

**SEMINAR SERIES ON
GENERAL RELATIVITY & RELATIVISTIC ASTROPHYSICS**

Thursday, 24th October 2013
14h15
seminar room M3/ N16

Prof. Michalis Dafermos,
University of Cambridge & Princeton University

„On null singularities in general relativity”

This talk will discuss the formation, structure and interaction of null singularities for the Einstein equations, as well as what this all means for the singular boundary of spacetime within black hole regions.
