

Additional Information on the MEDZ-MEDTECH Module

Important Information

For courses held in buildings of the Faculty of Medicine, you must provide proof of measles vaccination.

Available Courses

1. Bioimaging

If you are interested in taking the course *Bioimaging*, please contact Ms. Elena Lebherz, Studies Coordinator for the Master's program in Biomedical Technologies.

2. MRI Applications for Neuroscientific and Clinical Research

- Lecture: 3 ECTS
- Seminar: available in addition to the lecture

Registration is via ALMA. You can attend either the lecture alone or both the lecture and the seminar. Attending the seminar alone is not recommended.

3. Statistical Imaging in Neuroscience

This course is another option for the MEDZ-MEDTECH module.

Courses Awaiting Confirmation

We have inquired about additional courses that may be eligible for MEDZ-MEDTECH and are currently awaiting confirmation. This includes the lecture *NanoBioPhysik und Rastersondenmikroskopie*.

Suggestions for Additional Courses

If you find any courses offered by the Department of Physics that you think might be eligible for MEDZ-MEDTECH, please contact us. We will be happy to look into them.

This document will be updated once new information is available.
