

Winter Term 2026/27

4.15 - 5.30 pm | Auf der Morgenstelle 28 | E-Bau | 3rd Floor | Lecture Hall N12

02.10.26__
extra event
in room 7E02
at 11 a.m.

Xiao-Jing Wang

Center for Neural Science | Computational Lab of Cortical Dynamics | New York University

"Computational neuroscience of dynamical neural systems."

Host: Nieder

21.10.26__

Get-together between master's students & lecturers

All master's students and faculty in Neurobiology (Tübingen) are invited to attend.

04.11.26__

Scott Pluta

Laboratory for Sensorimotor Integration | Biological Sciences | Purdue University

"TBA."

Host: Veit

18.11.26__

Anna Stöckl

Neurobiology and Behavior | Department of Biology | University of Konstanz

"Adaptive strategies of dynamic action selection in natural visual environments."

Host: Grewe

25.11.26__

Noa Lipstein

Leibniz Research Institute for Molecular Pharmacology & NeuroCure Cluster of Excellence
| Biology of Synapses | Berlin

"TBA."

Host: Burgalossi

17.12.26__

Svenja Caspers (students' choice)

Institute for Anatomy I | Medical Faculty & University Hospital Düsseldorf, Heinrich
Heine University Düsseldorf | Düsseldorf

**"From population neuroscience towards individualized predictions -
A chance for personalized prevention strategies."**

Host: students' choice
