## Company Introductions

---

**LG Chem** is a leading global chemical and advanced materials company headquartered in South Korea with a branch in Frankfurt and other locations globally. It operates in various industries, including petrochemicals, advanced materials, and life sciences.

**Introduced by Fabienne Unger & Marie Schreiber, HR Associates**

**LX Hausys** is a major Korean building-materials manufacturer established in 1947, now active internationally with solutions in interior finishes, solid surfaces and decorative materials. European operations are based in Frankfurt.

**Introduced by Ms Tanja Bruns, HR Manager**

## Alumni Introductions

---

**Bosch** is a global technology and engineering company headquartered in Germany, operating in more than 60 countries worldwide. Its core business sectors include mobility solutions, industrial technology, consumer goods and energy & building technology. The company is known for its long-standing innovation in both hardware and software systems.

**Introduced by Michael Metzinger (Alumnus / Power Solutions & Customer Team)**

**FrankfurtRheinMain GmbH** is the official regional economic development agency for the Greater Frankfurt metropolitan area. Funded by the government, the organization promotes the region internationally and supports foreign companies. Its shareholders include all chambers of commerce across the three federal states of Hesse, Rhineland-Palatinate, and Bavaria.

**Introduced by Clara Wolf (Alumna / Assistant to VP Korea, Japan, and ASEAN)**

**Lufthansa** is Germany's largest airline and a leading global aviation group, offering passenger flights, logistics, and aviation services across more than 100 countries. As part of the Lufthansa Group, it is recognized for its global network, international mobility services, and long-standing expertise in the aviation industry.

**Introduced by Paul Stephan (Alumnus / Cabin Crew), online**
