

Submission of application materials **July 1-31, 2026**

## Attempto Prize 2026

In 2026 again, the **Attempto Foundation** promotes two awards for young neuroscientists from Tübingen for outstanding publications — this time in the amount of 5.000 Euro each.

The work—publications or manuscripts in press from 08/2025 to 06/2026—can be submitted **electronically** along with a short biographical sketch and a publication list to [cin@cin.uni-tuebingen.de](mailto:cin@cin.uni-tuebingen.de). Each applicant should submit only one publication.

Further information is available online under <http://uni-tuebingen.de/de/78778>

The publications have to deal with neuroscientific issues addressing theoretical, experimental or clinical problems. The work has to be carried out in Tübingen. The prize money is intended to support travels for studies and lectures abroad, which are required to be reported to the foundation board in due course.

We address particularly younger neuroscientists at the beginning of their career. The decisive factor is the quality of the work at stake and not the kind and extent of previous achievements.

On behalf of the selection panel  
Prof. Dr. Markus Siegel
