

## Job advertisement

### Student Assistants (m/f/d) for Science Communication & Public Engagement from 01.03.2025 or later for at least 40 hours/month

#### OUR MISSION

Understanding and optimizing education: The [LEAD Graduate School & Research Network](#) at the University of Tübingen and the [Hector Research Institute of Education Sciences and Psychology](#) address questions of empirical educational research. We are looking for your support in communicating our scientific topics to our target groups.

#### YOUR MISSION

- You support the creation and implementation of the editorial calendar for different channels and print products. For example, you will help to write posts, create graphics and upload content to the website.
- You support in keeping all websites up to date.
- You help to place our topics in the media and support the maintenance of our press network.
- You take part in editorial meetings, contribute ideas and provide feedback.

#### YOUR PROFILE

- Affinity for communication & public relations
- Excellent writing skills in English and German.
- Interested in the topic of education sciences and the transfer of scientific insights to the public sector
- Ideally, knowledge of relevant programs (Canva, Typo3, Excel).

You will take on a wide range of tasks and do not have to be able to do everything from the start – according to your knowledge, skills and experiences. Much more important is your willingness to learn and to complete your tasks reliably and with high quality.

If you are interested, we look forward to receiving your application (cover letter, curriculum vitae, high school or university diploma and links to editorial work samples [texts or videos or podcasts]) in **one** PDF document. Please send them to Rebecca Beiter ([presse@lead.uni-tuebingen.de](mailto:presse@lead.uni-tuebingen.de)) with the subject "Job application student assistant". The position will be filled as soon as possible. If you have questions, please contact Rebecca Beiter.

The position is initially limited to six months. Continued employment is planned. The place of work is Tübingen, but home office is partly possible after the first weeks. The University of Tübingen supports qualified female students and asks for their applications. Disabled applicants will be given preference if they are equally qualified.
