

AEG 2000

Vladimir Kalinski

I'm living in Sv. Ivan Zelina/Croatia and Manila/Philippines

My occupation

Freelance consultant. Working worldwide, lately mostly on subjects related to climate change impacts, vulnerability and adaptation. My employers are consultancy firms and international development organisations (i.e. UNDP).

My AEG time

AEG time is remembered as very hard working..but rewarding!
To be honest, I have almost never directly used knowledge gained at AEG but all that knowledge did help me in various aspects of my work with subjects I am working on due to understanding many of background processes. And as with any academic work, MSc study helped development of critical and deductive view to any problem. Personally, AEG gave me an inner strength – that “I CAN DO THIS!” momentum. And Alicia, thank you for helping me with Math!
