

GRK 2381 Science Forum

Schedule for January 2026 to July 2026 (as of 26 January 2026)

Date	Topic	Venue
February 4, 2026 12:15 pm	Prof. Dr. Steven Johnsen (Robert Bosch Center for Tumor Diseases) <i>Targeting Transcriptional and Epigenetic Mechanisms Controlling Pancreatic Cancer Cell Identity for Improved Cancer Treatment</i>	4U09 (ZMBP)
February 11, 2026 12:15 pm	Dr. Effie Bastounis (Uni Tübingen) <i>Listeria-infected macrophages promote biomechanical alterations in endothelial monolayers for transmigration</i>	2T26 (IFIB Lecture Hall, Level 2)
February 18, 2026 12:15 pm	{no Science Forum}	-/-
March 4, 2026 12:15 pm	{no Science Forum}	-/-
March 18, 2026 12:15 pm	Prof. Dr. Alexander Bershadsky (National University of Singapore, Weizmann Institute of Science) <i>Topic: Diverse integrin-mediated cell–matrix adhesions and a unifying model for their regulation by microtubules</i>	4U09 (ZMBP)
April 1, 2026 12:15 pm	{no Science Forum}	-/-
May 6, 2026 12:15 pm	Prof. Dr. Michaela Kuhn (Uni-Würzburg) <i>Novel aspects of atrial natriuretic peptide-mediated organ crosstalks</i>	4U09 (ZMBP)
June 3, 2026 12:15 pm	{no Science Forum}	-/-
July 1, 2026 12:15 pm	Dr. Cristina Pérez Ternero (Queen Mary University of London) <i>From fat to liver through the heart: exploring the roles of cGMP in my research</i>	2T26 (IFIB Lecture Hall, Level 2)
