15:15	Discussion on Working Groups
16:00	Wrap up and Closing

Working Groups

Group 1

How time is lived, disrupted, or politicized in conditions of uncertainty, marginality, and historicity

Lana

Caring for an Inconvenient Past: Forging Affective Ties to Heritage “Forgotten” by the State

Ines Gottschalk

Vulnerable Encounters: Time, Space and Affect in Organised Remembrance and Encounter Journeys

Laura Vassileva

Historically Situated Affect and More-than-human Resistance in the War-Torn Ecologies of Lake Van

Lore Graf

Architectures of Staying – Evia after the wildfires of 2021

Martin
Böhnel

Becoming Place in Prison

Barbara &
Valentina

Why here and why now? Identifying time and space of youth

Group 2

How affect circulates through systems, technologies, spaces, and non-human actors

Leonie
Winterpacht

Health: Caring through ComAI

Ayşenur Şener

Conceptualizing Space as an Actor in Research: A Theoretical Discussion on Spatial Agency in the Social Sciences

Lars Wicke

Becoming Involved – Affect as a Starting Point of a Relational Methodology in Educational Research

Sabina Vassileva

When progesterone and estrogen meet the insulin algorithm: mapping the temporal (mis)matches in automated diabetes care technologies

Elisa Thevenot

From Rhythms to Affects: Expanding Rhythmanalysis as a Framework for Affective Inquiry

Helena and Joan

Mapping Affective Atmospheres of Mobility: Infrastructures, Times, and Spaces of Public Transport in Shanghai

Tianlin Ye

The Kitchen City

Group 3	How we research, teach, visualize, and methodologically engage time, space and affect
Priyanka Borpujari	How sketches leverage spatial and affective dimensions in collaborative ethnography
Julia Faulhaber	Coming-of-Age in Football: Seasonal Temporalities, Affect, and Ethnographic Method in Youth Football in Kingston, Jamaica
Mei-Chen Spiegelberg	Broadening positioning analysis within the time-space-affect framework: Insights from Sino German training contexts
Flora and Tamara	Affects as a Limit of Methods? Unpacking Assumptions about Affect, the Human, and Methodology in Qualitative Research
Tamara Schwertel	Affective Regimes in Technoscientific Controversies: Insights from Deep Brain Stimulation
Divyaraj Amiya	"To Each One Her/His/Its Own Bubble!": Towards a Historical Atlas of Changing-Time-Use-Pattern to <i>Teach South Asian Studies</i>
Fiona Schrading	Affective Futures in Social Research: Concepts and Challenges
