación empleadas en la *Guía* para cada producto con objeto de asegurar que los precios se comparen sobre una base equivalente.

Precio unitario mediano de un proveedor o comprador (\$EE.UU.)

El precio unitario se calcula dividiendo el precio del paquete entre el número de unidades que contiene el paquete. La unidad utilizada para comparar los precios varía según el tipo de preparación farmacéutica, como sigue:

Forma de dosificación farmacéutica	Unidad de comparación (Código)
Ampolleta o frasco (mililitros)	Mililitro (ML)
Cartucho	Mililitro (ML)
Condón, DIU (dispositivo intrauterino), prueba, o red	Cada (EACH)
Enema	Mililitro (ML)
Frasco (potencia única)	Frasco (VIAL)
Gas	Metro cúbico (CUBMETER)
Granules	Gramme (G)
Inhalador	Dosis (DOSE)
Jeringa	Jeringa (SYRINGE)
Líquido de uso local	Mililitro (ML)
Paquete	Paquete (PACK)
Pesario	Pesario (PESS)
Preparaciones para los oídos, la nariz y la garganta	Mililitro (ML)
Sólido de uso local	Gramme (G)
Supositorio	Supositorio (SUPP)
Suspensión o líquido oral	Mililitro (ML)
Tableta/cápsula	Tableta/cápsula (TAB-CAP)
Tratamiento	Tratamiento (TREATMEN)
Vacuna	Dosis (DOSE)

El precio mediano es un tipo de promedio; es el valor que divide una serie de valores a la mitad cuando la serie se pone en orden ascendente. Es probable que esto sea más valioso para calcular los precios futuros (o comparar con precios locales), cuando existe una distribución sesgada.

Si hay un número impar de valores en la serie, como \$1, \$2, \$2, \$3, \$5, \$16 y \$20, el valor mediano es el valor del medio en la serie (\$3 en el ejemplo). Cuando una serie contiene un número par de valores, como en la serie \$1, \$3, \$4, \$6, \$14 y \$20, el precio mediano se calcula promediando los dos valores del medio. En este ejemplo, el precio mediano es el promedio de \$4 y \$6, o sea, \$5. Nuevamente, es probable que esto se aproxime más a la realidad para la comparación o estimación, que la media aritmética de \$8 (\$48 dividido entre 6).⁵

⁵ Para ver más discusiones sobre el tema, ver *Statistics without Tears—A Primer for Non-Mathematicians*, por Derek Rowntree (Nueva York: Charles Scribner's Sons, 1981), pp. 41–45.

Cómo Analizar y Comparar sus Precios

La comparación de los precios que usted ha pagado con los precios internacionales es uno de los indicadores más fundamentales para evaluar la eficiencia de la adquisición. Otros indicadores clave de la eficiencia de la adquisición son la precisión del estimado de necesidades, la puntualidad de las entregas y la calidad de los productos adquiridos.

Con la ayuda de esta *Guía*, los funcionarios de las oficinas de adquisiciones pueden comparar los precios que pagan con los precios internacionales de referencia (vea el Formulario de Comparación de Precios, SP-1 y BP-1). La metodología que se describe a continuación presenta una manera de hacer esas comparaciones. Usted tal vez desee visitar la versión electrónica de la *Guía Internacional de Indicadores de Precios de Medicamentos* en el Centro de Recursos Electrónicos en <http://erc.msh.org/priceguide>. Éste contiene sugerencias que le ayudarán a comparar sus precios con los de la *Guía* y a planificar un presupuesto o licitación.

1. Haga una lista de los productos que compra rutinariamente en grandes cantidades, o que representan un gran porcentaje del presupuesto.
2. Por cada producto, anote el tamaño del paquete de venta utilizado y el precio más reciente de este tamaño de paquete. Asegúrese de ver si el precio es CIF (costo, seguro y flete); FOB (franco a bordo, transporte hasta el puerto de salida); EXW (franco en almacén, sin transporte), u otro tipo de precio. Los precios pueden requerir ajustes para que se puedan comparar con exactitud.
3. Dependiendo del tipo de precios que usted esté comparando, seleccione uno de los dos formularios de comparación de precios incluidos en la *Guía*. Los precios de compradores incluyen costos de transporte y posiblemente sean más apropiados si representan una región del mundo y valor de licitación similar a la suya. Los precios del proveedor son FOB y EXW, y se deben ajustar para que reflejen los cargos acostumbrados por embarque, manejo, y seguro apropiados a su situación.
4. En uno de los formularios para la comparación de precios, seleccione el producto en esta *Guía* que corresponda más estrechamente a su producto. Si los precios que está usando localmente son CIF y ha seleccionado el formulario de comparación de comprador, no será necesario hacer ajustes en ninguno de los dos grupos de precios.

Si los precios que está usando localmente son CIF y ha seleccionado la lista de comparación de proveedores, sugerimos ajustar hacia arriba los precios proporcionados en la lista de proveedores a fin de reflejar la diferencia entre los precios CIF y EXW/FOB. Cuando los precios de esta lista sean FOB o EXW, es razonable agregar del 10% al precio de lista en concepto de flete y seguro, dependiendo de la distancia y el modo de transporte. A los precios de esta lista ya se han agregado los porcentajes usuales cobrados por manejo.

Cuando ocurran fluctuaciones considerables en los tipos cambiarios, se deben ajustar los precios para que reflejen esos cambios.

5. Una vez que se hayan ajustado los precios de los paquetes para reflejar los costos de flete, seguro y otros costos adicionales, divida el precio del paquete entre el número de unidades

de comparación contenidas en el paquete de venta (por ejemplo, divida el precio del paquete entre 1000 si el paquete es una botella de 1000 tabletas, o entre 100 si es un frasco de 100 ml). Asegúrese que la unidad de comparación utilizada sea la misma que viene en la lista de la *Guía*. Para su conveniencia, el precio unitario mediano internacional aparece en los dos formularios de comparación de precios.

Debido a que el empaque puede aumentar considerablemente los costos de un producto, es preciso tener cuidado al comparar los precios unitarios entre paquetes diferentes. Por ejemplo, el precio unitario de empaques en tiras suele ser más alto que el precio unitario de tabletas empacadas en una botella de 1000. Los precios de la *Guía* no cubren empaques especiales, excepto cuando se indique.

Un análisis de este tipo incluye muchas hipótesis que afectan a su resultado. Las comparaciones de precios internacionales identifican diferencias extremas en los precios, tanto altas como bajas. Una proporción extremadamente alta entre los precios disponibles localmente y los mostrados en esta *Guía*, puede indicar que hay disponible una fuente menos costosa. Si los precios disponibles localmente son mucho más bajos que los de esta *Guía*, ello podría reflejar una adquisición eficaz, pero también pudiera ser el resultado de un comprometimiento entre el control de calidad, las diferencias en empaques u otros factores que pudieran reducir la calidad del producto. Estas comparaciones solamente son indicadores y debieran considerarse como sugerencias para investigar más exhaustivas.

INDICATEUR DE PRIX INTERNATIONAUX
DES MEDICAMENTS

Préface

L'*Indicateur de Prix Internationaux des Médicaments* est bien ce qu'indique le nom—une indication des prix des médicaments sur le marché international. Ce *Guide* est publié par Management Sciences for Health depuis 1986 et en collaboration avec l'Organisation mondiale de la Santé depuis 2000. Il fournit une gamme de prix des fournisseurs de médicaments à but non lucratif et des agences internationales d'approvisionnement, en fonction de leurs listes de prix ou catalogues actuels. Il comprend également des prix obtenus auprès d'agences de développement international et d'organismes publics.

MSH, conjointement avec l'OMS, collabore avec d'autres partenaires afin de rendre l'information existante sur les prix des médicaments plus disponibles et améliorer ainsi l'achat de médicaments de qualité garantis au prix le plus faible possible. Cela permettra un accès équitable aux services et produits de santé, dont les médicaments essentiels nécessaires, pour la prévention et le traitement de maladies courantes.

Comme le coût potentiel d'offrir toute la gamme des traitements pour des maladies courantes est élevé, les prix et le financement sont des facteurs inévitables pour déterminer les possibilités d'accéder aux médicaments essentiels. Des prix plus faibles peuvent être obtenus grâce à des achats en gros, à la concurrence, aux négociations judicieuses et à une bonne gestion de l'approvisionnement. Une information comparative sur les prix est importante pour obtenir le meilleur prix. En effet, une telle information aide lors des négociations de prix pour trouver de nouvelles sources d'approvisionnement et pour évaluer l'efficacité des systèmes locaux d'approvisionnement.

L'*Indicateur de Prix Internationaux des Médicaments* aide les responsables de l'approvisionnement à déterminer le coût probable des produits pharmaceutiques pour leurs programmes. Il peut être utilisé comme une liste de référence afin de comparer les prix versés et les prix pour des produits disponibles sur le marché international. Il peut également être utilisé pour évaluer les effets financiers possibles liés aux changements dans une liste de médicaments.

La base de données sur les prix est maintenue à jour par le Centre pour la Gestion des Médicaments de Management Sciences for Health, organisation à but non lucratif, dans le but de rendre les médicaments essentiels disponibles pour ceux qui en ont besoin dans le monde entier. Le *Guide* peut être reproduite gratuitement pour des formations en cours d'emploi ou autre utilisation à but non lucratif.

Des informations supplémentaires sur les prix internationaux des médicaments peuvent être trouvées sur le web aux adresses suivantes:

- “Medicines Price Information” (<http://www.who.int/medicines/areas/access/ecofin/en/index.html>), page administrée par l'OMS. Elle comprend des prix de services internationaux d'information sur les prix pour les matières premières, les produits finis et certains médicaments choisis liés au VIH. En outre, elle notifie les prix pour des maladies données et de services d'information sur les prix de pays donnés.

Prière de noter qu'une version électronique de l'*Indicateur de Prix Internationaux des Médicaments* est donnée au Centre de Ressources Electroniques de MSH à <http://erc.msh.org/priceguide>.

Comment Utiliser le *Guide*

Le *Guide* commence par la section « Information que Vous Devriez Connaître » afin de mieux comprendre les données présentées ici. Une liste de fournisseurs et d'acheteurs compris dans la présente édition est donnée par la suite et inclut les détails sur les modalités d'expédition et les restrictions sont indiqués ici. Les adresses sont donnée aussi. Puis, le *Guide* explique le format des rapports sur la comparaison des prix, ainsi que les termes utilisés dans les listes de prix ainsi que les codes et les abréviations.

Les données relatives aux prix sont fournies sous trois formats dans ce *Guide*. Chaque présentation comprend des prix des fournisseurs et des prix des acheteurs. Les prix de l'acheteur sont généralement les prix des appels d'offres internationaux lancés par les organismes publics.

- Liste I: Les médicaments sont en ordre alphabétique, par nom générique et la liste comprend les détails sur les prix pour chaque vendeur et acheteur. Ce format facilite les références pour les achats/approvisionnements et permet une recherche rapide pour un médicament donné.
- Liste II: Les médicaments sont en ordre alphabétique au sein du système de classification de l'Organisation mondiale de la Santé des Listes de Médicaments essentiels. Ce format peut aider, par exemple, à mettre au point des formulaires et permet une comparaison facile des médicaments dans les différentes classes. Les articles d'une classe thérapeutique ne peuvent pas nécessairement se substituer l'un l'autre directement.
- Liste III: Les médicaments sont en ordre alphabétique avec seulement le prix médian pour chaque produit présenté. Ce format est destiné à faciliter la comparaison des prix d'un utilisateur avec les prix du *Guide*. Les prix des fournisseurs et les prix des acheteurs figurent sur des listes séparées.

Pour toute information sur la manière d'utiliser ces prix à des fins de comparaison, prière de se référer à la section intitulée « Comment Analyser et Comparer vos Prix ». Une liste de synonymes et les catégories de classe thérapeutique de l'OMS sont incluses dans les Annexes aux fins de référence.

Ce *Guide* vise uniquement à être un ouvrage de référence comparative. Il ne convient pas à la commande effective de produits. Pour passer des commandes, le vendeur devra être contacté directement. Aucune garantie n'est avancée quant à la disponibilité des prix indiqués dans les listes, sur la qualité des produits ou autres conditions spécifiques se rapportant aux ventes. Les vendeurs indiqués ne constituent pas une liste exhaustive des éventuels fournisseurs. Les prix des acheteurs sont donnés aux seules fins de comparaison.

Information que Vous Devriez Connaître

Produits inclus

L'Indicateur de Prix Internationaux des Médicaments se concentre principalement sur les médicaments essentiels, mais inclut aussi d'autres produits. Les Médicaments de la Liste Essentielle de l'Organisation Mondiale de la Santé (OMS) sont toujours inclus, de même que les médicaments et les produits importants pour le traitement ou la prévention de la tuberculose, le paludisme et le VIH/SIDA. Vaccins, agents immunologiques, désinfectants, solutions et électrolytes intraveineux, tests et agents de diagnostic sont également généralement couverts. De plus en plus, les médicaments nécessaires pour le traitement du cancer et des maladies chroniques, et les teneurs et les formes posologiques nécessaires pour les soins pédiatriques sont ajoutés à la base de données. Les nouveaux produits sont ajoutés au *Guide* chaque année, en fonction des changements qui nous sont communiqués.

Conversion des prix

Les prix du *Guide* sont indiqués en ordre croissant en fonction du prix unitaire. Tous les prix pour les organisations donnés ci-après ont été convertis en dollars américains. Les taux de change utilisés sont ceux du 1 juillet 2014 (<http://www.oanda.com>). D'autres prix du catalogue ont été donnés au départ en dollars américains et n'ont pas été convertis.

Devise (Code d'agence)	Taux de change (en \$ américains)
Cedi ghanéen nouvelle (CHAI)	0.3099
Dollar namibien (NAMIBIA)	0.0942
Euro (IDA, MEDEOR/EU)	1.3687
Livre Soudanaise (SUDANNHIF)	0.1746
Livre sterling (DURBIN)	1.7126
Naira nigérian (CHAI)	0.0061
Pesos de la République Dominicaine (DOMREP)	0.0228
Rand sud-africain (SAFRICA)	0.0942
Roupie indienne (CHAI)	0.0166
Shilling kenyan (MEDS)	0.0112
Shilling tanzanien (MEDEOR/TZ, MEMS)	0.0006
Sol Nouveau Péruvien (PERU)	0.3532

Tout changement des taux de change peut influencer nettement le coût. Le taux le plus actuel au moment de votre analyse devrait toujours être utilisé lorsqu'on calcule les coûts des médicaments.

Termes des prix

Dans ce *Guide*, les prix des fournisseurs et les prix des acheteurs sont basés sur des conditions de prix différentes et ne doit pas être comparé directement. Les Incoterms suivants sont utilisés pour définir les types de prix:

- CIF (coût, assurance, fret): inclut l'assurance et les frais de transport (dédouanement à l'exportation) jusqu'au port de destination (transport maritime seulement)
- CIP (port payé et assuré à): inclut le coût de transport et d'assurance du transporteur au lieu convenu
- DDP (livraison droits payés) : inclut la livraison, les droits d'importation et les frais de déchargement
- DDU (livraison droits non-payés) : inclut la livraison, mais pas les droits d'importation et les frais de déchargement
- EXW (départ usine): n'inclut pas le chargement, l'assurance ou le fret
- FCA (franco transporteur) : le vendeur prend les dispositions nécessaires et paye le transport franco destination dans le pays d'exportation

Certains fournisseurs et agences demandent des frais de manutention standard en plus du coût départ usine ou du coût CIF. Les frais de manutention indiqués à la Liste des Sources de Prix ci-après ont été ajoutés aux prix indiqués dans ce *Guide*.

Calculer les prix

Lorsqu'on calcule et qu'on projette les coûts en termes réels, il est important de tenir compte de facteurs tels que le financement, les délais de livraison, les modes de transport (aérien/maritime/terrestre) et les frais de manutention. Une analyse de ces facteurs n'entre pas dans la portée du présent *Guide*. Toutefois, aux fins d'estimation, l'on peut ajouter 10% pour les coûts de manutention au prix indiqué pour les fournisseurs dans ce *Guide*. Les prix des acheteurs (appels d'offres des organismes publics) indiqués généralement n'ont pas besoin d'être ajustés pour tenir compte des frais d'expédition.

Assurance de la qualité

Nous demandons que tous les fournisseurs compris dans l'*Indicateur de Prix Internationaux des Médicaments* remplissent un questionnaire sur l'assurance de la qualité. Ce questionnaire obligatoire a pour objet d'aider à vérifier que les prix du *Guide* proviennent de fournisseurs de bonne réputation qui disposent de méthodes établies d'assurance de la qualité. Les 28 questions traitent de divers aspects dont l'inspection, les tests, l'assurance de la qualité, les autorisations, les rappels, les procédures de contrôle de la qualité, les normes et la documentation. Certes, cette condition confère une certaine assurance des méthodes de contrôle de la qualité, mais elle ne garantit pas forcément la qualité des produits indiqués dans les listes. Des exemplaires de questionnaires peuvent être obtenus sur demande auprès de Management Sciences for Health.

Les sources des prix comprises dans le *Guide* n'ont été examinées qu'en mesure du caractère complet des documents fournis à cet effet. Un tel dépistage ne constitue nullement une étude approfondie de la qualité du produit. Le fait qu'elles soient incluses au *Guide* ne représente pas une qualification préalable ou une approbation de la part de MSH et de l'OMS.

Qualité des produits

Les fournisseurs et organismes choisis pour ce *Guide* ne sont pas des fabricants, mais ils offrent des produits qui sont conformes aux normes de qualité internationales, telles que spécifiées par des organisations comme la Pharmacopée des Etats-Unis (USP), la Pharmacopée britannique (BP) et la Pharmacopée européenne (EP). Tous les fournisseurs dans ce guide indiquent que les usines de fabrication avec lesquels travaillant maintiennent des normes de haute qualité grâce aux systèmes d'assurance de la qualité qui sont en place pour vérifier que tous les produits sont conformes aux bonnes pratiques de fabrication (BPF) de l'OMS et aux réglementations gouvernementales. Les certificats de qualité, conformes au Schéma de Certification de l'OMS sur la Qualité des Produits pharmaceutiques circulant dans le Commerce international, devraient être disponibles sur demande de la part de tous les fournisseurs. Les fournisseurs et les agences dans ce *Guide* disposent de leurs propres programmes indépendants d'assurance de la qualité. Prière de les contacter directement pour de plus amples détails.

Le système ATC/DDD¹

Les données sur l'utilisation de médicaments revêtent une importance capitale dans le cycle de la qualité des soins et sont essentielles pour gérer les politiques relatives à l'approvisionnement, à la fixation des prix, au coût et à l'utilisation des médicaments. Les méthodologies du système de classification anatomique-thérapeutique-chimique (ATC) et de dose journalière définie (defined daily dose - DDD) sont utiles pour suivre et comparer les tendances au niveau des coûts, mais doivent être utilisées avec circonspection. En effet, on utilise mal le système si l'on fonde des décisions détaillées de remboursement, de référence de groupe thérapeutique et autres décisions spécifiques concernant les prix sur les systèmes ATC et DDD.

Le but du système ATC/DDD est de servir d'outil pour la recherche sur l'utilisation des médicaments aux fins d'améliorer la qualité de l'utilisation des médicaments. Une composante de ce système concerne la présentation et la comparaison de statistiques sur la consommation des médicaments, aux niveaux international et autres.

Le Centre collaborateur de l'OMS pour la Méthodologie des Statistiques des Médicaments et le Groupe de Travail de l'OMS cherchent à maintenir des codes ATC et DDD stables, dans le temps, afin de pouvoir étudier les tendances au niveau de la consommation des médicaments sans la complication de changements fréquents portés au système. En effet, on hésite beaucoup à changer les classifications ou les DDD quand de tels changements sont demandés pour des raisons qui ne sont pas reliées directement aux études sur la consommation des médicaments. C'est la raison pour laquelle le système ATC/DDD en lui-même ne convient pas pour éclairer les décisions sur les remboursements, la fixation de prix et la substitution thérapeutique.

La classification d'une substance dans le système ATC/DDD n'est pas une recommandation d'utilisation et n'implique aucun jugement sur l'efficacité ou l'efficacité relative des médicaments et groupes de médicaments.

¹Le texte dans cette section provient du site web du Centre collaborateur de l'OMS pour la Méthodologie des Statistiques des Médicaments à <http://www.whocc.no/atcddd/>.

Liste des Sources des Prix

Trois types essentiels de fournisseurs et d'acheteurs sont compris dans le *Guide*.

1. Les **fournisseurs** qui maintiennent un dépôt et approvisionnent directement en produits les clients. Tous ces fournisseurs comptent une gamme plus vaste de produits que celle indiquée dans ce *Guide*. Pour une liste complète des produits, prière de contacter directement le vendeur. Les fournisseurs suivants sont compris dans le *Guide*:

Fournisseur	Code	Date de la liste	Frais de manutention	Type de prix	Détails
Action Medeor	MEDEOR/ EU	septembre 2014	1%	Départ usine Tönisvorst	Les prix sont en vigueur jusqu'à la publication de la liste de prix revue. Les frais de transport sont facturés individuellement selon les dépenses. Pour un emballage spécial (caisses en bois), ils prélèvent 26 euros par caisse. Il y a un droit de manutention minimum de 50 euros. Elle fournit des produits seulement au marché non lucratif.
Action Medeor International Healthcare	MEDEOR/ TZ	septembre 2014	0%	Départ usine	Action Medeor International Healthcare est une agence d'approvisionnement à but non lucratif fondée en 2004 et qui appartient à Action Medeor. Elle fournit des produits au marché non lucratif (principalement en Tanzanie) et n'approvisionne pas les individus ou les pharmacies commerciales. Des frais administratifs de 3.5 % s'appliquent à tous les clients non-Tanzaniens pour couvrir les frais bancaires et les pertes en devises. Aucune quantité minimale n'est exigée.
Amstelfarma	AMSTEL- FARM	janvier 2015	0%	Départ usine Lelystad, The Netherlands	Les prix d'Amstelfarma sont donnés uniquement comme indication. Il n'y a pas de quantités de commande minimales ni de frais de service.
ASRAMES	ASRAMES	août 2014	0%	DDP ou CIP Kinshasa	ASRAMES fournit ses services uniquement aux aux organisations de la RDC qui ont été reconnus par le ministère de la Santé comme une institution de santé ou une ONG travaillant dans le secteur de la santé.
Durbin PLC	DURBIN	2013-2014	0%	Départ usine United Kingdom	Durbin fournit des produits pharmaceutiques et des fournitures médicales aux médecins, pharmacies, hôpitaux, grossistes et détaillants en produits pharmaceutiques, organismes militaires et gouvernementaux, oeuvres de charité et autres organisations de secours internationales dans tout le monde. Une commande minimale de RU £100 est exigée.

Fournisseur	Code	Date de la liste	Frais de manutention	Type de prix	Détails
IDA Foundation	IDA	novembre 2014	1,5%	Départ usine Amsterdam	Organisation à but non lucratif apportant un soutien aux soins de santé dans des pays à revenus faibles et moyens, la Fondation IDA vise à améliorer l'accès aux médicaments essentiels et fournitures médicales. IDA est une fondation indépendante distribuant plus de 3000 produits dans 100 pays du monde entier. Pour les commandes de moins de 5 000 Euros, des frais de manutention de 3 % sont demandés. Pour les commandes plus de 5 000 Euros, des frais de manutention de 1,5 % sont demandés. Une commande minimale de 1500 Euros est exigée. Les prix sont donnés à titre indicatif et peuvent changer.
IMRES	IMRES	janvier 2015	0%	FCA Lelystad, The Netherlands	La quantité minimale pour passer une commande est de 1250\$ US.
Medical Export Group	MEG	novembre 2014	0%	FCA Gorinchem, The Netherlands	Les prix sont donnés uniquement comme indication. Il n'y a pas de quantités de commande minimales ni de frais de service.
Medical Stores Department, Tanzania	MSD/TANZ	2014-2015	0%	Départ usine	Les prix de vente de MSD sont valables pour tous les établissements de santé gouvernementales, les ONG approuvés, hôpitaux missionnaires, des hôpitaux de bienfaisance et d'autres fournisseurs de soins de santé en Tanzanie, avec l'approbation du ministère de la Santé et de la protection sociale. Les entreprises / organisations parapubliques vont payer 10% au-dessus de ces prix de vente.
Mission for Essential Drugs and Supplies	MEDS	juillet 2014	0%	FOB Nairobi	La Mission de Médicaments essentiels et Fournitures médicales (MEDS) fournit les produits pharmaceutiques et fournitures médicales aux prestataires de soins de santé à but non lucratif. Frais de transport se fait payer pour les livraisons en dehors du Kenya.

2. Les **organismes de développement international** qui fournissent des produits aux programmes de divers pays auxquels eux-mêmes ou d'autres apportent un soutien. Les organismes qui figurent dans ce *Guide* sont les suivantes:

Organisme de développement international	Code	Date de la liste	Frais de manutention	Type de prix	Détails
Mécanisme global pour les médicaments contre la tuberculose (Global TB Drug Facility)	GDF	2014	0%	Départ usine, l'usine de fournisseur	<p>Les médicaments sont reçus gratuitement, sous forme de dons, mais ils sont également disponibles aux fins d'achat par des gouvernements et des organisations qui souhaitent profiter de la qualité, des prix et d'une assistance technique/soutien à la gestion des médicaments fournie par l'entremise du Service d'achat direct du GDF. GDF réalise des tests indépendants obligatoires sur chaque lot de médicaments qu'elle procure ainsi que la pré-inspection de chaque commande qu'elle délivre pour s'assurer de la haute qualité des produits. En plus du coût des médicaments, les charges pour le contrôle de qualité sont payées par le client (ou bien payées par GDF en cas de don).</p> <p>Pour faciliter la livraison efficace des produits, GDF utilise des agents transitaires. Des frais supplémentaires pour les services des agents transitaires sont aussi ajoutés au coût de la commande, qui inclut donc le coût des médicaments, les charges pour le contrôle de la qualité, et le fret. GDF envoie dans le pays une équipe d'experts en TB et en gestion de médicaments 4 mois après que les médicaments sont délivrés pour évaluer leur utilisation et fournir l'assistance technique nécessaire. GDF ne charge pas de frais pour l'assistance technique qu'elle fournit. Le GDF est un mécanisme visant à élargir l'accès aux médicaments antituberculeuse de haute qualité, ainsi que la disponibilité de ces médicaments, pour faciliter l'expansion à échelle mondiale de la stratégie de traitement sous surveillance directe (DOTS), la stratégie recommandée internationalement pour lutter contre la tuberculose.</p>
Supply Chain Management System (projet)	SCMS	octobre 2014	5%	Départ usine (des Centres de distribution régionaux SCMS ou directement du fournisseur)	<p>Le projet Système de Gestion de la Chaîne d'Approvisionnement (SCMS) délivre des médicaments de première nécessité aux programmes VIH/SIDA dans le monde. Le projet aide à renforcer les chaînes d'approvisionnement existantes ou établit de nouvelles chaînes pour assurer un système d'approvisionnement sûr, sans danger, fiable et pérenne pour l'approvisionnement en médicaments et autres produits pharmaceutiques nécessaires à la prise en charge du VIH/SIDA et aux infections associées. SCMS est financé par le gouvernement des États-Unis comme une partie du Plan Présidentiel d'Urgence pour la Lutte contre le SIDA (PEPFAR). Le projet SCMS peut se développer n'importe où dans le monde, mais a été initialement concentré dans les 15 pays du PEPFAR. En plus d'appuyer tout projet ou autre partenaire du PEPFAR, SCMS peut aussi approvisionner les projets financés par les gouvernements nationaux ou autres bailleurs, sous couvert d'accords individuels spécifiques.</p>

Organisme de développement international	Code	Date de la liste	Frais de manutention	Type de prix	Détails
Fonds des Nations Unies pour la Population (FNUAP)	UNFPA	septembre 2014	5%	FOB	Le Fonds des Nations Unies pour la Population lance des appels d'offres pour l'achat de produits pour ses bureaux de terrain et pour le compte de clients dans plus de 168 pays, surtout dans le monde en développement. L'UNFPA ne travaille qu'avec des gouvernements et des organisations à but non lucratif. UNFPA demande des frais administratifs de 5% aux non-acheteurs de l'UNFPA. Il ya une exigence d'ordre minimum de 5000 \$EU par unité. Les prix sont donnés à titre indicatif et peuvent changer.

3. Les **acheteurs** (généralement organismes du secteur public) qui obtiennent des produits par l'intermédiaire d'appels d'offres internationaux. Ce sont des prix effectifs obtenus par les organisations indiquées et qui sont inclus aux fins de comparaison. Le lecteur ne peut pas passer une commande auprès de l'une de ces organisations.

Acheteur	Code	Date de la liste	Type de prix	Valeur approx. de l'appel d'offre (\$ américains)	Détails
Botswana Public Procurement and Asset Disposal Board	BOTSWANA	janvier 2014	P/D	P/D	The Public Procurement and Asset Disposal Board of Botswana conduit des appels d'offres internationales et intérieurs et ouvertes et fermées de façon régulière.
Caja Costarricense de Seguro Social	CRSS	2014	DDU	126 million	La Sécurité Sociale du Costa Rica lance un appel d'offre international, annuel et ouvert, et négocie des contrats pour des médicaments et des fournitures médicales pour ses propres établissements.
Clinton Health Access Initiative	CHAI	2014	DDP, EXW, ou FOB	P/D	La Clinton Health Access Initiative a contribué informations sur les prix de plusieurs partenaires qui travaillent ensemble pour étendre le traitement de la diarrhée.
Democratic Republic of Congo Integrated Health Program (IHP)	DRC/IHP	mai 2014	FCA	3,8 million	La République démocratique du Congo Projet intégré de santé (DRC/IHP) lance un appel d'offre international, fermé, et annuel pour des médicaments et fournitures médicales.
República Dominicana Central de Apoyo Logístico Programa de Medicamentos Esenciales (PROMESE/CAL)	DOMREPUB	octobre 2014	P/D	69 million	Le Centre de soutien logistique pour le Programme de médicaments essentiels de la République Dominicaine (PROMESE/CAL) lance un appel d'offre intérieur et ouvert pour des produits pharmaceutiques et fournitures médicales deux fois par an.
Mission for Essential Medical Supplies (MEMS), Tanzania	MEMS	juillet 2014	P/D	0,3 million	Après un processus ouvert de préqualification et un appel d'offres fermé, MEMS a donné un contrat annuel pour l'approvisionnement de médicaments et fournitures médicales à un vendeur premier.

Acheteur	Code	Date de la liste	Type de prix	Valeur approx. de l'appel d'offre (\$ américains)	Détails
Namibia Central Medical Stores	NAMIBIA	août 2014	DDP	24 million	Le dépôt central de Namibia lance un appel d'offre international et ouvert tous les deux ans pour des produits pharmaceutiques et fournitures médicales et chaque année pour les antirétroviraux.
Organisation of Eastern Caribbean States Pharmaceutical Procurement Service (OECS/PPS), St. Lucia	OECS/PPS	1 mars 2014 - 31 août 2015	CIF	P/D	Le Service d'Approvisionnement pharmaceutique de l'Organisation des Etats de la Carabe de l'Est (OECS/PPS) fournit ses services uniquement aux pays membres de l'Organisation des Etats de la Carabe de l'Est. Pour ses neuf pays, le Service d'approvisionnement en produits pharmaceutiques de l'Organisation des Pays de la Carabe de l'Est (OECS) négocie et achète par le moyen d'un appel d'offre international et fermé chaque 18 mois.
Perú Ministerio de Salud	PERU	fevrier et abril 2014	DDP	197 million	Le Ministère de la Santé de Pérou lance un appel d'offre intérieur, annuel et ouvert pour des produits pharmaceutiques et fournitures médicales.
El Sistema de Integración Centroamericana (SICA)	SICA	août 2014	CIF	4,2 million	Le Système d'intégration d'Amérique centrale (SICA) lance un appel d'offre annuel, international et fermé pour certains produits pharmaceutiques.
South Africa Department of Health	SAFRICA	2014	DDP	P/D	Le Département de la Santé d'Afrique du Sud lance les appels d'offre intérieurs et ouverts pour des produits pharmaceutiques et fournitures médicales tous les deux ans.
Sudan National Health Insurance Fund	SUDAN-NHIF	juin 2014	DDP	16,8 million	Le Caisse nationale d'assurance-maladie du Soudan lance les appels d'offre intérieurs, annuels et ouverts pour des produits pharmaceutiques et fournitures médicales.

Format des Listes de Prix

Les produits pharmaceutiques sont présentés dans trois listes séparées, avec des caractéristiques et des formats différents, mais certains éléments sont les mêmes pour tout.

- Liste I : Produits pharmaceutiques classés par ordre alphabétique
- Liste II : Produits pharmaceutiques classés par classe thérapeutique
- Liste III : Formulaire pour la comparaison des prix

Une description détaillée de l'information incluse dans chaque liste suit ci-après.

Liste I - Produits pharmaceutiques classés par ordre alphabétique

La Liste I est une référence pour les achats et elle présente les médicaments en ordre alphabétique par nom générique pour permettre une recherche rapide concernant un médicament particulier. La liste indique la taille du conditionnement disponible de chaque organisation et le prix de chaque conditionnement en dollars américains, y compris les frais standard de service, le cas échéant.

Description du produit

La description du produit comprend le nom générique, l'efficacité, la présentation et la voie d'administration. Si le produit a deux noms très utilisés (par exemple, vitamine C et acide ascorbique), un nom apparaîtra entre crochets. Voir la Liste des Synonymes dans l'Annexe.

IC

Les produits sous contrôle international (narcotiques) sont identifiés avec (IC) à côté de la description.

Nomenclature

La dénomination internationale est utilisée comme la liste des médicaments dans ce *Guide*. Si elle n'a pas été donnée, c'est le nom générique le plus courant qui est utilisé. Les présentations des médicaments indiqués sont généralement celles incluses dans la 19e liste modèle OMS des médicaments essentiels (revue en avril 2015), indiquée à <http://www.who.int/medicines>.

Voie d'administration

Les voies d'administration sont codées de la manière suivante:

Type	Code
Bandes de diagnostic	DIAG
Comprimés/dragées/liquides oraux	PO
Comprimés sublinguaux	SL
Dispositif intra-utérin (Stérilet)	IUD
Inhalation	INH
Médicaments injectables	INJ
Médicaments sous-cutanés	S/C
Préparations auriculaires	OTIC
Préparations nasales et pour la gorge	N/T
Préparations ophtalmiques	OPHT
Préparations vaginales	VAG
Préservatifs (Condoms)	COND
Produits dermatologiques (liquides, poudres, crèmes et pommades)	TOP
Solutés intraveineux	IV
Suppositoires/lavement/pommade rectale	RECT
Pas applicable	N/A

Source

La liste des sources des prix se trouve à la page F-9.

Conditionnement

Les tailles du conditionnement sont données par les fournisseurs et les acheteurs.

Prix du conditionnement (\$ américains)

Les prix du conditionnement sont donnés par les fournisseurs et les acheteurs et ont été convertis en dollars américains aux taux de change indiqués à la page F-6 pour faciliter la comparaison. Si un fournisseur demande un pourcentage donné de frais de manutention, le pourcentage a été ajouté au prix du conditionnement.

Prix unitaire (\$ américains)

Le prix unitaire est calculé en divisant le prix du conditionnement par la taille du conditionnement. Cette présentation facilite la comparaison de prix entre les différentes tailles de produits des vendeurs. L'unité utilisée pour comparer les prix varie en fonction de la forme pharmaceutique, telle qu'indiquée ci-après:

Forme pharmaceutique

Ampoule ou flacon
Cartouche
Comprimé/dragée
Condom, DIU, Mosquitaire, Test
Dermatologique solide
Dermatologique liquide
Flacon (dosage unique)
Gaz
Granules
Inhalateur
Lavement
Paquet
Pessaire
Préparation ORL
Seringue
Suspension ou forme orale liquide
Suppositoire
Traitement
Vaccin

Traitement (TREATMEN)
Dose (DOSE)

Dose journalière définie (DDD)

La DDD est la dose de maintien moyenne assumée par jour pour un médicament utilisé pour sa principale indication chez les adultes. Il faut souligner que la dose journalière définie est une

unité de mesure et ne reflète pas forcément la dose journalière recommandée ou prescrite. Les doses pour les patients pris individuellement et les groupes de patients sont souvent différentes de la DDD et devront forcément être définies en fonction des caractéristiques individuelles (par exemple, âge et poids) et des considérations pharmacocinétiques.

Les données sur la consommation de médicaments présentées dans les DDD n'indiquent qu'une estimation approximative de la consommation et ne sont pas une indication exacte de l'utilisation effective. Les DDD fournissent une unité fixe de mesure indépendante du prix et de la formulation, permettant ainsi aux chercheurs d'évaluer les tendances au niveau de la consommation de médicaments et de faire des comparaisons entre les groupes de population.

Les doses journalières définies sont tirées du Centre collaborateur de l'OMS pour la Méthodologie des Statistiques des Médicaments. Il s'agit de doses journalières définies, telles que recommandées par le Groupe de Recherche de l'Utilisation des Médicaments (DURG) de l'OMS. Les médicaments indiqués dans ce *Guide* de comparaison des prix n'ont pas tous des doses journalières définies assignées par cette méthode. Une DDD ne sera assignée qu'aux médicaments qui ont déjà un code de classification anatomique-thérapeutique-chimique.

La DDD sert essentiellement à estimer la consommation de médicaments en fonction des données sur l'inventaire/distribution. Cette estimation peut être combiné à l'information sur les prix aux fins de budgétisation.

Note: La dose journalière définie ne devrait pas être utilisée pour le dosage ou les indications thérapeutiques. Prière de consulter la posologie conseillée pour chaque indication.

LME de l'OMS

La colonne intitulée « WHO EML » indique si le produit fait partie de la Liste Modèle OMS de Médicaments essentiels de 2015. Nous avons identifié cinq catégories dans l'*Indicateur de Prix Internationaux des Médicaments*.

- E = Appartient à la liste principale de l'OMS avec la même présentation et la même efficacité/teneur
- C = Appartient à la liste complémentaire de l'OMS avec la même présentation et la même efficacité/teneur
- P = Appartient à la liste de l'OMS, mais sous une présentation différente (forme et/ou teneur différente)
- T = Ne figure pas sur la liste de l'OMS, mais est un produit de remplacement pour produit indiqué comme exemple d'un groupe thérapeutique
- N = N'appartient pas à la liste modèle de l'OMS

Code ATC

Le code ATC est le code de classification anatomique-thérapeutique-chimique assigné par le Centre collaborateur de l'OMS pour la Méthodologie des Statistiques des Médicaments. Le système ATC/DDD sert d'outil pour la recherche en matière d'utilisation de médicaments afin d'améliorer la qualité de l'utilisation des médicaments. Une des composantes de ce système concerne la présentation et la comparaison de statistiques sur la consommation de médicaments aux niveaux international et autres.

Dans le système de classification ATC, les médicaments sont divisés en différents groupes selon l'organe ou le système sur lequel ils agissent et en fonction de leurs propriétés chimiques, pharmacologiques et thérapeutiques. Les médicaments sont classés en groupes à cinq niveaux différents. Les médicaments sont divisés en 14 groupes essentiels (1er niveau) avec un sous-groupe pharmacologique/thérapeutique (2e niveau). Les 3e et 4e niveaux sont les sous-groupes chimiques/pharmacologiques/thérapeutiques et le 5e niveau est la substance chimique.²

Prix médian

Un prix moyen peut être utile lorsqu'on utilise le *Guide* pour comparer avec des prix locaux ou pour estimer la valeur totale d'une liste d'achat proposée. En fait, il existe deux types de prix moyens qui peuvent être utilisés—le prix moyen et le prix médian. Le prix moyen est la simple moyenne de tous les prix indiqués pour un médicament; les valeurs sont ajoutées et divisées par le nombre de valeurs.

Toutefois, les choses sont plus difficiles lorsqu'un ou deux prix sont plus élevés ou plus faibles que le reste pour un médicament donné. Ce prix moyen sera « faussé », ce qui le rend moins représentatif. Par exemple, dans une série de sept valeurs, telle que \$1, \$2, \$2, \$3, \$5, \$16, \$20, le total de toutes les valeurs est de \$49 et, quand on divise cette valeur par sept, on obtient un prix moyen égal à \$7. Aux fins de comparaison ou d'estimation, il est probable que cette moyenne est trop élevée à cause des deux prix qui sont bien plus élevés que les autres dans la série. Pour éviter ce risque, nous utilisons le prix médian.

Le prix médian est un type de prix moyen. C'est la valeur qui sépare au milieu une série de valeurs quand la série est mise en ordre croissant. Ceci serait probablement une approche plus valable pour estimer les prix futurs réels (ou pour comparer avec les prix locaux) lorsque la distribution n'est pas directe.

S'il existe un nombre impair de valeurs dans cette série, comme dans l'exemple ci-dessus, la valeur médiane est la valeur du milieu de la série (\$3 dans notre exemple). Dans le cas d'un nombre pair de valeurs dans une série, tel que \$1, \$3, \$4, \$6, \$14, \$20, la valeur médiane est calculée en faisant la moyenne de la somme des deux valeurs du milieu de la série. Dans cet exemple, la médiane est la moyenne de \$4 et de \$6, à savoir \$5. Là aussi, c'est probablement plus proche de la réalité aux fins de comparaison ou d'estimation que la moyenne arithmétique de \$8 (\$48 divisé par 6).³

Ratio élevé/faible

Le ratio élevé/faible (« high/low ») compare le prix unitaire le plus élevé avec le prix unitaire le plus faible. Par exemple, un ratio élevé/faible de 3 signifie que le prix unitaire le plus élevé est trois fois supérieur au prix unitaire le plus faible.

²Pris du site web du Centre collaborateur de l'OMS pour la Méthodologie des Statistiques des Médicaments à <http://www.whocc.no/atcddd/>.

Liste II - Produits pharmaceutiques classés par classe thérapeutique

Pour Liste II, les produits pharmaceutiques sont classés par ordre alphabétique au sein de chaque classe thérapeutique, en fonction du système de classification de la Liste des Médicaments essentiels de l'OMS. Pour les produits qui ne figurent pas sur la liste des médicaments essentiels de l'OMS (c'est-à-dire les produits désignés par la lettre N dans la colonne « WHO EML » de ce guide), nous avons attribué une classe thérapeutique basée sur le système de classification des médicaments de l'OMS. Cette classe est utilisée lorsqu'un produit non LME appartient clairement à une catégorie thérapeutique LME, tel que déterminé par le personnel de MSH.

Cette attribution ne reflète pas une décision prise par le Département l'OMS de médicaments essentiels et politiques pharmaceutiques, ou par les membres de MSH selon laquelle le produit non LME convient pour être inscrit sur la liste modèle des médicaments essentiels de l'OMS. Si l'attribution d'une catégorie thérapeutique LME ne peut se faire sans ambiguïté, nous plaçons le produit dans la catégorie « UA - agents non classés sur la liste LME de l'OMS ».

Les articles d'une classe thérapeutique ne peuvent pas nécessairement se substituer l'un l'autre directement. Tous les prix de cette liste sont des prix unitaires. Pour chaque produit de cette liste, les données suivantes sont indiquées:

Description du produit

La description du produit comprend le nom générique, l'efficacité, le dosage et la voie d'administration. Si le produit a deux noms très utilisés (par exemple, vitamine C et acide ascorbique), un nom apparaîtra entre crochets. Voir la Liste des Synonymes dans l'Annexe.

IC

Les produits sous contrôle international (narcotiques) sont identifiés avec (IC) à côté de la description.

Nomenclature

La dénomination internationale est utilisée comme la liste des médicaments dans ce *Guide*. Si elle n'a pas été donnée, c'est le nom générique le plus courant qui est utilisé. Les présentations des médicaments indiqués sont généralement celles incluses dans la 19e Liste modèle OMS des médicaments essentiels (revue en avril 2015), indiquée à <http://www.who.int/medicines>.

Voie d'administration

Les voies d'administration sont codées de la manière suivante:

Pas applicable	N/A

LME de l'OMS

La colonne intitulée « WHO EML » indique si le produit fait partie de la Liste Modèle OMS de Médicaments essentiels de 2015. Nous avons identifié cinq catégories dans l'*Indicateur de Prix Internationaux des Médicaments*.

- E = Appartient à la liste principale de l'OMS avec la même présentation et la même efficacité/teneur
- C = Appartient à la liste complémentaire de l'OMS avec la même présentation et la même efficacité/teneur
- P = Appartient à la liste de l'OMS, mais sous une présentation différente (forme et/ou teneur différente)
- T = Ne figure pas sur la liste de l'OMS, mais est un produit de remplacement pour produit indiqué comme exemple d'un groupe thérapeutique
- N = N'appartient pas à la liste modèle de l'OMS

Nombre de fournisseurs/acheteurs

Le nombre de fournisseurs ou d'acheteurs offrant ce produit.

Prix médian

Un prix moyen peut être utile lorsqu'on utilise le *Guide* pour comparer avec des prix locaux ou pour estimer la valeur totale d'une liste d'achat proposée. En fait, il existe deux types de prix moyens qui peuvent être utilisés—le prix moyen et le prix médian. Le prix moyen est la simple moyenne de tous les prix indiqués pour un médicament; les valeurs sont ajoutées et divisées par le nombre de valeurs.

Toutefois, les choses sont plus difficiles lorsqu'un ou deux prix sont plus élevés ou plus faibles que le reste pour un médicament donné. Ce prix moyen sera « faussé », ce qui le rend moins représentatif. Par exemple, dans une série de sept valeurs, telle que \$1, \$2, \$2, \$3, \$5, \$16, \$20, le

total de toutes les valeurs est de \$49 et, quand on divise cette valeur par sept, on obtient un prix moyen égal à \$7. Aux fins de comparaison ou d'estimation, il est probable que cette moyenne est trop élevée à cause des deux prix qui sont bien plus élevés que les autres dans la série. Pour éviter ce risque, nous utilisons le prix médian.

Le prix médian est un type de prix moyen. C'est la valeur qui sépare au milieu une série de valeurs quand la série est mise en ordre croissant. Ceci serait probablement une approche plus valable pour estimer les prix futurs réels (ou pour comparer avec les prix locaux) lorsque la distribution n'est pas directe.

S'il existe un nombre impair de valeurs dans cette série, comme dans l'exemple ci-dessus, la valeur médiane est la valeur du milieu de la série (\$3 dans notre exemple). Dans le cas d'un nombre pair de valeurs dans une série, tel que \$1, \$3, \$4, \$6, \$14, \$20, la valeur médiane est calculée en faisant la moyenne de la somme des deux valeurs du milieu de la série. Dans cet exemple, la médiane est la moyenne de \$4 et de \$6, à savoir \$5. Là aussi, c'est probablement plus proche de la réalité aux fins de comparaison ou d'estimation que la moyenne arithmétique de \$8 (\$48 divisé par 6).⁴

Prix le plus élevé

Le prix le plus élevé parmi les fournisseurs et les acheteurs de ce produit.

Prix le plus faible

Le prix le plus faible parmi les fournisseurs et les acheteurs de ce produit.

Ratio élevé/faible

Le ratio élevé/faible (« high/low ») compare le prix unitaire le plus élevé avec le prix unitaire le plus faible. Par exemple, un ratio élevé/faible de 3 signifie que le prix unitaire le plus élevé est trois fois supérieur au prix unitaire le plus faible.

Dose journalière définie (DDD)

La DDD est la dose de maintien moyenne assumée par jour pour un médicament utilisé pour sa principale indication chez les adultes.

Il faut souligner que la dose journalière définie est une unité de mesure et ne reflète pas forcément la dose journalière recommandée ou prescrite. Les doses pour les patients pris individuellement et les groupes de patients sont souvent différentes de la DDD et devront forcément être définies en fonction des caractéristiques individuelles (par exemple, âge et poids) et des conditions pharmacocinétiques.

Les données sur la consommation de médicaments présentées dans les DDD n'indiquent qu'une estimation approximative de la consommation et ne sont pas une indication exacte de

⁴Pour de plus amples détails, voir *Statistics Without Tears—A Primer for Non-Mathematicians*, par Derek Rowntree (New York: Charles Scribner's Sons, 1981), pp. 41–45.

l'utilisation effective. Les DDD fournissent une unité fixe de mesure indépendante du prix et de la formulation, permettant ainsi aux chercheurs d'évaluer les tendances au niveau de la consommation de médicaments et de faire des comparaisons entre les groupes de population.

Les doses journalières définies sont tirées du Centre collaborateur de l'OMS pour la Méthodologie des Statistiques des Médicaments. Il s'agit de doses journalières définies, telles que recommandées par le Groupe de Recherche de l'Utilisation des Médicaments (DURG) de l'OMS. Les médicaments indiqués dans ce guide de comparaison des prix n'ont pas tous des doses journalières définies, assignées par cette méthode. Une DDD ne sera assignée qu'aux médicaments qui ont déjà un code ATC.

La DDD sert essentiellement à estimer la consommation de médicaments en fonction des données sur l'inventaire/distribution. Cette estimation peut être combiné à l'information sur les prix aux fins de budgétisation.

Note: La dose journalière définie ne devrait pas être utilisée pour le dosage ou les indications thérapeutiques. Prière de consulter la posologie conseillée pour chaque indication.

Liste III - Formulaire pour la Comparaison des Prix

Le but de cette liste est d'aider l'utilisateur à comparer ses prix aux prix du *Guide*. Seul le prix médian est affiché ici et une brève description du produit est utilisée.

Description du produit

La description du produit comprend le nom générique, l'efficacité, le dosage et la voie d'administration. Si le produit a deux noms très utilisés (par exemple, vitamine C et acide ascorbique), un nom apparaîtra entre crochets. Voir la Liste des Synonymes dans l'Annexe.

IC

Les produits sous contrôle international (narcotiques) sont identifiés avec (IC) à côté de la description.

Nomenclature

La dénomination internationale est utilisée comme la liste des médicaments dans ce *Guide*. Si elle n'a pas été donnée, c'est le nom générique le plus courant qui est utilisé. Les présentations des médicaments indiqués sont généralement celles incluses dans la 19e liste modèle OMS des médicaments essentiels (revue en avril 2015), indiquée à <http://www.who.int/medicines>.

LME de l'OMS

La colonne intitulée « WHO EML » indique si le produit fait partie de la Liste Modèle OMS de Médicaments essentiels de 2015. Nous avons identifié cinq catégories dans *l'Indicateur de Prix Internationaux des Médicaments*:

- E = Appartient à la liste principale de l'OMS avec la même présentation et la même efficacité/teneur
- C = Appartient à la liste complémentaire de l'OMS avec la même présentation et la même efficacité/teneur
- P = Appartient à la liste de l'OMS, mais sous une présentation différente (forme et/ou teneur différente)
- T = Ne figure sur la liste de l'OMS, mais est un produit de remplacement pour produit indiqué comme exemple d'un groupe thérapeutique
- N = N'appartient pas à la liste modèle de l'OMS

Taille du conditionnement

L'espace en blanc ici permet à l'utilisateur d'indiquer la taille du conditionnement pour son achat.

Prix du conditionnement

L'espace en blanc ici permet à l'utilisateur d'indiquer le prix pour le conditionnement de l'achat indiqué dans l'espace précédent.

Prix unitaire

L'utilisateur devrait calculer son prix unitaire en divisant le prix du conditionnement par la taille du conditionnement. L'unité de comparaison utilisée dans ce *Guide* est indiquée pour chaque produit pour vérifier que les prix sont comparés sur une base équivalente.

Prix unitaire médian du fournisseur/acheteur (\$ américains)

Le prix unitaire est calculé en divisant le prix du conditionnement par la taille du conditionnement. Cette présentation facilite la comparaison de prix entre les différentes tailles de produits des vendeurs. L'unité utilisée pour comparer les prix varie en fonction de la forme pharmaceutique, telle qu'indiquée ci-après:

Forme pharmaceutique

Ampoule ou flacon
Cartouche
Comprimé/dragée
Condom, DIU, Mosquitaire, Test
Dermatologique solide
Dermatologique liquide

Le prix médian est un type de prix moyen. C'est la valeur qui sépare au milieu une série de valeurs quand la série est mise en ordre croissant. S'il existe un nombre impair de valeurs dans une série, comme dans une série de sept valeurs \$1, \$2, \$2, \$3, \$5, \$16, \$20, la valeur médiane est la valeur du milieu de la série. Ceci serait probablement une approche plus valable pour estimer les prix futurs réels (ou pour comparer avec les prix locaux) lorsque la distribution n'est pas directe.

Dans le cas d'un nombre pair de valeurs dans une série, tel que \$1, \$3, \$4, \$6, \$14, \$20, la valeur médiane est calculée en faisant la moyenne de la somme des deux valeurs du milieu de la série. Dans cet exemple, la médiane est la moyenne de \$4 et de \$6, à savoir \$5. Là aussi, c'est probablement plus proche de la réalité aux fins de comparaison ou d'estimation que la moyenne arithmétique de \$8 (\$48 divisé par 6).⁵

⁵Pour de plus amples détails, voir *Statistics Without Tears—A Primer for Non-Mathematicians*, par Derek Rowntree (New York: Charles Scribner's Sons, 1981), pp. 41–45

Comment Analyser et Comparer vos Prix

La comparaison des prix que vous avez payés avec les prix sur le marché international est un critère essentiel pour évaluer l'efficacité de votre système d'approvisionnement. L'exactitude de l'estimation des besoins, le caractère ponctuel des livraisons et la qualité des produits achetés sont d'autres indicateurs clés de l'efficacité de l'approvisionnement.

Avec l'aide de ce *Guide*, le personnel chargé des achats peut comparer les prix qu'il paye avec les prix de référence internationaux (se rapporter au Formulaire pour la Comparaison des Prix, SP-1 et BP-1). La méthode ci-après présente une approche pour faire de telles comparaisons. Vous pouvez consulter la version électronique de l'*Indicateur de Prix Internationaux des Médicaments* au Centre de Ressources électroniques à <http://erc.msh.org/priceguide>. Cette version vous aide à comparer vos prix avec ceux du *Guide* à planifier un budget ou un appel d'offres.

1. Faire une liste des produits que vous achetez régulièrement en volumes importants ou qui représentent un pourcentage élevé du budget.
2. Pour chaque produit, indiquer la taille du conditionnement du vendeur qui est utilisé et le prix le plus récent pour cette taille du produit. Ne pas oublier de noter si le prix est CIF (coût, assurance et fret); FOB (franco à bord—transport au port de départ); départ usine (pas de transport) ou autre type de prix. Les prix devront peut-être être ajustés pour être comparés avec exactitude.
3. Choisir un des deux formulaires de comparaison des prix compris dans le *Guide*, en fonction du type de prix que vous comparez. Les prix d'acheteurs incluent le transport et conviendront mieux s'ils représentent une région du monde (et valeur d'appel d'offre) semblable à la vôtre. Les prix des fournisseurs sont des prix FOB et départ usine et doivent être ajustés pour refléter les frais habituels d'expédition, de manutention et d'assurance dans votre situation.
4. Sur les formulaires de comparaison des prix, choisissez dans ce *Guide*, le produit qui se rapproche le plus de votre produit. Si les prix que vous utilisez localement sont des prix CIF et si vous avez choisi le formulaire de comparaison de l'acheteur, aucun ajustement n'est nécessaire pour l'un ou l'autre de cet ensemble de prix.

Si les prix que vous utilisez localement sont des prix CIF et si vous avez choisi la liste de comparaison du fournisseur, nous recommandons que les prix indiqués sur la liste du fournisseur soient ajustés à la hausse pour refléter les différences entre CIF et départ usine/FOB. Quand les prix sur cette liste sont FOB ou départ usine, il est raisonnable d'ajouter 10% au prix de la liste pour le fret et l'assurance en fonction de la distance et du mode de transport. Tout pourcentage standard demandé pour la manutention a été ajouté aux prix de cette liste.

En cas de fluctuations importantes des taux de change, des ajustements de prix doivent être faits pour refléter ces changements.

5. Une fois les prix du conditionnement soient ajustés pour refléter le fret, l'assurance et autres coûts supplémentaires, diviser le prix du conditionnement par le nombre d'unité de comparaison contenues dans le conditionnement du vendeur (par exemple, diviser le prix

du conditionnement par 1000 si c'est un flacon de 1000 comprimés, ou par 100 si c'est un flacon de 100 ml). Vérifier que l'unité de comparaison utilisée est la même que l'unité de comparaison dans la liste du *Guide*. Le prix médian international d'une unité est indiqué sur les deux formulaires de comparaison des prix.

Vu que la nature du conditionnement peut augmenter nettement le coût d'un produit, il faut faire attention lorsqu'on compare les prix unitaires entre les différents conditionnements. Par exemple, le prix unitaire de médicaments emballés individuellement sous film d'aluminium est généralement bien plus élevé que le prix unitaire de comprimés en vrac dans un flacon de 1000. Les prix du *Guide* ne couvrent pas un conditionnement spécial, sauf s'il est indiqué.

Une analyse de ce type repose sur de nombreuses hypothèses qui influencent son résultat. Les comparaisons de prix internationaux identifient des différences extrêmes de prix, tant élevées que faibles. Un ratio extrêmement élevé entre des prix locaux et des prix du *Guide* pourrait indiquer qu'il existe une source moins chère. Si les prix disponibles localement sont nettement plus faibles que les prix dans ce *Guide*, cela pourrait témoigner d'un approvisionnement mené efficacement, mais pourrait également être le résultat d'un compromis entre le contrôle de qualité, les différences de conditionnement ou autres facteurs susceptibles de réduire la qualité du produit. Ces comparaisons ne sont que des indicateurs et devraient être vues comme des points de départ pour un examen plus approfondi.

ANNEXES

List of Synonyms

Synonym	Name as Listed in the <i>Guide</i>
acetaminophen	paracetamol
adrenaline	epinephrine
ascorbic acid	vitamin C
aspirin	acetylsalicylic acid
AZT	zidovudine
bendrofluazide	bendroflumethiazide
benzathine penicillin	penicillin, benzathine benzyl
benzhexol	trihexyphenidyl
benztropine	benzatropine
benzyl penicillin	penicillin, benzyl
butylscopolamine bromide	hyoscine butylbromide
carbon absorbent	charcoal, activated
chlorpheniramine	chlorphenamine
cholecalciferol	vitamin D-3
cyanocobalamin	vitamin B-12
doxorubicin4.Epi	epirubicin
ergocalciferol	vitamin D
ethanol	alcohol
Factor VIII	antihemophilic factor
frusemide	furosemide
gammabenzene hexachloride	lindane
glucose	dextrose
haemaccel	polygeline
Hartmann's Solution	sodium lactate compound
hydroxycobalamin	vitamin B-12
hydroxyurea	hydroxycarbamide
INH	isoniazid
insulin, short-acting (Actrapid)	insulin, neutral soluble (regular)
insulin, intermediate-acting (Insulatard)	insulin, isophane (NPH)
ipecac syrup	ipecacuanha syrup
IZS	insulin, zinc suspension (lente)
NPH insulin	insulin, isophane (NPH)
lignocaine	lidocaine
nitroglycerin	glyceryl trinitrate
normal saline	sodium chloride 0.9%
penicillin G benzathine	penicillin, benzathine benzyl
penicillin G sodium	penicillin, benzyl
penicillin VK	penicillin, phenoxymethyl
penicillin V potassium	penicillin, phenoxymethyl
phenobarbitone	phenobarbital
phenoxymethyl penicillin	penicillin, phenoxymethyl
phytomenadione	vitamin K-1
povidone	PVP iodine
procaine penicillin	penicillin, procaine benzyl
pyridoxine	vitamin B-6
retinol	vitamin A

Synonym

Ringer's lactate
sodium cromoglycate
stilboestrol
succinylcholine
sulfamethoxazole & trimethoprim
thiamine
thiopentone
thyroxine sodium
vitamin B12a

Name as Listed in the *Guide*

sodium lactate compound
cromoglicic acid
diethylstilbestrol
suxamethonium
co-trimoxazole (smz/tmp)
vitamin B-1
thiopental sodium
levothyroxine sodium
hydroxocobalamin

WHO EML Therapeutic Categories, April 2015

- | | | | |
|------------|---|------------|--|
| 1. | Anaesthetics | | |
| 1.1. | General anaesthetics and oxygen | 6.4.4.2.5. | inhibitors |
| 1.1.1. | Inhalational medicines | 6.5. | Other antivirals |
| 1.1.2. | Injectable medicines | 6.5.1. | Antiprotozoal medicines |
| 1.2. | Local anaesthetics | 6.5.1. | Antiamoebic and anti giardiasis medicines |
| 1.3. | Preoperative medication and sedation for short-term procedures | 6.5.2. | Antileishmaniasis medicines |
| 2. | Medicines for pain and palliative care | 6.5.3. | Antimalarial medicines |
| 2.1. | Non-opioids & nonsteroidal anti-inflammatory medicines (NSAIDs) | 6.5.3.1. | For curative treatment |
| 2.2. | Opioid analgesics | 6.5.3.2. | For prophylaxis |
| 2.3. | Medicines for other common symptoms in palliative care | 6.5.4. | Anti-pneumocystosis and antitoxoplasmosis medicines |
| 3. | Antiallergics and medicines used in anaphylaxis | 6.5.5. | Antitrypanosomal medicines |
| 4. | Antidotes and other substances used in poisonings | 6.5.5.1. | African trypanosomiasis |
| 4.1. | Non-specific | 6.5.5.2. | American trypanosomiasis |
| 4.2. | Specific | 7. | Antimigraine medicines |
| 5. | Anticonvulsants/Antiepileptics | 7.1. | For treatment of acute attack |
| 6. | Anti-infective medicines | 7.2. | For prophylaxis |
| 6.1. | Anthelmintics | 8. | Antineoplastic and immunosuppressives |
| 6.1.1. | Intestinal anthelmintics | 8.1. | Immunosuppressive medicines |
| 6.1.2. | Antifilarials | 8.2. | Cytotoxic and adjuvant medicines |
| 6.1.3. | Antischistosomes and antitrepanematode medicines | 8.3. | Hormones and antihormones |
| 6.2. | Antibacterials | 9. | Antiparkinsonism medicines |
| 6.2.1. | Beta lactam medicines | 10. | Medicines affecting the blood |
| 6.2.2. | Other antibacterials | 10.1. | Antianaemia medicines |
| 6.2.3. | Antileprosy medicines | 10.2. | Medicines affecting coagulation |
| 6.2.4. | Antituberculosis medicines | 10.3. | Other medicines for haemoglobinopathies |
| 6.3. | Antifungal medicines | 11. | Blood products and plasma substitutes of human origin |
| 6.4. | Antiviral medicines | 11.1. | Blood and blood components |
| 6.4.1. | Antiherpes medicines | 11.2. | Plasma-derived medicines |
| 6.4.2. | Antiretrovirals | 11.2.1. | Human immunoglobulins |
| 6.4.2.1. | Nucleoside/nucleotide reverse transcriptase inhibitors | 11.2.2. | Blood coagulation factors |
| 6.4.2.2. | Non-nucleoside reverse transcriptase inhibitors | 11.3. | Plasma substitutes |
| 6.4.2.3. | Protease inhibitors | 12. | Cardiovascular medicines |
| 6.4.3. | Other antivirals | 12.1. | Antianginal medicines |
| 6.4.4. | Antihepatitis medicines | 12.2. | Antiarrhythmic medicines |
| 6.4.4.1. | Medicines for hepatitis B | 12.3. | Antihypertensive medicines |
| 6.4.4.1.1. | Nucleoside/Nucleotide reverse transcriptase inhibitors | 12.4. | Medicines used in heart failure |
| 6.4.4.2. | Medicines for hepatitis C | 12.5. | Antithrombotic medicines |
| 6.4.4.2.1. | Nucleotide polymerase inhibitors | 12.6. | Lipid-lowering agents |
| 6.4.4.2.2. | Protease inhibitors | 13. | Dermatological medicines (topical) |
| 6.4.4.2.3. | NS5A inhibitors | 13.1. | Antifungal medicines |
| 6.4.4.2.4. | Non-nucleoside polymerase | 13.2. | Anti-infective medicines |
| | | 13.3. | Anti-inflammatory and antipruritic medicines |
| | | 13.4. | Medicines affecting skin differentiation and proliferation |
| | | 13.5. | Scabicides and pediculicides |
| | | 14. | Diagnostic agents |
| | | 14.1. | Ophthalmic medicines |

About Management Sciences for Health

Management Sciences for Health (MSH) is an international nonprofit organization, dedicated to closing the gap between what is known about the overwhelming public health challenges facing many nations and what is done to address those challenges.

Since 1971, MSH has worked in more than 150 countries with policymakers, health professionals, and health care consumers to improve the quality, availability, and affordability of health services. We work with governments, donors, nongovernmental organizations, and health agencies to respond to priority health problems such as HIV & AIDS, tuberculosis, malaria, maternal-child health, and reproductive health. Our publications and electronic products augment our assistance in these technical areas.

MSH's staff of more than 2,400 from over 70 nations work in its Medford, Massachusetts, headquarters; offices in the Washington, DC, area; and more than 50 country offices. Through technical assistance, research, training, and systems development, MSH is committed to making a lasting difference in global health.

For more information about Management Sciences for Health, please visit our website at www.msh.org.

About the MSH Center for Pharmaceutical Management

MSH has more than 30 years of experience in establishing, managing, and evaluating pharmaceutical sector activities in developing countries. In 1983, the MSH Drug Management Program (DMP) was established in recognition of the key role that pharmaceuticals play in delivering high-quality health care in developing countries.

In 2001, the DMP was restructured as the Center for Pharmaceutical Management (CPM). The center, building on the work of the DMP, remains committed to providing high-quality technical assistance and training in pharmaceutical management worldwide.

The key to MSH's success in providing technical assistance in pharmaceutical management is our proven ability to work closely with both senior- and operations-level personnel in developing countries, while maintaining strong working relationships with the many international agencies and donors sponsoring our work. These donors include USAID, WHO, PAHO, UNICEF, Danida, the World Bank, and foundations such as the Bill & Melinda Gates Foundation and the Rockefeller Foundation.

CPM has nearly 700 staff members working out of its primary office in the Washington, D.C., area and other locations worldwide, together with a roster of more than 50 expert consultants, who are available as required. For more information on CPM, please contact:

Acerca de Management Sciences for Health

Management Sciences for Health (MSH) es una organización privada sin fines de lucro dedicada a cerrar la brecha entre lo que se sabe acerca de los retos de salud pública de muchas naciones y lo que se hace por resolverlos.

Desde 1971, MSH ha trabajado en más de 150 países, con personal de políticas, profesionales de salud y consumidores de servicios de atención de salud para mejorar la calidad, la disponibilidad y la accesibilidad financiera de los servicios de salud. Trabajamos con los gobiernos, los donantes, las organizaciones no gubernamentales, y las agencias de salud para responder a los problemas prioritarios de salud como el VIH & SIDA, la tuberculosis, el paludismo, la supervivencia maternal-infantil y la salud reproductiva. Nuestros productos electrónicos y publicaciones complementan nuestra asistencia en estas áreas técnicas.

El cuadro de MSH que suma más de 2400 personas de más de 70 naciones trabaja en su sede en Cambridge, Massachusetts, oficinas en los alrededores de Washington, DC y más de 50 oficinas en el terreno. A través de sus investigaciones, asistencia técnica, capacitación y desarrollo de sistemas, MSH se compromete a hacer una diferencia duradera en la salud global.

Acerca del Centro de Gestión Farmacéutica de MSH

MSH tiene más de 30 años de experiencia en el desarrollo, gerencia y evaluación de las actividades del sector farmacéutico en los países en desarrollo. En 1983 creó su programa de gestión farmacéutica (*Drug Management Program*, o DMP), por reconocer el papel esencial de los medicamentos en proporcionar atención médica de calidad en los países en desarrollo.

En 2001 DMP se transformó en el actual Centro de Gestión Farmacéutica (*Center for Pharmaceutical Management*, o CPM), que continúa la labor iniciada por DMP a nivel mundial y su dedicación a proporcionar asistencia técnica y capacitación de alta calidad sobre este tema.

El éxito de MSH en su asistencia técnica sobre la gestión farmacéutica, se debe a su demostrada capacidad para colaborar estrechamente—tanto con el personal de alto nivel, como con el personal operativo en los países en desarrollo—y mantener una sólida relación de trabajo con las diversas organizaciones internacionales y donantes que patrocinan sus actividades. Estos donantes incluyen USAID, OMS, OPS, UNICEF, Danida, el Banco Mundial y fundaciones como la Bill & Melinda Gates y la Rockefeller.

CPM tiene cerca de 700 personas asignadas en su oficina principal en el área metropolitana de Washington, D.C., y en otros lugares por todo el mundo, y cuenta con una lista de más de 50 consultores especializados, que prestan sus servicios cuando estos son necesarios. Para más información sobre CPM, por favor comuníquese con:

A propos de Management Sciences for Health

Management Sciences for Health (MSH) est une organisation internationale à but non lucratif, qui cherche à combler l'écart entre ce que l'on connaît des énormes défis de santé publique qui confrontent de nombreuses nations et ce que l'on fait pour les adresser.

Depuis 1971, MSH a travaillé dans plus de 150 pays avec des décideurs, des professionnels de la santé et des clients des services de santé pour améliorer la qualité et la disponibilité des services de santé, et pour en réduire le coût. Nous collaborons avec les gouvernements, les bailleurs au fonds, les organisations non gouvernementales, et les agences de santé pour répondre aux problèmes prioritaires de santé, tels que le VIH & SIDA, la tuberculose, le paludisme, la santé maternel-enfantine, et la santé de la reproduction. Nos publications et nos produits électroniques sont une forme supplémentaire d'assistance dans ces domaines techniques.

MSH emploie plus de 2400 personnes provenant de plus de 70 nations ; MSH a son siège à Cambridge, dans le Massachusetts, et des bureaux dans les environs de Washington DC ainsi que dans plus de 50 pays. En fournissant assistance technique, recherche, formation, et en développant des systèmes, MSH s'engage à faire une différence durable dans la santé mondiale.

A propos du Centre MSH pour la Gestion des Médicaments

MSH a plus de 30 années d'expérience en ce qui concerne la mise sur pied, la gestion et l'évaluation d'activités du secteur pharmaceutique dans des pays en développement. En 1983, le Programme de Gestion des Médicaments (DMP) de MSH était créé au regard de l'importance cruciale que détiennent les produits pharmaceutiques dans la prestation de soins de santé de qualité dans des pays en développement.

En 2001, le DMP était restructuré donnant naissance au Centre pour la Gestion des Médicaments (CPM). Le Centre, fidèle aux travaux du DMP, reste engagé à fournir une assistance technique et formation de qualité en matière de gestion pharmaceutique dans le monde entier.

MSH sait apporter une assistance technique efficace en matière de gestion pharmaceutique car nous sommes capables de travailler en étroite collaboration avec les cadres supérieurs et opérationnels dans des pays en développement tout en maintenant de relations fortes de travail avec les nombreuses organisations internationales et bailleurs de fonds parrainant nos activités. Ces bailleurs comprennent l'USAID, l'OMS, l'OPS, l'UNICEF, Danida, la Banque mondiale et des fondations telles que la Fondation Bill & Melinda Gates et la Fondation Rockefeller.

CPM compte-t-il près de 700 membres de personnel travaillant à partir de ses bureaux principaux dans la région de Washington, DC, et d'autres endroits mondiaux de pair avec un groupe de plus de 50 consultants hautement spécialisés intervenant de manière ponctuelle.

International Drug Price Indicator Guide

MSH's *International Drug Price Indicator Guide* provides an indication of drug prices on the international market. Updated annually, this *Guide* contains a spectrum of prices from drug suppliers and procurement agencies based on their current price lists. It also contains prices obtained from international development organizations and government agencies. Comparative price information is important for getting the best price, and this is an essential reference for anyone involved in the procurement of pharmaceuticals.

The 2014 edition of the *International Drug Price Indicator Guide* was produced with the World Health Organization.

The *Guide* is also available on MSH's Electronic Resource Center at <http://erc.msh.org/priceguide>.

"As a health economist working on drug policy issues, I find the MSH International Drug Price Indicator Guide invaluable..."

— Research Fellow, London School of Hygiene & Tropical Medicine

"This Guide has become an indispensable tool in our efforts here to promote rational drug use."

— Physician, National Drug Information Center, College of Medicine, the Philippines

Managing Drug Supply:

Managing Access to Medicines and other Health Technologies

Third Edition

Working with authors from around the world, MSH has revised its seminal publication on global pharmaceutical management. Its 52 updated chapters provide an overview and specific suggestions for effectively managing pharmaceutical systems. The publication includes six new chapters on pharmacovigilance, traditional medicines, intellectual property, and other cutting-edge topics. *MDS-3* is available on CD-ROM and online at www.msh.org.
